CALIFORNIA STATE BOARD OF BEHAVIORAL SCIENCES

BILL ANALYSIS

BILL NUMBER: AB 796 **VERSION:** AMENDED JANUARY 13, 2016

AUTHOR: NAZARIAN **SPONSOR:** DIR FLOOR TIME COALITION

RECOMMENDED POSITION: NONE

SUBJECT: HEALTH CARE COVERAGE: AUTISM AND PERVASIVE DEVELOPMENTAL DISORDERS

Summary:

This bill seeks ensure that individuals with pervasive development disorder or autism are able to receive insurance coverage for types of evidence-based behavioral health treatment other than applied behavior analysis. To accomplish this, it directs the Board of Psychology to form a committee to develop a list of acceptable behavioral health evidence-based treatment modalities.

Existing Law:

- 1) Requires that every health care service plan or insurance policy that provides hospital, medical or surgical coverage must also provide coverage for behavioral health treatment for pervasive developmental disorder or autism (PDD/A). (Health and Safety Code (HSC) §1374.73(a), Insurance Code (IC) §10144.51(a))
- 2) Requires these health care service plans and health insurers subject to this provision to maintain an adequate network of qualified autism service providers. (HSC §1374.73(b), IC §10144.51(b))
- 3) Defines “behavioral health treatment” as professional services and treatment programs, including applied behavior analysis and evidence-based behavior intervention programs, which develop or restore the functioning of an individual with pervasive developmental disorder or autism, and meets the following criteria (HSC §1374.73(c), IC §10144.51(c):
 - a) Is prescribed by a licensed physician and surgeon or is developed by a licensed psychologist;
 - b) Is provided under a treatment plan prescribed by a qualified autism service provider and administered by such a provider or by a qualified autism service professional under supervision and employment of a qualified autism service provider;
 - c) The treatment plan has measurable goals over a specific timeline and the plan is reviewed by the provider at least once every six months; and

- d) Is not used for purposes of providing or for the reimbursement of respite, day care, or educational services.
- 4) Defines a “qualified autism service provider” as either (HSC §1374.73(c), IC §10144.51(c)):
- a) A person, entity, or group that is certified by a national entity, such as the Behavior Analyst Certification Board, that is accredited and which designs, supervises, or provides treatment for pervasive developmental disorder or autism; or
 - b) A person who is licensed as a specified healing arts practitioner, including a psychologist, marriage and family therapist, educational psychologist, clinical social worker, or professional clinical counselor. The licensee must design, supervise, or provide treatment for pervasive developmental disorder or autism and be within his or her experience and competence.
- 5) Defines a “qualified autism service professional” as someone who meets all of the following (HSC §1374.73(c), IC §10144.51(c)):
- a) Provides behavioral health treatment;
 - b) Is employed and supervised by a qualified autism service provider;
 - c) Provides treatment according to a treatment plan developed and approved by the qualified autism service provider.
 - d) Is a behavioral service provider approved by a regional center to provide services as an Associate Behavior Analyst, Behavior Analyst, Behavior Management Assistant, Behavior Management Consultant, or Behavior Management Program as defined in Section 54342 of Title 17 of the California Code of Regulations (CCR); and
 - e) Has training and experience providing services for pervasive developmental disorder or autism pursuant to the Lanterman Developmental Disabilities Services Act.
- 6) Defines a “qualified autism service paraprofessional” as an unlicensed and uncertified person who meets all of the following (HSC §1374.73(c), IC §10144.51(c)):
- a) Is employed and supervised by a qualified autism service provider;
 - b) Provides treatment according to a treatment plan developed and approved by the qualified autism service provider;
 - c) Meets criteria set forth in regulations regarding use of paraprofessionals in group practice providing behavioral intervention services; and

- d) Is certified by a qualified autism service provider as having adequate education, training, and experience.
- 7) Defines vendor service codes and sets requirements for regional centers to classify the following professions (CCR 17 §54342):
- a) Associate Behavior Analysts;
 - b) Behavior Analysts;
 - c) Behavior Management Assistants;
 - d) Behavior Management Consultants; and
 - e) Behavior Management Programs.

This Bill:

- 1) Requires the Board of Psychology to form a committee to create a list of behavioral health evidence-based treatment modalities for PDD/A. (HSC §1374.73(g), IC §10144.51(g))
- 2) Extends the provisions in law requiring health care contracts and insurance policies to provide coverage for PDD/A from January 1, 2017 to January 1, 2022. (HSC §1374.73(h), IC §10144.51(h))

Comments:

- 1) **Author's Intent.** SB 946 (Chapter 650, Statutes of 2011) required health service plan and insurance policies to provide coverage for evidence-based behavioral health treatment for PDD/A. However, this bill only referenced one type of behavioral health treatment, which was applied behavior analysis (ABA).

According to the author, although SB 946 intended that the type of evidence-based behavioral health treatment prescribed should be selected by the physician who best knows the patient, the reference to ABA in the bill has caused insurance companies to develop networks of ABA practitioners, but not necessarily a network of practitioners of other forms of evidence-based behavioral health treatment.

Due to this, the author notes that it is difficult for patients with PDD/A, who have been prescribed an evidence-based treatment that is not ABA, to obtain coverage for that treatment. Instead, they are forced to accept a form of behavioral health treatment that has not been prescribed.

By having the Board of Psychology develop a list of other types of appropriate evidence-based treatments for PDD/A, the author's office is seeking to ensure that a PDD/A patient will be able to obtain insurance coverage for treatments other than ABA, if his or her doctor believes that other treatment is more appropriate.

- 2) **Related Legislation.** The California Association for Behavior Analysis is currently sponsoring a bill proposal (AB 1715, Holden), which would create a licensure

category for behavior analysts and assistant behavior analysts under the Board of Psychology.

The prospect of competing types of effective behavioral health treatment may raise questions about the implications of establishing a licensure category for one of the treatment types, but not the others.

SB 1034 (Mitchell) would extend indefinitely the provisions in current law that all health insurance plans must provide coverage for behavioral health treatment for PDD/A. (This bill instead proposes extending them until January 1, 2022).

- 3) Previous Legislation.** SB 946 (Chapter 650, Statutes of 2011) requires every health care service plan contract and insurance policy that provides hospital, medical, or surgical coverage shall also provide coverage for behavioral health treatment for PDD/A.

AB 171 (Beall, 2012), would have required health care service plan contracts and health insurance policies to provide coverage for the screening, diagnosis, and treatment of PDD/A other than behavioral health treatment. This bill died in the Senate Health Committee.

SB 126 (Chapter 680, Statutes of 2013) extended the provisions of SB 946 until January 1, 2017.

- 4) Previous Position.** This bill is a two-year bill. When the Board considered this bill last year, the author was seeking to accomplish the same purpose, but the approach was different. Last year, the bill was proposing to amend the definition of “qualified autism service professional” and “qualified autism service paraprofessional” to allow insurance coverage for types of behavioral health treatment other than applied behavior analysis.

At its May 2015 meeting, the Board considered this bill and decided to take a “neutral” position. It also directed staff to bring the bill back to the Board for consideration if it moved forward.

AMENDED IN ASSEMBLY JANUARY 13, 2016

AMENDED IN ASSEMBLY JANUARY 4, 2016

CALIFORNIA LEGISLATURE—2015–16 REGULAR SESSION

ASSEMBLY BILL

No. 796

**Introduced by Assembly Member Nazarian
(Coauthor: Assembly Member Rendon)**

February 26, 2015

An act to amend Section 1374.73 of the Health and Safety Code, and to amend Section 10144.51 of the Insurance Code, relating to health care coverage.

LEGISLATIVE COUNSEL'S DIGEST

AB 796, as amended, Nazarian. Health care coverage: autism and pervasive developmental disorders.

Existing law provides for the licensure and regulation of health care service plans by the Department of Managed Health Care. A violation of those provisions is a crime. Existing law provides for the licensure and regulation of health insurers by the Department of Insurance.

Existing law requires every health care service plan contract and health insurance policy to provide coverage for behavioral health treatment for pervasive developmental disorder or autism until January 1, 2017, and defines "behavioral health treatment" to mean specific services provided by, among others, a qualified autism service professional supervised and employed by a qualified autism service provider. For purposes of this provision, existing law defines a "qualified autism service professional" to mean a person who, among other requirements, is a behavior service provider approved as a vendor by a California regional center to provide services as an associate behavior

analyst, behavior analyst, behavior management assistant, behavior management consultant, or behavior management program pursuant to specified regulations adopted under the Lanterman Developmental Disabilities Services Act.

This bill would extend the operation of these provisions to January 1, 2022. By extending the operation of these provisions, the violation of which by a health care service plan would be a crime, the bill would impose a state-mandated local program. The bill would require the Board of Psychology, no later than December 31, 2017, and thereafter as necessary, to convene a committee to create a list of evidence-based treatment modalities for purposes of ~~developing mandated~~ behavioral health treatment ~~modalities~~ for pervasive developmental disorder or ~~autism~~ autism, and to post the list on the department's Internet Web site no later than January 1, 2019.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.

The people of the State of California do enact as follows:

- 1 SECTION 1. The Legislature finds and declares all of the
- 2 following:
- 3 (a) Autism and other pervasive developmental disorders are
- 4 complex neurobehavioral disorders that include impairments in
- 5 social communication and social interaction combined with rigid,
- 6 repetitive behaviors, interests, and activities.
- 7 (b) Autism covers a large spectrum of symptoms and levels of
- 8 impairment ranging in severity from somewhat limiting to a severe
- 9 disability that may require institutional care.
- 10 (c) One in 68 children born today will be diagnosed with autism
- 11 or another pervasive developmental disorder.
- 12 (d) Research has demonstrated that children diagnosed with
- 13 autism can often be helped with early administration of behavioral
- 14 health treatment.
- 15 (e) There are several forms of evidence-based behavioral health
- 16 treatment, including, but not limited to, applied behavioral analysis.

1 (f) Children diagnosed with autism respond differently to
2 behavioral health treatment.

3 (g) It is critical that each child diagnosed with autism receives
4 the specific type of evidence-based behavioral health treatment
5 best suited to him or her, as prescribed by his or her physician or
6 developed by a psychologist.

7 (h) The Legislature intends that all forms of evidence-based
8 behavioral health treatment be covered by health care service plans,
9 pursuant to Section 1374.73 of the Health and Safety Code, and
10 health insurance policies, pursuant to Section 10144.51 of the
11 Insurance Code.

12 (i) The Legislature intends that health care service plan provider
13 networks include qualified professionals practicing all forms of
14 evidence-based behavioral health treatment other than just applied
15 behavioral analysis.

16 SEC. 2. Section 1374.73 of the Health and Safety Code is
17 amended to read:

18 1374.73. (a) (1) Every health care service plan contract that

20 coverage for behavioral health treatment for pervasive
21 developmental disorder or autism no later than July 1, 2012. The
22 coverage shall be provided in the same manner and shall be subject
23 to the same requirements as provided in Section 1374.72.

24 (2) Notwithstanding paragraph (1), as of the date that proposed
25 final rulemaking for essential health benefits is issued, this section
26 does not require any benefits to be provided that exceed the
27 essential health benefits that all health plans will be required by
28 federal regulations to provide under Section 1302(b) of the federal

30 as amended by the federal Health Care and Education

2 regulations.

3 (b) Every health care service plan subject to this section shall
4 maintain an adequate network that includes qualified autism service

CALIFORNIA STATE BOARD OF BEHAVIORAL SCIENCES

BILL ANALYSIS

BILL NUMBER: AB 1001

VERSION: AMENDED JANUARY 14, 2016

AUTHOR: MAIENSCHIN

**SPONSOR: CHILDREN'S ADVOCACY INSTITUTE
AT UNIVERSITY OF SAN DIEGO
SCHOOL OF LAW**

RECOMMENDED POSITION: NONE

SUBJECT: CHILD ABUSE: REPORTING: FOSTER FAMILY AGENCIES

Overview:

- 1) This bill seeks to address a report that social workers who work for foster family agencies are sometimes prohibited by their supervisors from making mandated reports of child abuse. Foster family agencies are licensed by the Department of Social Services. The amendments in this bill give the Department of Social Services more authority to ensure that foster family agencies follow mandated reporting requirements.

Existing Law:

- 1) Specifies that licensees of the Board of Behavioral Sciences (Board) are mandated reporters under the Child Abuse and Neglect Reporting Act and as such, must submit a report whenever in their professional capacity, they have knowledge of, or observe a child who is known, or reasonably suspected to have been, a victim of child abuse or neglect. (Penal Code (PC) §§11165.7(a)(21) – (25) and 11166(a))
- 2) Requires mandated reports of suspected child abuse or neglect be made to any police or sheriff's department, the county probation department, or the county welfare department. (PC §11165.9)
- 3) Makes mandated reporting duties individual. Supervisors or administrators may not impede reporting duties, and mandated reporters shall not be subject to sanctions for making a report. (PC §11166(i)(1))
- 4) States that reporting a case of possible child abuse or neglect to an employer or supervisor is not a substitute for making a mandated report to a designated agency. (PC §11166(i)(3))
- 5) States that a supervisor or administrator who impedes reporting duties shall be punished by a fine up to \$1,000 and/or up to six months in county jail. (PC §11166.01)

- 6) Defines a “foster family agency” (FFA), as a public agency or private organization engaged in the recruiting, certifying, and training of foster parents, or in finding homes for placement of children for temporary or permanent care. (Health and Safety Code (HSC) §1502(a)(4))

This Bill:

- 1) This bill focuses on mandated reporting from foster family agencies, which are licensed by the Department of Social Services (DSS). The bill makes four new amendments in an effort to increase the Department of Social Services’ enforcement power over foster family agencies in order to ensure that they are following mandated reporting requirements. The four amendments are as follows:
 - a. If the DSS requires orientation training for board members or administrators of a foster family agency, it must include training on mandated reporting duties. (HSC §1556.5(a))
 - b. If the DSS requires an FFA to submit a written plan of operation as a requirement for licensure, that plan must include written policies, procedures, or practices to ensure that the foster family agency does not violate mandated reporting requirements. (HSC §1556.5(b))
 - c. Requires the DSS to take reasonable action against a supervisor or administrator who impedes or inhibits mandated reporting duties. This may include prohibiting a person from being a board member, executive, or officer of an FFA, or denying, suspending or revoking an FFA license. (HSC §1558(i))
 - d. Allows FFA social workers to participate in DSS’s already-existing process for social workers to voluntarily report violations of mandated reporting requirements. (Welfare and Institutions Code (W&I) §10605.5(e))

Comment:

- 2) **Author’s Intent.** The author’s office states that social workers who work for FFAs, as well as one teacher, have reported to the Children’s Advocacy Institute at the University Of San Diego School Of Law that supervisors at some FFAs are willing to override child abuse mandated reporting requirements. The purpose of this bill is to give the state agency that licenses FFAs more authority to ensure mandated reporting requirements are followed.
- 3) **Previous Position.** This bill is a two-year bill and was considered by the Board at its May 2015 meeting. That version of the bill amended the Penal Code section that addresses mandated reporting in an attempt to clarify that it is illegal for anyone, including a supervisor, to impede or interfere with the making of a mandated report of suspected child abuse or neglect. The Board took a “support” version on the 2015 version of this bill. It has been amended significantly since then, and no longer amends the Penal Code.

AMENDED IN ASSEMBLY JANUARY 4, 2016

CALIFORNIA LEGISLATURE—2015–16 REGULAR SESSION

ASSEMBLY BILL

No. 1001

Introduced by Assembly Member Maienschein
(Coauthors: Assembly Members Chávez and Gallagher)
(Coauthor: Senator Anderson)

February 26, 2015

An act to amend Section ~~1554~~ 1558 of, and to add Sections ~~1550.1~~ and Section 1556.5 to, the Health and Safety Code, and to amend Section 10605.5 of the Welfare and Institutions Code, relating to child abuse.

LEGISLATIVE COUNSEL'S DIGEST

AB 1001, as amended, Maienschein. Child abuse: reporting: foster family agencies.

(1) The Child Abuse and Neglect Reporting Act requires a mandated reporter, as defined, to make a report to a specified agency whenever the mandated reporter, in his or her professional capacity or within the scope of his or her employment, has knowledge of or observes a child whom the mandated reporter knows or reasonably suspects has been the victim of child abuse or neglect. Under existing law, the failure to make this report is a crime. Existing law also prohibits a supervisor or administrator from impeding or inhibiting the reporting duties, provides that a person making the report shall not be subject to any sanctions for making the report, and prohibits internal procedures to facilitate reporting from requiring any employee required to make reports to disclose his or her identity to the employer.

Existing law, the California Community Care Facilities Act (the act), governs the licensing and regulation of community care facilities, as defined, including foster family agencies for children. Existing law vests responsibility for administering and enforcing laws and regulations governing those facilities in the State Department of Social Services. *Existing law authorizes the department to prohibit a person from being a member of the board of directors, an executive director, or an office of a licensee, or a licensee from employing, or continuing the employment of, or allowing in a licensed facility or certified family home, or allowing contact with clients of a licensed facility or certified family home by, any employee, prospective employee, or person who is not a client who has committed various acts or has been denied an exemption to work or to be present in a facility or certified family home, as specified*

~~This bill would require the department to deny an application for, or suspend or revoke, a license pursuant to the act, upon a finding that the applicant or licensee has impeded or inhibited those mandated reporting duties, sanctioned a person making a report, or required an employee to disclose his or her identity to the employer in violation of the provisions described above governing mandated reporters. The bill would prohibit the reinstatement of a license, registration, or special permit that is suspended pursuant to this provision, as specified. The bill would also impose other related requirements on the department governing conditions of licensure.~~

This bill would require that if the department, as a condition of licensure, requires the chief executive officer or other authorized member of the board of directors and the administrator of a foster family agency to attend an orientation give by the licensing agency that outlines the applicable rules and regulations for operation of a foster family agency, then that orientation shall include a description of policies, procedures, or practices, that violate the provisions described above governing mandated reporters. The bill would also require the department to take reasonable action, including, among other things, prohibiting a person from being a member of the board of directors, upon a finding of a violation of the provisions described above governing mandated reporters.

(2) Existing law requires the department, in consultation with counties and labor organizations, to establish a process to receive voluntary disclosures from social workers, if a social worker has reasonable cause to believe that a policy, procedure, or practice, related to the provision

of child welfare services by a county child welfare agency, meets any of specified conditions, including that the policy, procedure, or practice endangers the health or well-being of children or is contrary to *an* existing statute or regulation. Existing law requires the department to make available to counties and labor organizations a description of the process established, and, no later than January 1, 2018, to report to the Legislature the total number of relevant disclosures received from social workers and a summary description of both the issues raised in the disclosures received and the actions taken by the department in response to the disclosures, and to post the information on the department's Internet Web site.

This bill would, effective January 1, 2018, require the department to carry out the duties imposed pursuant to these provisions with respect to voluntary disclosures from social workers employed at a foster family agency, as defined, including, but not limited to, disclosures from social workers who have reasonable cause to believe that a policy, procedure, or practice violates the provisions governing mandated reporters described in paragraph (1). The bill would require the department to make a report regarding this information, similar to the report required pursuant to existing law, no later than July 1, 2019, and to post the information on its Internet Web site.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.

PENAL CODE - PEN

PART 4. PREVENTION OF CRIMES AND APPREHENSION OF CRIMINALS [11006 - 14315] (Part 4 added by Stats. 1953, Ch. 1385.)

TITLE 1. INVESTIGATION AND CONTROL OF CRIMES AND CRIMINALS [11006 - 11460] (Title 1 added by Stats. 1953, Ch. 1385.)

CHAPTER 2. Control of Crimes and Criminals [11150 - 11199.5] (Chapter 2 added by Stats. 1953, Ch. 70.)

ARTICLE 2.5. Child Abuse and Neglect Reporting Act [11164 - 11174.3] (Heading of Article 2.5 amended by Stats. 1987, Ch. 1444, Sec. 1.)

11166. (a) Except as provided in subdivision (d), and in Section 11166.05, a mandated reporter shall make a report to an agency specified in Section 11165.9 whenever the mandated reporter, in his or her professional capacity or within the scope of his or her employment, has knowledge of or observes a child whom the mandated reporter knows or reasonably suspects has been the victim of child abuse or neglect. The mandated reporter shall make an initial report by telephone to the agency immediately or as soon as is practicably possible, and shall prepare and send, fax, or electronically transmit a written followup report within 36 hours of receiving the information concerning the incident. The mandated reporter may include with the report any nonprivileged documentary evidence the mandated reporter possesses relating to the incident.

(1) For purposes of this article, "reasonable suspicion" means that it is objectively reasonable for a person to entertain a suspicion, based upon facts that could cause a reasonable person in a like position, drawing, when appropriate, on his or her training and experience, to suspect child abuse or neglect. "Reasonable suspicion" does not require certainty that child abuse or neglect has occurred nor does it require a specific medical indication of child abuse or neglect; any "reasonable suspicion" is sufficient. For purposes of this article, the pregnancy of a minor does not, in and of itself, constitute a basis for a reasonable suspicion of sexual abuse.

(2) The agency shall be notified and a report shall be prepared and sent, faxed, or electronically transmitted even if the child has expired, regardless of whether or not the possible abuse was a factor contributing to the death, and even if suspected child abuse was discovered during an autopsy.

(3) A report made by a mandated reporter pursuant to this section shall be known as a mandated report.

(b) If, after reasonable efforts, a mandated reporter is unable to submit an initial report by telephone, he or she shall immediately or as soon as is practicably possible, by fax or electronic transmission, make a one-time automated written report on the form prescribed by the Department of Justice, and shall also be available to respond to a telephone followup call by the agency with which he or she filed the report. A mandated reporter who files a one-time automated written report because he or she was unable to submit an initial report by telephone is not required to submit a written followup report.

(1) The one-time automated written report form prescribed by the Department of Justice shall be clearly identifiable so that it is not mistaken for a standard written followup report. In addition, the automated one-time report shall contain a section that allows the mandated reporter to state the reason the initial telephone call was not able to be completed. The reason for the submission of the one-time automated written report in lieu of the procedure prescribed in subdivision (a) shall be captured in the Child Welfare Services/Case Management System (CWS/CMS). The department shall work with stakeholders to modify reporting forms and the CWS/CMS as is necessary to accommodate the changes enacted by these provisions.

(2) This subdivision shall not become operative until the CWS/CMS is updated to capture the information prescribed in this subdivision.

(3) This subdivision shall become inoperative three years after this subdivision becomes operative or on January 1, 2009, whichever occurs first.

(4) On the inoperative date of these provisions, a report shall be submitted to the counties and the Legislature by the State Department of Social Services that reflects the data collected from automated one-time reports indicating the reasons stated as to why the automated one-time report was filed in lieu of the initial telephone report.

(5) Nothing in this section shall supersede the requirement that a mandated reporter first attempt to make a report via telephone, or that agencies specified in Section 11165.9 accept reports from mandated reporters and other persons as required.

(c) A mandated reporter who fails to report an incident of known or reasonably suspected child abuse or neglect as required by this section is guilty of a misdemeanor punishable by up to six months confinement in a county jail or by a fine of one thousand dollars (\$1,000) or by both that imprisonment and fine. If a mandated reporter intentionally conceals his or her failure to report an incident known by the mandated reporter to be abuse or severe neglect under this section, the failure to report is a continuing offense until an agency specified in Section 11165.9 discovers the offense.

(d) (1) A clergy member who acquires knowledge or a reasonable suspicion of child abuse or neglect during a penitential communication is not subject to subdivision (a). For the purposes of this subdivision, "penitential communication" means a communication, intended to be in confidence, including, but not limited to, a sacramental confession, made to a clergy member who, in the course of the discipline or practice of his or her church, denomination, or organization, is authorized or accustomed to hear those communications, and under the discipline, tenets, customs, or practices of his or her church, denomination, or organization, has a duty to keep those communications secret.

(2) Nothing in this subdivision shall be construed to modify or limit a clergy member's duty to report known or suspected child abuse or neglect when the clergy member is acting in some other capacity that would otherwise make the clergy member a mandated reporter.

(3) (A) On or before January 1, 2004, a clergy member or any custodian of records for the clergy member may report to an agency specified in Section 11165.9 that the clergy member or any custodian of records for the clergy member, prior to January 1, 1997, in his or her professional capacity or within the scope of his or her employment, other than during a penitential communication, acquired knowledge or had a reasonable suspicion that a child had been the victim of sexual abuse and that the clergy member or any custodian of records for the clergy member did not previously report the abuse to an agency specified in Section 11165.9. The provisions of Section 11172 shall apply to all reports made pursuant to this paragraph.

(B) This paragraph shall apply even if the victim of the known or suspected abuse has reached the age of majority by the time the required report is made.

(C) The local law enforcement agency shall have jurisdiction to investigate any report of child abuse made pursuant to this paragraph even if the report is made after the victim has reached the age of majority.

(e) (1) A commercial film, photographic print, or image processor who has knowledge of or observes, within the scope of his or her professional capacity or employment, any film, photograph, videotape, negative, slide, or any representation of information, data, or an image, including, but not limited to, any film, filmstrip, photograph, negative, slide, photocopy, videotape, video laser disc, computer hardware, computer software, computer floppy disk, data storage medium, CD-ROM, computer-generated equipment, or computer-generated image depicting a child under 16 years of age engaged in an act of sexual conduct, shall, immediately or as soon as practicably possible, telephonically report the instance of suspected abuse to the law enforcement agency located in the county in which the images are seen. Within 36 hours of receiving the information concerning the incident, the reporter shall prepare and send, fax, or electronically transmit a written followup report of the incident with a copy of the image or material attached.

(2) A commercial computer technician who has knowledge of or observes, within the scope of his or her professional capacity or employment, any representation of information, data, or an image, including, but not limited to, any computer hardware, computer software, computer file, computer floppy disk, data storage medium, CD-ROM, computer-generated equipment, or computer-generated image that is retrievable in perceivable form and that is intentionally saved, transmitted, or organized on an electronic medium, depicting a child under 16 years of age engaged in an act of sexual conduct, shall immediately, or as soon as practicably possible, telephonically report the instance of suspected abuse to the law enforcement agency located in the county in which the images or materials are seen. As soon as practicably possible after receiving the information concerning the incident, the reporter shall prepare and send, fax, or electronically transmit a written followup report of the incident with a brief description of the images or materials.

(3) For purposes of this article, "commercial computer technician" includes an employee designated by an employer to receive reports pursuant to an established reporting process authorized by subparagraph (B) of paragraph (43) of subdivision (a) of Section 11165.7.

(4) As used in this subdivision, "electronic medium" includes, but is not limited to, a recording, CD-ROM, magnetic disk memory, magnetic tape memory, CD, DVD, thumbdrive, or any other computer hardware or media.

(5) As used in this subdivision, "sexual conduct" means any of the following:

(A) Sexual intercourse, including genital-genital, oral-genital, anal-genital, or oral-anal, whether between persons of the same or opposite sex or between humans and animals.

(B) Penetration of the vagina or rectum by any object.

(C) Masturbation for the purpose of sexual stimulation of the viewer.

(D) Sadomasochistic abuse for the purpose of sexual stimulation of the viewer.

(E) Exhibition of the genitals, pubic, or rectal areas of a person for the purpose of sexual stimulation of the viewer.

(f) Any mandated reporter who knows or reasonably suspects that the home or institution in which a child resides is unsuitable for the child because of abuse or neglect of the child shall bring the condition to the attention of the agency to which, and at the same time as, he or she makes a report of the abuse or neglect pursuant to subdivision (a).

(g) Any other person who has knowledge of or observes a child whom he or she knows or reasonably suspects has been a victim of child abuse or neglect may report the known or suspected instance of child abuse or neglect to an agency specified in Section 11165.9. For purposes of this section, "any other person" includes a mandated reporter who acts in his or her private capacity and not in his or her professional capacity or within the scope of his or her employment.

(h) When two or more persons, who are required to report, jointly have knowledge of a known or suspected instance of child abuse or neglect, and when there is agreement among them, the telephone report may be made by a member of the team selected by mutual agreement and a single report may be made and signed by the selected member of the reporting team. Any member who has knowledge that the member designated to report has failed to do so shall thereafter make the report.

(i) (1) The reporting duties under this section are individual, and no supervisor or administrator may impede or inhibit the reporting duties, and no person making a report shall be subject to any sanction for making the report. However, internal procedures to facilitate reporting and apprise supervisors and administrators of reports may be established provided that they are not inconsistent with this article.

(2) The internal procedures shall not require any employee required to make reports pursuant to this article to disclose his or her identity to the employer.

(3) Reporting the information regarding a case of possible child abuse or neglect to an employer, supervisor, school principal, school counselor, coworker, or other person shall not be a substitute for making a mandated report to an agency specified in Section 11165.9.

(j) (1) A county probation or welfare department shall immediately, or as soon as practicably possible, report by telephone, fax, or electronic transmission to the law enforcement agency having jurisdiction over the case, to the agency given the responsibility for investigation of cases under Section 300 of the Welfare and Institutions Code, and to the district attorney's office every known or suspected instance of child abuse or neglect, as defined in Section 11165.6, except acts or omissions coming within subdivision (b) of Section 11165.2, or reports made pursuant to Section 11165.13 based on risk to a child that relates solely to the inability of the parent to provide the child with regular care due to the parent's substance abuse, which shall be reported only to the county welfare or probation department. A county probation or welfare department also shall send, fax, or electronically transmit a written report thereof within 36 hours of receiving the information concerning the incident to any agency to which it makes a telephone report under this subdivision.

(2) A county probation or welfare department shall immediately, and in no case in more than 24 hours, report to the law enforcement agency having jurisdiction over the case after receiving information that a child or youth who is receiving child welfare services has been identified as the victim of commercial sexual exploitation, as defined in subdivision (d) of Section 11165.1.

(3) When a child or youth who is receiving child welfare services and who is reasonably believed to be the victim of, or is at risk of being the victim of, commercial sexual exploitation, as defined in Section 11165.1, is missing or has been abducted, the county probation or welfare department shall immediately, or in no case later than 24 hours from receipt of the information, report the incident to the appropriate law enforcement authority for entry into the National Crime Information Center database of the Federal Bureau of Investigation and to the National Center for Missing and Exploited Children.

(k) A law enforcement agency shall immediately, or as soon as practicably possible, report by telephone, fax, or electronic transmission to the agency given responsibility for investigation of cases under Section 300 of the Welfare and Institutions Code and to the district attorney's office every known or suspected instance of child abuse

or neglect reported to it, except acts or omissions coming within subdivision (b) of Section 11165.2, which shall be reported only to the county welfare or probation department. A law enforcement agency shall report to the county welfare or probation department every known or suspected instance of child abuse or neglect reported to it which is alleged to have occurred as a result of the action of a person responsible for the child's welfare, or as the result of the failure of a person responsible for the child's welfare to adequately protect the minor from abuse when the person responsible for the child's welfare knew or reasonably should have known that the minor was in danger of abuse. A law enforcement agency also shall send, fax, or electronically transmit a written report thereof within 36 hours of receiving the information concerning the incident to any agency to which it makes a telephone report under this subdivision.

Summary

This bill establishes licensure for behavior analysts and assistant behavior analysts under the Board of Psychology. In addition, it would require behavior analyst interns and behavior analyst technicians to register with the Board of Psychology.

Existing Law:

- 1) Requires that every health care service plan or insurance policy that provides hospital, medical or surgical coverage must also provide coverage for behavioral health treatment for pervasive developmental disorder or autism (PDD/A).  - Is prescribed by a licensed physician and surgeon or is developed by a licensed psychologist;
 - Is provided under a treatment plan prescribed by a qualified autism service provider and administered by such a provider or by a qualified autism service professional under supervision and employment of a qualified autism service provider;

 - Behavior Management Assistant; and
 - Behavior Management Consultant.

This Bill:

- 1) Establishes the Behavior Analyst Act to license behavior analysts and assistant behavior analysts, and to register behavior analyst interns and technicians, under the Board of Psychology beginning January 1, 2018. (Business and Professions Code (BPC) §2999.10, et. seq.)
- 2) Defines the “practice of behavior analysis” as the design, implementation, and evaluation of instructional and environmental modifications to produce socially significant improvements in human behavior. It includes the following (BPC §2999.12):
 - Empirical identification of functional relations between behavior and environmental factors;
 - Interventions based on scientific research and direct observation and measurement of behavior and the environment; and
 - Utilization of contextual factors, motivating operations, antecedent stimuli, positive reinforcement, and other consequences to help develop new behaviors, increase or decrease existing behaviors, and emit behaviors under specific environmental conditions.

(BPC §2999.12)
- 4) States that nothing in the Behavior Analyst Act shall be construed to allow a licensee to engage in the scope of practices of other healing arts licensees. Such a violation

Comments:

1) Intent of This Bill. Applied Behavior Analysis (ABA) is commonly used to treat autism spectrum disorders. During the past decade, there has been increasing evidence that ABA therapy is effective in the treatment of autism, and there has been an increase in the practice of this profession in California. State law now mandates that insurance plans provide coverage for ABA treatment. However, the California Business and Professions Code does not apply any standard requirements to the practice of ABA.

Because there is no licensure for ABAs, it is difficult for consumers to make an informed decision when choosing an applied behavior analyst. In some cases, ABA

programs may be designed, supervised, and/or implemented by someone who lacks training and experience.

The goal of this bill is establish licensure for behavior analysts and assistant behavior analysts, so that individuals with autism are protected from unqualified practitioners.

- 2) Ability of Board Licensees to Become Dually Licensed.** As written, this bill allows BBS licensees to continue to practice behavior analysis as part of their scope of services, as long as they are competent to practice them, and as long as they do not hold themselves out to be a licensed behavior analyst or licensed assistant behavior analyst.

However, if a BBS licensee wishes to obtain licensure as a behavior analyst, it may be difficult to do so. BPC §2999.32(d) requires an applicant to have a master's degree or higher in behavior analysis, psychology, education, or in a degree program with a behavior analysis course sequence approved by the certifying entity (currently this is the BACB). These degree titles are required both by law, and are also required for a certification as a behavior analyst with the BACB. (a BACB certification is required by law for licensure.)

Attachment A provides the BACB's definitions of acceptable degrees for certification. It is unclear if the BACB would accept marriage and family therapy, clinical social work, or clinical counseling degrees under these definitions.

- 3) Ability of Board Registrants and Trainees to Gain Supervised Experience Practicing Behavior Analysis.** The exemptions from licensure listed in BPC §2999.38 no longer contain an allowance for BBS trainees and registrants to practice behavior analysis even if they are doing so to gain experience hours toward a BBS license.
- 4) Ability of Board Licensees to Supervise Assistant Behavior Analysts and Behavior Analyst Technicians.** Although this bill allows BBS licensees to continue to practice behavior analysis if it is in the scope of their competence, it does not allow them to supervise licensed assistant behavior analysts, behavior analyst interns, or behavior analysis technicians.

Licensed assistant behavior analysts and behavior analyst interns must be supervised by a licensed behavior analyst or a licensed psychologist. Behavior analyst technicians must be supervised by a licensed behavior analyst, licensed assistant behavior analyst, or a licensed psychologist.

This means that although Health and Safety Code §1374.73 and Insurance Code Section 10144.51 currently include BBS licensees in the definition of "qualified autism service providers" and allow them to supervise qualified autism service professionals and paraprofessionals, this bill would eliminate their ability to supervise such individuals.

- 5) Related Legislation.** AB 796 (Nazarian) requires that the Board of Psychology form a committee in order to develop a list of behavioral health evidence-based treatment modalities for individuals with pervasive development disorder or autism.

SB 1034 (Mitchell) would extend indefinitely the provisions in current law that all health insurance plans must provide coverage for behavioral health treatment for pervasive development disorder or autism. Previously, the provisions were scheduled to sunset in 2017.

- 6) Previous Legislation.** AB 1282 (Steinberg, 2010) was proposed in 2010. This bill, which failed passage, attempted to establish a certification process for practitioners of behavior analysis. It would have established the California Behavioral Certification Organization (CBCO), a nonprofit organization that would have provided for the certification and registration of applied behavioral analysis practitioners if they met certain conditions, one of which was being certified by the BACB or a similar entity. The Board took an oppose position on this legislation.

AB 1205 (Berryhill, 2011), proposed licensing behavior analysts and assistant behavior analysts under the Board of Behavioral Sciences. The Board did not take a position on this legislation. The bill died in the Assembly Appropriations Committee.

SB 946 (Chapter 650, Statutes of 2011) requires every health care service plan contract and insurance policy that provides hospital, medical, or surgical coverage shall also provide coverage for behavioral health treatment for pervasive developmental disorder or autism, effective July 1, 2012.

SB 126 (Chapter 680, Statutes of 2013) extended the provisions of SB 946 until January 1, 2017.

SB 479 (Bates, 2015) proposed licensing behavior analysts and assistant behavior analysts under the Board of Psychology. The provisions of SB 479 were very similar to those in the introduced version of this bill. The Board was neutral on the bill. SB 479 is now a two-year bill, and the author's office does not plan to pursue it this year.

10 2999.93. The board shall establish fees for the application for
11 and the issuance and renewal of licenses to cover, but not exceed,

25 from the payment of the renewal fee in any one of the following
26 instances:

29 (2) While in the United States Public Health Service.

30 (3) While a volunteer in the Peace Corps or AmeriCorps VISTA.

31 (b) Every person exempted from the payment of the renewal

 - a) In the opinion of the attending professional person, if the minor is mature enough to participate intelligently in the services; and
 - b) The minor would present a danger of serious physical or mental harm to self or others without treatment, or the minor is allegedly a victim of incest or child abuse.
- 2) Defines a “professional person” related to mental health treatment or counseling services in the treatment of minors on an outpatient basis as including the following: (Family Code (FC) §6924 (a), Health and Safety Code (HSC) §124260(a))
 - a) A marriage and family therapist;
 - b) A marriage and family therapist intern, if under proper supervision as specified by law;
 - c) A licensed professional clinical counselor;
 - d) A clinical counselor intern, if under proper supervision as specified by law.

- 3) Defines “mental health treatment or counseling services” as the provision of mental health treatment or counseling on an outpatient basis by any of the following: (FC §6924 (a))

- 5) Requires a professional person offering residential shelter services to make his or her best efforts to notify the parent or guardian of the provision of services. (Family Code §6924 (c))
- 6) Requires the mental health treatment or counseling of a minor authorized by this section of law to include the involvement of the minor’s parent or guardian unless, in the opinion of the professional person who is treating or counseling the minor, the involvement would be inappropriate. (FC §6924 (d), HSC §124260(c))
- 7) Defines a “marriage and family therapist trainee” as an unlicensed person who is currently enrolled in a master’s or doctoral degree program designed to qualify for licensure as a marriage and family therapist. The person must have completed at least 12 semester or 18 quarter units in his or her degree program. (Business and Professions Code (BPC) §4980.03(c))
- 8) Defines a “clinical counselor trainee” as an unlicensed person who is currently enrolled in a master’s or doctoral degree program designed to qualify for licensure as a professional clinical counselor. This Bill:

- 1) Includes marriage and family therapist trainees and clinical counselor trainees in the list of professional persons who may perform mental health treatment or residential shelter services with a consenting minor 12 years of age or older under certain defined circumstances. (FC §6924(a)(2)(G) and (I), HSC §124260(a)(2)(G) and (J))

- 3) Requires the trainee, when assessing whether the minor is mature enough to participate intelligently in the mental health services, to consult with his or her supervisor as soon as reasonably possible. (FC §6924(c), HSC §124260(b)(2))

Comment:

1) Author's Intent. The author's office states that leaving trainees off the list of eligible providers to treat consenting minors limits the number of providers available to treat minors, and limits MFT trainees' opportunities to gain experience hours toward licensure.

They state that trainees already routinely work with a variety of diagnoses and specialties, including PTSD, child abuse, and suicide. In addition, trainees must follow the same supervision requirements as interns, except that they are required to have more weekly supervision than interns.

2) Trainee Qualifications to Treat Minors. Under the law, a minor may consent to mental health treatment or residential shelter services if he or she is age 12 or older, and if the attending professional person determines the minor is mature enough to participate intelligently in the process.

This bill was recently amended to require the trainee to consult with his or her supervisor when making this determination.

Support:

- California Association of Marriage and Family Therapists (co-sponsor)
- California Association for Licensed Professional Clinical Counselors (co-sponsor)
- Community Clinic Association of Los Angeles County

No. 1808

Introduced by Assembly Member Wood

February 8, 2016

An act to amend Section 6924 of the Family Code, and to amend Section 124260 of the Health and Safety Code, relating to minors.

LEGISLATIVE COUNSEL'S DIGEST

AB 1808, as amended, Wood. Minors: mental health services.

Existing law authorizes a minor who is 12 years of age or older to consent to mental health treatment or counseling services on an outpatient basis, or to residential shelter services, ~~under when~~ certain circumstances, ~~where those services are provided by any one of specific professionals, including~~ requirements are satisfied, including a determination that the minor, in the opinion of the attending professional person, as specified, is mature enough to participate intelligently in those services. Existing law defines "professional person," for the purposes of those provisions, to include, among others, a marriage and family therapist, a marriage and family therapist intern, a professional clinical counselor, and a clinical counselor intern.

This bill would additionally authorize a marriage and family therapist trainee and a clinical counselor trainee, while working under the supervision of certain licensed professionals, to provide those services. *The bill would require the marriage and family therapist trainee or the clinical counselor trainee to consult with his or her supervisor, as soon as reasonably possible, when assessing the maturity of the minor.* The bill would also make technical changes.

Vote: majority. Appropriation: no. Fiscal committee: no.
State-mandated local program: no.

CALIFORNIA STATE BOARD OF BEHAVIORAL SCIENCES
BILL ANALYSIS

BILL NUMBER: AB 1863 **VERSION:** INTRODUCED FEBRUARY 10, 2016

AUTHOR: WOOD **SPONSOR:**

- CALIFORNIA PRIMARY CARE ASSOCIATION
- CALIFORNIA ASSOCIATION OF MARRIAGE AND FAMILY THERAPISTS (CAMFT)

RECOMMENDED POSITION: NONE

SUBJECT: MEDI-CAL: FEDERALLY QUALIFIED HEALTH CENTERS: RURAL HEALTH CENTERS

Summary:

This bill would allow Medi-Cal reimbursement for covered mental health services provided by a marriage and family therapist employed by a federally qualified health center or a rural health clinic.

Existing Law:

- 1) Establishes that federally qualified health center services (FQHCs) and rural health clinic (RHC) services are covered Medi-Cal benefits that are reimbursed on a per-visit basis. (Welfare and Institutions Code (WIC) §14132.100(c))
- 2) Allows an FQHC or RHC to apply for an adjustment to its per-visit rate based on a change in the scope of services that it provides. (WIC §14132.100(e))
- 3) Defines a FQHC or RHC “visit” as a face-to-face encounter between an FQHC or RHC patient and one of the following (WIC §14132.100(g))
 - A physician;
 - physician assistant;
 - nurse practitioner;
 - certified nurse-midwife;
 - clinical psychologist;
 - licensed clinical social worker;
 - visiting nurse; or
 - dental hygienist.

This Bill:

- 1) Adds a marriage and family therapist to the list of health care professionals included in the definition of a visit to a FQHC or RHC that is eligible for Medi-Cal reimbursement. (WIC §14132.100(g)(2)(A))
- 2) Adds technical procedures for how an FQHC or RHC that employs marriage and family therapists can apply for a rate adjustment and bill for services. (WIC §14132.100(g)(2)(B) and (C))

Comments:

- 1) **Background.** Currently, there are approximately 600 FQHCs and 350 RHCs in California. These clinics serve the uninsured and underinsured, and are reimbursed by Medi-Cal on a “per visit” basis. Generally, the cost of a visit is calculated by the Department of Health Care Services for each clinic, by determining the annual cost of care provided by the clinic, divided by the annual number of visits to the clinic.
- 2) **Intent.** The intent of this legislation is to allow FQHCs and RHCs to be able to hire a marriage and family therapist and be reimbursed through Medi-Cal for covered mental health services. Under current law, a clinic may hire a marriage and family therapist. However, only clinical psychologists or licensed clinical social workers may receive Medi-Cal reimbursement for covered services in such settings. According to the author’s office, the inability to receive Medi-Cal reimbursement serves as a disincentive for a FQHC or a RHC to consider hiring a marriage and family therapist. Allowing services provided by LMFTs to be reimbursed will maximize the availability of mental health services in rural areas.
- 3) **Suggested Amendment.** Staff suggests an amendment be made to include the word “licensed” in front of the term “marriage and family therapist” throughout WIC §14132.100. This will clarify that the marriage and family therapist must be licensed by the Board, and it is consistent with the use of the term “licensed clinical social worker” in that code section. In addition, it is also consistent with the Board’s August 18, 2011 decision that the title “Licensed Marriage and Family Therapist” be utilized in all new regulatory and legislative proposals.
- 4) **Previous Legislation.** This bill was run as AB 1785 (B. Lowenthal) in 2012. The Board took a “support” position on AB 1785. However, the bill died in the Assembly Appropriations Committee.

This bill was run again as AB 690 (Wood) in 2015. The Board took a “support” position on the bill; however, it died when it was held in committee. Its provisions were amended into AB 858 (Wood), also in 2015. AB 858 was part of a series of six Medi-Cal related bills that were all vetoed by the Governor. In a combined veto message for all six bills, the Governor stated that the bills would require expansion or development of new benefits and procedures in the Medi-Cal program, and that he could not support any of them until the fiscal outlook for Medi-Cal is stabilized.

ASSEMBLY BILL

No. 1863

Introduced by Assembly Member Wood

February 10, 2016

An act to amend Section 14132.100 of the Welfare and Institutions Code, relating to Medi-Cal.

LEGISLATIVE COUNSEL'S DIGEST

AB 1863, as introduced, Wood. Medi-Cal: federally qualified health centers: rural health centers.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Care Services, under which qualified low-income individuals receive health care services. The Medi-Cal program is, in part, governed and funded by federal Medicaid Program provisions. Existing law provides that federally qualified health center (FQHC) services and rural health clinic (RHC) services, as defined, are covered benefits under the Medi-Cal program, to be reimbursed, to the extent that federal financial participation is obtained, to providers on a per-visit basis. "Visit" is defined as a face-to-face encounter between a patient of an FQHC or RHC and specified health care professionals. Existing law allows an FQHC or RHC to apply for an adjustment to its per-visit rate based on a change in the scope of services it provides.

This bill would include a marriage and family therapist within those health care professionals covered under that definition. The bill would require an FQHC or RHC that currently includes the cost of services of a marriage and family therapist for the purposes of establishing its FQHC or RHC rate to apply to the department for an adjustment to its per-visit rate, and, after the rate adjustment has been approved by the

department, would require the FQHC or RHC to bill these services as a separate visit, as specified. The bill would require an FQHC or RHC that does not provide the services of a marriage and family therapist, and later elects to add these services, to process the addition of these services as a change in scope of service.

Vote: majority. Appropriation: no. Fiscal committee: yes.
 State-mandated local program: no.

The people of the State of California do enact as follows:

1 SECTION 1. Section 14132.100 of the Welfare and Institutions
 2 Code is amended to read:
 3 14132.100. (a) The federally qualified health center services
 4 described in Section 1396d(a)(2)(C) of Title 42 of the United States
 5 Code are covered benefits
 6 (b) The rural health clinic services described in Section
 7 1396d(a)(2)(B) of Title 42 of the United States Code are covered
 8 benefits
 9 (c) Federally qualified health center services and rural health
 10 clinic services shall be reimbursed on a per-visit basis in
 11 accordance with the definition of “visit” set forth in subdivision
 12 (g).
 13 (d) Effective October 1, 2004, and on each October 1, thereafter,
 14 until no longer required by federal law, federally qualified health
 15 center (FQHC) and rural health clinic (RHC) per-visit rates shall
 16 be increased by the Medicare Economic Index applicable to
 17 primary care services in the manner provided for in Section
 18 1396a(bb)(3)(A) of Title 42 of the United States Code. Prior to
 19 January 1, 2004, FQHC and RHC per-visit rates shall be adjusted
 20 by the Medicare Economic Index in accordance with the
 21 methodology set forth in the state plan in effect on October 1,
 22 2001.
 23 (e) (1) An FQHC or RHC may apply for an adjustment to its
 24 per-visit rate based on a change in the scope of services provided
 25 by the FQHC or RHC. Rate changes based on a change in the
 26 scope of services provided by an FQHC or RHC shall be evaluated
 27 in accordance with Medicare reasonable cost principles, as set
 28 forth in Part 413 (commencing with Section 413.1) of Title 42 of
 29 the Code of Federal Regulations, or its successor.

1 (2) Subject to the conditions set forth in subparagraphs (A) to
2 (D), inclusive, of paragraph (3), a change in scope of service means
3 any of the following:

4 (A) The addition of a new FQHC or RHC service that is not
5 incorporated in the baseline prospective payment system (PPS)
6 rate, or a deletion of an FQHC or RHC service that is incorporated
7 in the baseline PPS rate.

8 (B) A change in service due to amended regulatory requirements
9 or rules.

10 (C) A change in service resulting from relocating or remodeling
11 an FQHC or RHC.

12 (D) A change in types of services due to a change in applicable
13 technology and medical practice utilized by the center or clinic.

14 (E) An increase in service intensity attributable to changes in
15 the types of patients served, including, but not limited to,
16 populations with HIV or AIDS, or other chronic diseases, or
17 homeless, elderly, migrant, or other special populations.

18 (F) Any changes in any of the services described in subdivision
19 (a) or (b), or in the provider mix of an FQHC or RHC or one of
20 its sites.

21 (G) Changes in operating costs attributable to capital
22 expenditures associated with a modification of the scope of any
23 of the services described in subdivision (a) or (b), including new
24 or expanded service facilities, regulatory compliance, or changes
25 in technology or medical practices at the center or clinic.

26 (H) Indirect medical education adjustments and a direct graduate
27 medical education payment that reflects the costs of providing
28 teaching services to interns and residents.

29 (I) Any changes in the scope of a project approved by the federal
30 Health Resources and ~~Service~~ *Services* Administration (HRSA).

31 (3) No change in costs shall, in and of itself, be considered a
32 scope-of-service change unless all of the following apply:

33 (A) The increase or decrease in cost is attributable to an increase
34 or decrease in the scope of services defined in subdivisions (a) and
35 (b), as applicable.

36 (B) The cost is allowable under Medicare reasonable cost
37 principles set forth in Part 413 (commencing with Section 413) of
38 Subchapter B of Chapter 4 of Title 42 of the Code of Federal
39 Regulations, or its successor.

1 (C) The change in the scope of services is a change in the type,
2 intensity, duration, or amount of services, or any combination
3 thereof.

4 (D) The net change in the FQHC's or RHC's rate equals or
5 exceeds 1.75 percent for the affected FQHC or RHC site. For
6 FQHCs and RHCs that filed consolidated cost reports for multiple
7 sites to establish the initial prospective payment reimbursement
8 rate, the 1.75-percent threshold shall be applied to the average
9 per-visit rate of all sites for the purposes of calculating the cost
10 associated with a scope-of-service change. "Net change" means
11 the per-visit rate change attributable to the cumulative effect of all
12 increases and decreases for a particular fiscal year .

13 (4) An FQHC or RHC may submit requests for scope-of-service
14 changes once per fiscal year, only within 90 days following the
15 beginning of the FQHC's or RHC's fiscal year. Any approved
16 increase or decrease in the provider's rate shall be retroactive to
17 the beginning of the FQHC's or RHC's fiscal year in which the
18 request is submitted.

19 (5) An FQHC or RHC shall submit a scope-of-service rate
20 change request within 90 days of the beginning of any FQHC or
21 RHC fiscal year occurring after the effective date of this section,
22 if, during the FQHC's or RHC's prior fiscal year, the FQHC or
23 RHC experienced a decrease in the scope of services provided that
24 the FQHC or RHC either knew or should have known would have
25 resulted in a significantly lower per-visit rate. If an FQHC or RHC
26 discontinues providing onsite pharmacy or dental services, it shall
27 submit a scope-of-service rate change request within 90 days of
28 the beginning of the following fiscal year. The rate change shall
29 be effective as provided for in paragraph (4). As used in this
30 paragraph, "significantly lower" means an average per-visit rate
31 decrease in excess of 2.5 percent.

32 (6) Notwithstanding paragraph (4), if the approved
33 scope-of-service change or changes were initially implemented
34 on or after the first day of an FQHC's or RHC's fiscal year ending
35 in calendar year 2001, but before the adoption and issuance of
36 written instructions for applying for a scope-of-service change,
37 the adjusted reimbursement rate for that scope-of-service change
38 shall be made retroactive to the date the scope-of-service change
39 was initially implemented. Scope-of-service changes under this
40 paragraph shall be required to be submitted within the later of 150

1 days after the adoption and issuance of the written instructions by
2 the department, or 150 days after the end of the FQHC's or RHC's
3 fiscal year ending in 2003

4 (7) All references in this subdivision to "fiscal year" shall be
5 construed to be references to the fiscal year of the individual FQHC
6 or RHC, as the case may be.

7 (f) (1) An FQHC or RHC may request a supplemental payment
8 if extraordinary circumstances beyond the control of the FQHC
9 or RHC occur after December 31, 2001, and PPS payments are
10 insufficient due to these extraordinary circumstances. Supplemental
11 payments arising from extraordinary circumstances under this
12 subdivision shall be solely and exclusively within the discretion
13 of the department and shall not be subject to subdivision (l). These
14 supplemental payments shall be determined separately from the
15 scope-of-service adjustments described in subdivision (e).
16 Extraordinary circumstances include, but are not limited to, acts
17 of nature, changes in applicable requirements in the Health and
18 Safety Code, changes in applicable licensure requirements, and
19 changes in applicable rules or regulations. Mere inflation of costs
20 alone, absent extraordinary circumstances, shall not be grounds
21 for supplemental payment. If an FQHC's or RHC's PPS rate is
22 sufficient to cover its overall costs, including those associated with
23 the extraordinary circumstances, then a supplemental payment is
24 not warranted.

25 (2) The department shall accept requests for supplemental
26 payment at any time throughout the prospective payment rate year.

27 (3) Requests for supplemental payments shall be submitted in
28 writing to the department and shall set forth the reasons for the
29 request. Each request shall be accompanied by sufficient
30 documentation to enable the department to act upon the request.
31 Documentation shall include the data necessary to demonstrate
32 that the circumstances for which supplemental payment is requested
33 meet the requirements set forth in this section. Documentation
34 shall include all of the following:

35 (A) A presentation of data to demonstrate reasons for the
36 FQHC's or RHC's request for a supplemental payment.

37 (B) Documentation showing the cost implications. The cost
38 impact shall be material and significant, two hundred thousand
39 dollars (\$200,000) or 1 percent of a facility's total costs, whichever
40 is less.

1 (4) A request shall be submitted for each affected year.

2 (5) Amounts granted for supplemental payment requests shall
 3 be paid as lump-sum amounts for those years and not as revised
 4 PPS rates, and shall be repaid by the FQHC or RHC to the extent
 5 that it is not expended for the specified purposes

6 (6) The department shall notify the provider of the department’s
 7 discretionary decision in writing.

8 (g) (1) An FQHC or RHC “visit” means a face-to-face
 9 encounter between an FQHC or RHC patient and a physician,
 10 physician assistant, nurse practitioner, certified nurse-midwife,
 11 clinical psychologist, licensed clinical social worker, or a visiting
 12 nurse. For purposes of this section, “physician” shall be interpreted
 13 in a manner consistent with the Centers for Medicare and Medicaid
 14 Services’ Medicare Rural Health Clinic and Federally Qualifie
 15 Health Center Manual (Publication 27), or its successor, only to
 16 the extent that it defines the professionals whose services are
 17 reimbursable on a per-visit basis and not as to the types of services
 18 that these professionals may render during these visits and shall
 19 include a physician and surgeon, *osteopath*, podiatrist, dentist,
 20 optometrist, and chiropractor. A visit shall also include a
 21 face-to-face encounter between an FQHC or RHC patient and a
 22 comprehensive perinatal-services practitioner, as defined in Section
 23 ~~51179.1~~ 51179.7 of Title 22 of the California Code of Regulations,
 24 providing comprehensive perinatal services, a four-hour day of
 25 attendance at an adult day health care center, and any other provider
 26 identified in the state plan s definition of an FQHC or RHC visit

27 (2) (A) A visit shall also include a face-to-face encounter
 28 between an FQHC or RHC patient and a dental-hygienist or
 29 *hygienist*, a dental hygienist in alternative-practice: *practice, or a*
 30 *marriage and family therapist*.

31 (B) Notwithstanding subdivision (e), an FQHC or RHC that
 32 currently includes the cost of the services of a dental hygienist in
 33 alternative-practice *practice, or a marriage and family therapist*
 34 for the purposes of establishing its FQHC or RHC rate shall apply
 35 for an adjustment to its per-visit rate, and, after the rate adjustment
 36 has been approved by the department, shall bill these services as
 37 a separate visit. However, multiple encounters with dental
 38 professionals *or marriage and family therapists* that take place on
 39 the same day shall constitute a single visit. The department shall
 40 develop the appropriate forms to determine which FQHC’s or-RHC

1 RHC's rates shall be adjusted and to facilitate the calculation of
2 the adjusted rates. An FQHC's or RHC's application for, or the
3 department's approval of, a rate adjustment pursuant to this
4 subparagraph shall not constitute a change in scope of service
5 within the meaning of subdivision (e). An FQHC or RHC that
6 applies for an adjustment to its rate pursuant to this subparagraph
7 may continue to bill for all other FQHC or RHC visits at its existing
8 per-visit rate, subject to reconciliation, until the rate adjustment
9 for visits between an FQHC or RHC patient and a dental hygienist
10 ~~or hygienist~~, a dental hygienist in alternative practice, or
11 a marriage and family therapist has been approved. Any approved
12 increase or decrease in the provider's rate shall be made within
13 six months after the date of receipt of the department's rate
14 adjustment forms pursuant to this subparagraph and shall be
15 retroactive to the beginning of the fiscal year in which the FQHC
16 or RHC submits the request, but in no case shall the effective date
17 be earlier than January 1, 2008.

18 (C) An FQHC or RHC that does not provide dental hygienist
19 ~~or hygienist~~, dental hygienist in alternative practice, or
20 marriage and family therapist services, and later elects to add these
21 services, shall process the addition of these services as a change
22 in scope of service pursuant to subdivision (e).

23 (h) If FQHC or RHC services are partially reimbursed by a
24 third-party payer, such as a managed care entity (as defined in
25 Section 1396u-2(a)(1)(B) of Title 42 of the United States Code),
26 the Medicare Program, or the Child Health and Disability
27 Prevention (CHDP) program, the department shall reimburse an
28 FQHC or RHC for the difference between its per-visit PPS rate
29 and receipts from other plans or programs on a contract-by-contract
30 basis and not in the aggregate, and may not include managed care
31 financial incentive payments that are required by federal law to
32 be excluded from the calculation.

33 (i) (1) An entity that first qualifies as an FQHC or RHC in the
34 year 2001 or later, a newly licensed facility at a new location added
35 to an existing FQHC or RHC, and any entity that is an existing
36 FQHC or RHC that is relocated to a new site shall each have its
37 reimbursement rate established in accordance with one of the
38 following methods, as selected by the FQHC or RHC:

39 (A) The rate may be calculated on a per-visit basis in an amount
40 that is equal to the average of the per-visit rates of three comparable

1 FQHCs or RHCs located in the same or adjacent area with a similar
 2 caseload.

3 (B) In the absence of three comparable FQHCs or RHCs with
 4 a similar caseload, the rate may be calculated on a per-visit basis
 5 in an amount that is equal to the average of the per-visit rates of
 6 three comparable FQHCs or RHCs located in the same or an
 7 adjacent service area, or in a reasonably similar geographic area
 8 with respect to relevant social, health care, and economic
 9 characteristics.

10 (C) At a new entity’s one-time election, the department shall
 11 establish a reimbursement rate, calculated on a per-visit basis, that
 12 is equal to 100 percent of the projected allowable costs to the
 13 FQHC or RHC of furnishing FQHC or RHC services during the
 14 first 12 months of operation as an FQHC or RHC. After the first
 15 12-month period, the projected per-visit rate shall be increased by
 16 the Medicare Economic Index then in effect. The projected
 17 allowable costs for the first 12 months shall be cost settled and the
 18 prospective payment reimbursement rate shall be adjusted based
 19 on actual and allowable cost per visit.

20 (D) The department may adopt any further and additional
 21 methods of setting reimbursement rates for newly qualified FQHCs
 22 or RHCs as are consistent with Section 1396a(bb)(4) of Title 42
 23 of the United States Code.

24 (2) In order for an FQHC or RHC to establish the comparability
 25 of its caseload for purposes of subparagraph (A) or (B) of paragraph
 26 (1), the department shall require that the FQHC or RHC submit
 27 its most recent annual utilization report as submitted to the Office
 28 of Statewide Health Planning and Development, unless the FQHC
 29 or RHC was not required to file an annual utilization report. FQHCs
 30 or RHCs that have experienced changes in their services or
 31 caseload subsequent to the filing of the annual utilization report
 32 may submit to the department a completed report in the format
 33 applicable to the prior calendar year. FQHCs or RHCs that have
 34 not previously submitted an annual utilization report shall submit
 35 to the department a completed report in the format applicable to
 36 the prior calendar year. The FQHC or RHC shall not be required
 37 to submit the annual utilization report for the comparable FQHCs
 38 or RHCs to the department, but shall be required to identify the
 39 comparable FQHCs or RHCs.

1 (3) The rate for any newly qualified entity set forth under this
2 subdivision shall be effective retroactively to the later of the date
3 that the entity was first qualified by the applicable federal agency
4 as an FQHC or RHC, the date a new facility at a new location was
5 added to an existing FQHC or RHC, or the date on which an
6 existing FQHC or RHC was relocated to a new site. The FQHC
7 or RHC shall be permitted to continue billing for Medi-Cal covered
8 benefits on a fee-for-service basis *under its existing provider*
9 *number* until it is informed of its ~~enrollment as an FQHC or RHC,~~
10 *RHC enrollment approval*, and the department shall reconcile the
11 difference between the fee-for-service payments and the FQHC's
12 or RHC's prospective payment rate at that time.

13 (j) Visits occurring at an intermittent clinic site, as defined in
14 subdivision (h) of Section 1206 of the Health and Safety Code, of
15 an existing FQHC or RHC, or in a mobile unit as defined by
16 paragraph (2) of subdivision (b) of Section 1765.105 of the Health
17 and Safety Code, shall be billed by and reimbursed at the same
18 rate as the FQHC or RHC establishing the intermittent clinic site
19 or the mobile unit, subject to the right of the FQHC or RHC to
20 request a scope-of-service adjustment to the rate.

21 (k) An FQHC or RHC may elect to have pharmacy or dental
22 services reimbursed on a fee-for-service basis, utilizing the current
23 fee schedules established for those services. These costs shall be
24 adjusted out of the FQHC's or RHC's clinic base rate as
25 scope-of-service changes. An FQHC or RHC that reverses its
26 election under this subdivision shall revert to its prior rate, subject
27 to an increase to account for all ~~MEI~~ *Medicare Economic Index*
28 increases occurring during the intervening time period, and subject
29 to any increase or decrease associated with applicable
30 ~~scope-of-services~~ *scope-of-service* adjustments as provided in
31 subdivision (e).

32 (l) FQHCs and RHCs may appeal a grievance or complaint
33 concerning ratesetting, scope-of-service changes, and settlement
34 of cost report audits, in the manner prescribed by Section 14171.
35 The rights and remedies provided under this subdivision are
36 cumulative to the rights and remedies available under all other
37 provisions of law of this state.

38 (m) The department shall, ~~by~~ no later than March 30, 2008,
39 promptly seek all necessary federal approvals in order to implement
40 this section, including any amendments to the state plan. To the

1 extent that any element or requirement of this section is not
2 approved, the department shall submit a request to the federal
3 Centers for Medicare and Medicaid Services for any waivers that
4 would be necessary to implement this section.

5 (n) The department shall implement this section only to the

CALIFORNIA STATE BOARD OF BEHAVIORAL SCIENCES

BILL ANALYSIS

BILL NUMBER: AB 2083 **VERSION:** INTRODUCED FEBRUARY 17, 2016

AUTHOR: CHU **SPONSOR:** COUNTY OF SANTA CLARA

RECOMMENDED POSITION: NONE

SUBJECT: INTERAGENCY CHILD DEATH REVIEW

Summary: This bill would, at the discretion of the provider, allow medical and mental health information to be disclosed to an interagency child death review team.

Existing Law:

- 1) Specifies that licensees of the Board of Behavioral Sciences (Board) are mandated reporters under the Child Abuse and Neglect Reporting Act and must submit a report to specified agencies when in their professional capacity, they have knowledge of, or observe a child who is known, or reasonably suspected to have been, a victim of child abuse or neglect. (Penal Code (PC) § 11165.7(a)(21) and 11166(a))
- 2) Requires that all mental health records be confidential and only subject to disclosure under certain specified circumstances. (Welfare and Institutions Code (WIC) §5328)
- 3) Allows counties to establish interagency child death review teams in order to review suspicious child deaths and to help identify incidents of child abuse or neglect. (PC §11174.32(a))
- 4) Requires that records that are exempt from disclosure to third parties by law remain exempt from disclosure when they are in possession of a child death review team. (PC §11174.32(d))
- 5) Establishes interagency elder and dependent adult death review teams, and permits certain confidential information, including medical and mental health information, to be disclosed to the team, at the discretion of the person who has the information. (PC §§11174.5, 11174.8)
- 6) Establishes interagency domestic violence death review teams, and permits certain confidential information, including medical and mental health information, to be disclosed to the team, at the discretion of the person who has the information. (PC §11163.3)

This Bill:

- 1) Permits certain confidential information to be disclosed to a child death review team. This includes medical information and mental health information. (PC §11174.32(e))
- 2) States that if such confidential information is requested by a child death review team, the person who has the information is not required to disclose it. (PC §11174.32(e))

Comment:

- 1) **Author's Intent.** The author's office notes that while the law provides domestic violence and elder and dependent adult death review teams the ability to review mental health information, it is silent about whether or not child death review teams may obtain this information. Allowing child death review teams to obtain this information could help with investigation and detection of child abuse and neglect, and could help identify trends to reduce incidents of child death.

CALIFORNIA STATE BOARD OF BEHAVIORAL SCIENCES

BILL ANALYSIS

BILL NUMBER: AB 2191 **VERSION:** AMENDED APRIL 6, 2016

AUTHOR: SALAS **SPONSOR:** AUTHOR

RECOMMENDED POSITION: NONE

SUBJECT: BOARD OF BEHAVIORAL SCIENCES

Summary

This bill would extend the Board's sunset date until January 1, 2021.

Existing Law

- 1) Provides for the licensure and regulation of educational psychologists, clinical social workers, professional clinical counselors, and marriage and family therapists by the Board of Behavioral Sciences (Board) within the Department of Consumer Affairs until January 1, 2017.
- 2) Specifies the composition of the Board and authorizes the Board to employ an Executive Officer (Business and Professions Code (BPC) §§4990, 4990.04)

This Bill:

- 1) Extends the operation of the Board until January 1, 2021. (BPC §§4990, 4990.04)

Comment:

- 1) **Background.** In 1994, the legislature enacted the "sunset review" process, which permits the periodic review of the need for licensing and regulation of a profession and the effectiveness of the administration of the law by the licensing board. The Joint Legislative Sunset Review Committee (Joint Committee) was tasked with performing the sunset reviews. The sunset review process was in part built on an assumption in law that if a board is operating poorly, and lesser measures have been ineffective in rectifying the problems, the board should be allowed to sunset.

Boards notified by the Joint Committee were requested to provide a detailed report regarding the board's operations and programs. Following submission of the report to the Joint Committee, a hearing was scheduled with the Joint Committee to discuss the report and any recommendations of the Joint Committee. If it was determined that a board should not continue to regulate the profession, the board would sunset. Boards within the Department of Consumer Affairs (DCA) that were required to sunset became a bureau under DCA, reporting directly to the DCA

director. The last time the Board of Behavioral Sciences went through sunset review was in 2012.

- 2) March 2016 Sunset Review Hearing.** The Board submitted its Sunset Review Report to the Senate Committee on Business, Professions, and Economic Development and the Assembly Committee on Business and Professions on December 1, 2015.

The Board's sunset hearing was held on March 14, 2016. Based on the findings of the Committee it was recommended that the Board's sunset date be extended for four years, to January 1, 2021.

3) Previous Legislation.

AUTHOR: CAMPOS **SPONSOR:** AUTHOR

RECOMMENDED POSITION: NONE

SUBJECT: SEXUAL OFFENSES AGAINST MINORS: PERSONS IN A POSITION OF AUTHORITY

Summary: This bill would subject persons who engage in unlawful sexual intercourse with a minor or who commit a lewd or lascivious act upon a minor to be subject to additional jail terms if they held a position of authority over the minor. Persons in a position of authority include the minor’s counselor or therapist.

Existing Law:

- 1) Specifies that a person age 21 or older who engages in unlawful sexual intercourse with a minor under age 16 is guilty of either a misdemeanor or a felony that is punishable by imprisonment for a term ranging from one to four years. (Penal Code (PC) §261.5(d))
- 2) Specifies that any person who willfully commits a lewd or lascivious act upon a child under age 14 is guilty of a felony that is punishable by imprisonment for three, six, or eight years. (PC §288(a))
- 3) Specifies that a person who commits a lewd or lascivious act upon a child of age 14 or 15 that is at least 10 years older than the child is guilty of public offense for a term ranging from one to three years. (PC §288(c)(1))

This Bill:

- 1) Requires a person over age 21 who engages in unlawful sexual intercourse with a minor under 16, or a person who annoys or molests a child under age 18, to be punished by an additional term of imprisonment for 2 years, if that person held a position of authority over the minor. (PC §261.5(e))
- 2) Requires a person who is guilty of a felony or a public offense for a lewd or lascivious act upon a child as specified in PC Section 288(a) or (c)(1) to be punished by an additional term of imprisonment for 2 years, if that person held a position of authority over the minor. (PC §288(c)(3))
- 3) Defines a person in a “position of authority” as including the child’s counselor or therapist, among others. (PC §§ 261.5(e), 288(c))

Comment:

1) Author's Intent. The author is concerned about this issue due to learning of a case where the perpetrator received only a minor punishment despite being in a position of authority over the victim. The author believes it is unacceptable for persons in authority who commit the crimes listed above to only receive a minor punishment for their conduct.

AMENDED IN ASSEMBLY MARCH 30, 2016

CALIFORNIA LEGISLATURE—2015–16 REGULAR SESSION

ASSEMBLY BILL

No. 2199

Introduced by Assembly Member Campos

February 18, 2016

An act to amend Sections 261.5 and ~~647.64~~ 288 of the Penal Code, relating to sexual offenses.

LEGISLATIVE COUNSEL'S DIGEST

AB 2199, as amended, Campos. Sexual offenses against minors: persons in a position of authority.

(1) Existing law provides various circumstances that constitute rape, which are punishable by imprisonment in the state prison for 3, 6, or 8 years, except as specified

Existing law also prescribes circumstances that constitute unlawful sexual intercourse, some of which involve an adult perpetrator who engages in that unlawful intercourse with a minor, as specified. Unlawful sexual intercourse under those circumstances is punishable by imprisonment for 2, 3, or 4 years, and also may be subject to designated civil penalties or fines. Under existing law, any person 21 years of age or older who engages in an act of unlawful sexual intercourse with a minor who is under 16 years of age is guilty of either a misdemeanor or a felony, punishable by imprisonment in a county jail not exceeding one year, or by imprisonment pursuant to a specified provision of law for 2, 3, or 4 years.

This bill would subject any person 21 years of age or older who engages in an act of unlawful sexual intercourse with a minor who is under 16 years of age and is convicted of a felony to a sentence enhancement of ~~2, 4, or 6~~ 2 years, if the perpetrator holds a position of

authority over the minor with whom he or she engaged in the act of unlawful sexual intercourse. By changing the penalty for the commission of unlawful sexual intercourse under the above circumstances, this bill would impose a state-mandated local program.

~~(2) Existing law makes it a misdemeanor to annoy or molest a child under 18 years of age. Existing law makes it a misdemeanor to engage in conduct with an adult whom the perpetrator believes is a child if that conduct would otherwise violate the above provision if directed toward a child and if the perpetrator is motivated by an unnatural or abnormal sexual interest in children.~~

~~This bill would subject a person who violates those provisions with respect to a minor under 16 years of age over whom the person holds a position of authority to an additional term of imprisonment of 2, 4, or 6 years beyond the otherwise applicable term. By creating a new crime, the bill would impose a state-mandated local program.~~

(2) Under existing law, any person who willfully and lewdly commits a lewd or lascivious act with a minor under 14 years of age with the intent of arousing the minor is guilty of a felony, punishable by imprisonment in the state prison for 3, 6, or 8 years. Existing law makes it a public offense for a person to commit this act with the intent of arousing a minor of 14 or 15 years of age when the person is at least 10 years older than the minor, punishable by imprisonment in the state prison for one, 2, or 3 years, or by imprisonment in a county jail for no more than one year.

This bill would subject any person who willfully and lewdly commits a lewd or lascivious act with a minor under 14 years of age with the intent of arousing the minor, or who commits such an act with the intent of arousing a minor of 14 or 15 years of age when the person is at least 10 years older than the minor, to a sentence enhancement of 2 years, if the perpetrator holds a position of authority over the minor with whom he or she engaged in the act. By changing the penalty for the commission of a lewd or lascivious act under the above circumstances, this bill would impose a state-mandated local program.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement. This bill would provide that no reimbursement is required by this act for a specified reason

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.

29 (2) Any person who is a caretaker and commits an act described
30 in subdivision (a) upon a dependent person, with the intent
31 described in subdivision (a), is guilty of a public offense and shall

29 relative, partner of the parent or relative, caretaker, youth leader,
30 recreational director, athletic manager, coach, teacher, counselor,
31 therapist, religious leader, doctor, employee of one of those

33 (2) For purposes of this subdivision, "undue influence" has the
34 same meaning as that term is defined in Section 15610.70 of the

BILL ANALYSIS

BILL NUMBER: AB 2507 **VERSION:** INTRODUCED FEBRUARY 19, 2016

AUTHOR: GORDON **SPONSOR:** STANFORD HEALTH CARE

RECOMMENDED POSITION: NONE

SUBJECT: TELEHEALTH: ACCESS

Summary: This bill requires that a health care service plan or health insurer must cover patient services provided via telehealth to the same extent as services provided in-person. It also specifies various communications platforms that are acceptable for telehealth.

Existing Law:

- 1) Defines “telehealth” as a mode of delivering health care via information and communication technologies. The patient’s location is the originating site, and the health care provider’s location is the distant site. (Business and Professions Code (BPC) §2290.5)
- 2) States that prior to providing health care via telehealth, the health care provider shall inform the patient about the use of telehealth and obtain verbal or written consent. (BPC §2290.5)
- 3) Defines an “originating site” as the site where the patient is located at the time health care services are provided. (BPC §2290.5)
- 4) Defines “distant site” as the site where the health care provider is located while providing the telehealth services. (BPC §2290.5)
- 5) States that this section shall not prevent patients from receiving in-person treatment after agreeing to receive services via telehealth. (BPC §2290.5)
- 6) States that a health care service plan or health insurer shall not require in-person contact between a health care provider and a patient before payment is made for covered services that are appropriately provided through telehealth. (This provision is subject to the terms and conditions of the contract with the health care service plan.) (Health and Safety Code (HSC) §1374.13(c), Insurance Code (IC) §10123.85(c))
- 7) States that a health care service plan or health insurer shall not limit the type of setting where services are provided before payment is made for covered services that are appropriately provided through telehealth. (This provision is subject to the terms and conditions of the contract with the health care service plan.) (HSC §1374.13(d), IC §10123.85(d))

- 8) States that a health care service plan or health insurer shall not require the use of telehealth when the health care provider has determined that it is not appropriate. (HSC §1374.13(f), IC §10123.85(e))

This Bill:

- 1) Specifies that telehealth includes communication via video, telephone, email, text, or chat conferencing. (BPC §2290.5(a)(6))
- 2) Allows that patient consent for telehealth can be oral, written, or digital. (BPC §2290.5(b))
- 3) States that telehealth should be practitioner-guided and patient preferred, and that the law does not authorize a health care provider to require services be performed via telehealth when the patient prefers to be treated in-person. (HSC §1374.13(g), IC §10123.85(f))
- 4) States that a health care service plan or health insurer must cover patient services provided via telehealth to the same extent as services provided in-person. (HSC §1374.13(h), IC §10123.85(g))
- 5) Prohibits a health care service plan or health insurer from interfering with the physician-patient relationship based on the modality used for appropriately provided services through telehealth. (HSC §1374.13(i), IC §10123.85(h))

Comments:

- 1) **Author's Intent.** This bill aims to provide a viable telehealth reimbursement infrastructure in California in order to improve patient access.

The author notes that while a health insurer cannot limit the types of settings where services are provided, the law does not require health plans to include coverage and reimbursement for services provided via telehealth. Currently, these must be negotiated separately into each plan contract. They note that many other states require health plans to provide coverage for telehealth services to the same extent as in-person services. This is not currently the case in California.

Under this bill, providers will be able to offer telehealth services with a guarantee that they will receive health plan reimbursement.

- 2) **Mode of Delivery.** This bill clarifies that the definition of telehealth includes communication via video, telephone, email, text or chat.

There is debate regarding whether email, text, and chat are appropriate platforms for psychotherapeutic services.

There are safeguards built into the law to ensure that health plans cannot require the use of telehealth when the health care provider has determined it is not appropriate (HSC §1374.13(f), IC §10123.85(e))

In addition, the Board is in the process of proposing regulations that would specify standards of practice for telehealth. These regulations are still in the approval process. If approved, they would require Board licensees and registrants to do the following each time services are provided via telehealth:

- Assess whether the client is appropriate for telehealth given his or her psychosocial situation; and
- Utilize industry best practices for telehealth to ensure both client confidentiality and the security of the communication medium.

Therefore, even though texting, chat, and email may be permitted modes of telehealth and acceptable for use in some healing art professions, the statute and regulations make it clear that it is the practitioner's ethical obligation to ensure the mode of service delivery is appropriate to each client, and that it is acceptable according to the industry standards of his or her profession.

- 3) Physician-Patient Relationship.** This bill proposes adding a sentence to the Health and Safety Code (§1374.13(i)) and the Insurance Code (§10123.85(h)) prohibiting a health care service plan or health insurer from interfering with the physician-patient relationship based on the modality used for appropriately provided services through telehealth.

Given that the law regarding telehealth includes all healing arts practitioners, it may be appropriate to replace the term "physician-patient relationship" with the term "provider-patient relationship" or "practitioner-patient relationship."

ASSEMBLY BILL

No. 2507

Introduced by Assembly Member Gordon

February 19, 2016

An act to amend Section 2290.5 of the Business and Professions Code, to amend Section 1374.13 of the Health and Safety Code, and to amend Section 10123.85 of the Insurance Code, relating to telehealth.

LEGISLATIVE COUNSEL'S DIGEST

AB 2507, as introduced, Gordon. Telehealth: access.

(1) Existing law defines “telehealth” as the mode of delivering health care services and public health via information and communication technologies to facilitate the diagnosis, consultation, treatment, education, care management, and self-management of a patient’s health care while the patient is at the originating site and the health care provider is at a distant site, and that facilitates patient self-management and caregiver support for patients and includes synchronous interactions and asynchronous store and forward transfers. Existing law requires that prior to the delivery of health care via telehealth, the health care provider initiating the use of telehealth inform the patient about the use of telehealth and obtain documented verbal or written consent from the patient for the use of telehealth.

This bill would add video communications, telephone communications, email communications, and synchronous text or chat conferencing to the definition of telehealth. The bill would also provide that the required prior consent for telehealth services may be digital as well as oral or written.

(2) Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service

plans by the Department of Managed Health Care and makes a willful violation of the act a crime. Existing law also provides for the regulation of health insurers by the Department of Insurance. Existing law prohibits health care service plans and health insurers from limiting the type of setting where services are provided for the patient or by the health care provider before payment is made for the covered services appropriately provided through telehealth, subject to the terms and conditions of the contract entered into between the enrollee, insured, subscriber, or policyholder and the plan or insurer, and between the plan or insurer and its participating providers or provider groups.

This bill would also prohibit a health care provider from requiring the use of telehealth when a patient prefers to receive health care services in person and would require health care service plans and health insurers to include coverage and reimbursement for services provided to a patient through telehealth to the same extent as though provided in person or by some other means, as specified. The bill would prohibit a health care service plan or health insurer from limiting coverage or reimbursement based on a contract entered into between the plan or insurer and an independent telehealth provider. The bill would prohibit a health care service plan or a health insurer from interfering with the physician-patient relationship based on the modality utilized for services appropriately provided through telehealth.

Because a willful violation of the bill’s provisions by a health care service plan would be a crime, it would impose a state-mandated local program.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.

21 SEC. 4. No reimbursement is required by this act pursuant to
22 Section 6 of Article XIII B of the California Constitution because
23 the only costs that may be incurred by a local agency or school

- e. A hate crime;
- f. Sexual abuse;
- g. Child abuse; and
- h. Failure to report child abuse, or interfering with such a report.**

Comment:

- 1) Author's Intent.** The author's office is seeking to strengthen enforcement of laws that prohibit impeding or retaliating against mandated reporters of elder and dependent adult abuse and child abuse.

The author states that people with disabilities, elders, and children are victimized by violent crimes at a high rate, and the perpetrators are often not convicted, in part due to lack of mandated reporting. They also note that mandated reporters who fail to report, and supervisors who impede such reports, are rarely prosecuted.

There is currently no requirement for law enforcement to cross-report to licensing agencies, and because of this, licensing agencies do not learn of many of these cases and therefore cannot pursue them.

- 2) Current Board Enforcement Process.** Currently, the Board would learn of instances of the crimes listed above if an arrest was made, or if a complaint was received.

In the case of an arrest, the Board would receive notification of the arrest, would obtain the police report, and would follow the progress of the case and take action if there were sufficient evidence to do so.

- 3) Effects of this Bill on Board Enforcement Process.** Under this bill, law enforcement would report to the Board if it receives or makes a report of one of the above specified crimes.

If there were no other evidence to the claim, other than that a complaint was received, the Board would need to contact the client to obtain a release of records in order to investigate the case. The ability of the investigation to proceed would depend on the patient's willingness to consent to releasing the records to the Board. In a case of child abuse, a parent or guardian would need to provide consent. If the case involved elder or dependent adult abuse, the patient may have a conservator, who would need to provide consent.

The Board would likely rely on DCA's Division of Investigation in order to track down clients and their guardians for consent, and to conduct an investigation.

- 4) Fiscal Impact to the Board.** The Board does not have a high volume of child or elder abuse cases or cases where the licensee failed to make a mandated report. Typically, these cases number only a few per year.

It is likely that this bill would lead to an increase in mandated reporting violation cases. Such an increase could have a fiscal impact due to the Board's need to utilize the Division of Investigation for additional investigations. However, at this time, the quantity of these cases, and the extent of investigative resources they would require, is unknown.

- 5) Inclusion of Registrants.** This bill requires law enforcement to make a report to the issuing state agency if the holder of state credential, license, or permit is alleged to have committed a crime.

Business and Professions Code Section 23.7 defines a "license" as a license, certificate, registration, or other means to engage in a business or profession, for purposes of the Business and Professions Code.

However, this definition does not apply to the Penal Code, which is where the reporting requirement imposed by this bill is located. To avoid confusion about whether or not the reporting requirement includes registrants, it may be helpful to amend the bill to either reference the definition in BPC Section 23.7, or to specifically include registrants.

ASSEMBLY BILL

No. 2606

Introduced by Assembly Member Grove

February 19, 2016

An act to add Chapter 14 (commencing with Section 368.7) to Title 9 of Part 1 of the Penal Code, relating to crimes.

LEGISLATIVE COUNSEL'S DIGEST

AB 2606, as introduced, Grove. Crimes against children, elders, dependent adults, and persons with disabilities.

The Child Abuse and Neglect Reporting Act requires a law enforcement agency that receives a report of child abuse to report to an appropriate licensing agency every known or suspected instance of child abuse or neglect that occurs while the child is being cared for in a child day care facility or community care facility or that involves a licensed staff person of the facility.

Existing law proscribes the commission of certain crimes against elders and dependent adults, including, but not limited to, inflicting upon an elder or dependent adult unjustifiable physical pain or mental suffering, as specified. Existing law proscribes the commission of a hate crime, as defined, against certain categories of persons, including disabled persons.

Existing law provides for the licensure of various healing arts professionals, and specifies that the commission of any act of sexual abuse, misconduct, or relations with a patient, client, or customer constitutes unprofessional conduct and grounds for disciplinary action against the licensee. Existing law also establishes that the crime of sexual exploitation by a physician and surgeon, psychotherapist, or alcohol and drug abuse counselor has occurred when the licensee

engages in specified sexual acts with a patient, client, or former patient or client.

This bill would require, if a law enforcement agency receives a report, or if a law enforcement officer makes a report, that a person who holds a state professional or occupational credential, license, or permit that allows the person to provide services to children, elders, dependent adults, or persons with disabilities is alleged to have committed one or more of specified crimes, the law enforcement agency to promptly send a copy of the report to the state licensing agency that issued the credential, license, or permit. By imposing additional duties on law enforcement agencies, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: yes.

The people of the State of California do enact as follows:

1 SECTION 1. Chapter 14 (commencing with Section 368.7) is
2 added to Title 9 of Part 1 of the Penal Code, to read:

3
4 CHAPTER 14. REPORTING CRIMES AGAINST CHILDREN, ELDERS,
5 DEPENDENT ADULTS, AND PERSONS WITH DISABILITIES

6
7 368.7. If a law enforcement agency receives a report, or if a
8 law enforcement officer makes a report, that a person who holds
9 a state professional or occupational credential, license, or permit
10 that allows the person to provide services to children, elders,
11 dependent adults, or persons with disabilities is alleged to have
12 committed one or more of the crimes described in subdivisions (a)
13 to (f), inclusive, the law enforcement agency shall promptly send
14 a copy of the report to the state agency that issued the credential,
15 license, or permit.

1 (a) Sexual exploitation by a physician and surgeon,
2 psychotherapist, or drug or alcohol abuse counselor, as described
3 in Section 729 of the Business and Professions Code.

4 (b) Rape or other crimes described in Chapter 1 (commencing
5 with Section 261).

6 (c) Elder or dependent adult abuse, failure to report elder or
7 dependent adult abuse, interfering with a report of elder or
8 dependent adult abuse or other crimes, as described in Chapter 13.

9 (d) A hate crime motivated by antidisability bias, as described
10 in Chapter 1 (commencing with Section 422.55) of Title 11.6.

11 (e) Sexual abuse, as defined in Section 11165.1

12 (f) Child abuse, failure to report child abuse, or interfering with
13 a report of child abuse.

14 SEC. 2. If the Commission on State Mandates determines that
15 this act contains costs mandated by the state, reimbursement to
16 local agencies and school districts for those costs shall be made
17 pursuant to Part 7 (commencing with Section 17500) of Division
18 4 of Title 2 of the Government Code.

Comments:

- 1) **Background.** The author’s office defines a peer provider as someone who “uses his or her lived experience with mental illness and recovery, plus skills learned in formal training, to deliver services in a behavioral health setting to promote mind-body recovery and resiliency.” (SB 614 fact sheet, March 2015) The author’s office

notes that peers can be persons with experience as clients, family members, or caretakers.

The author cites benefits of peer certification including establishing a standard of practice and code of ethics, providing peer support employees with a professional voice, and qualifying peer services for federal financial participation.

2) Intent of This Bill. According to the author's office, the goal of this bill is twofold:

- Require DHCS to establish a peer support specialist certification program; and
- Authorize DHCS to add peer support providers as a provider type within the Medi-Cal program.

3) Peer Certification in Other States. In 2013, 31 states and the federal Department of Veteran's Affairs certified and employed peer specialists. The services peer specialists provide in these states are Medicaid billable.¹

In 2007, the federal Centers for Medicare and Medicaid released guidance for states to establish a certification program for peers to enable the use of federal Medicaid.

California has not established a peer certification program at this time. There is a stakeholder group, the "Working Well Together Statewide Technical Assistance Center" which in 2013 released a report of recommendations about certification. The Executive Summary of this report is in **Attachment B**.

4) Examples of Requirements in Other States.

Several other states recognize certified peer counselors.

Washington

The state of Washington allows peer counselors to work in various settings, such as community clinics, hospitals, and crisis teams. Peer counselors must be supervised by a mental health professional. Examples of things they may do include assisting an individual in identifying services that promote recovery, share their own recovery stories, advocacy, and modeling skills in recovery and self-management.

In order to become a peer counselor in Washington, a person must be accepted as a training applicant. They must complete a 40 hour training program and pass a state exam.

Tennessee

According to the State of Tennessee's Department of Mental Health and Substance Abuse Services, Certified Peer Recovery Specialists must complete an extensive application. If accepted, they complete an intensive 40 hour training program. They

must be supervised by a mental health professional or a substance use disorder professional.

New Mexico

The State of New Mexico offers peer support worker certification. Applicants must demonstrate 2 years of sustained recovery, complete a written application and phone interview, complete a 40 hour training program, and pass an examination.

5) Previous Position. This bill is a two-year bill. At its May 2015 meeting, the Board took an “oppose unless amended” position on a previous version of this bill. Below are the amendments the Board requested at that time, and the status of each:

a) Requested Amendment #1: Include in statute a clear definition of a peer and family support specialist and a clearly defined scope of practice.

HSC §14045.13(k) now defines “peer support specialist services.” Although it is not labeled as a scope of practice, it might be construed as one. In addition, the current version of this bill specifies four types of peer support specialists (adult, family, parent, and transition-age youth), and provides a definition of each.

b) Requested Amendment #2: Specify the required hours of supervision for a peer and family support specialist, and identify who may provide this supervision.

The bill is silent on the amount of required supervision required for peer support specialists; it leaves the task to DHCS to establish via regulations.

The bill does now state who may supervise a peer support specialist. Supervisors can be a mental health rehabilitation specialist, a substance use disorder professional, or a licensed mental health professional as defined in Title 9, Section 782.26 of the California Code of Regulations (CCR).

Although the bill now allows some Board licensees to supervise peer support specialists, it is important to note that 9 CCR §782.26 lists psychologists, physicians, LMFTs, and LCSWs as licensed mental health professionals. LPCCs are not included in the list, which means that, as this bill is currently written, LPCCs would not be able to supervise peer support specialists.

c) Requested Amendment #3: Specify training requirements for a peer and family support specialist.

The bill delegates the task of establishing specific education and training requirements to regulation. However, it does now list several minimum core competencies that must be included in the required curriculum to become a certified peer support specialist.

The Board may want to discuss whether some of the curriculum areas, such as psychiatric rehabilitation skills and trauma-informed care, overlap with the scope of practice of the Board's licenses.

WIC Section 14045.19 of the bill has been added to state that it is not the intent of the law to imply that a peer support specialist provide clinical services. However a statement such as the following may provide more clarity:

“Any services that fall under the scope of practice of the Licensed Marriage and Family Therapist Act (Chapter 13 (commencing with Section 4980) of Division 2 of the Business and Professions Code), the Educational Psychologist Practice Act (Chapter 13.5 (commencing with Section 4989.10) of Division 2 of the Business and Professions Code), the Clinical Social Worker Practice Act (Chapter 14 (commencing with Section 4991) of Division 2 of the Business and Professions Code), and the Licensed Professional Clinical Counselor Act (Chapter 16 (commencing with Section 4999.10) of Division 2 of the Business and Professions Code), which are not performed in an exempt setting as defined in Sections 4980.01, 4996.14, and 4999.22 of the Business and Professions Code, shall only be performed by a licensee or a registrant of the Board of Behavioral Sciences or other appropriately licensed professional, such as a licensed psychologist or board certified psychiatrist.”

d) Requested Amendment #4: Add a fingerprinting requirement for peer and family support specialists.

The bill still does not contain a fingerprinting requirement.

6) Requirements Not Established in Legislation. This bill requires DHCS to establish many of the requirements of certified peer support specialists, including responsibilities and practice guidelines, curriculum, required training, continuing education, supervision, and renewal, via regulation. Assuming this bill was to pass, it would become effective January 1, 2017, and the certification program must be established by July 1, 2017. Regulations must be adopted by July 1, 2019. However, the bill leaves discretion to DHCS to implement the program via various instructions, until regulations are adopted.

SENATE BILL

No. 614

**Introduced by Senator Leno
(Coauthor: Senator Anderson)**

February 27, 2015

An act to add Article 1.4 (commencing with Section 14045.10) to Chapter 7 of Part 3 of Division 9 of, the Welfare and Institutions Code, relating to Medi-Cal.

LEGISLATIVE COUNSEL'S DIGEST

SB 614, as amended, Leno. Medi-Cal: mental health services: peer, parent, transition-age, and family support specialist certification

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Care Services and under which qualified low-income persons receive health care benefits. The Medi-Cal program is, in part, governed and funded by federal Medicaid provisions. Existing law provides for a schedule of benefits under the Medi-Cal program and provides for various services, including various behavioral and mental health services.

Existing law, the Mental Health Services Act (MHSA), an initiative measure enacted by the voters as Proposition 63 at the November 2, 2004, statewide general election, establishes the continuously appropriated Mental Health Services Fund to fund various county mental health programs. The act also requires funds to be reserved for the costs for the State Department of Health Care Services, the California Mental

Health Planning Council, the Office of Statewide Health Planning and Development (OSHPD), the Mental Health Services Oversight and Accountability Commission, the State Department of Public Health, and any other state agency to implement all duties pursuant to certain programs provided for by the act, subject to appropriation in the annual Budget Act. The act provides that it may be amended by the Legislature by a $\frac{2}{3}$ vote of each house as long as the amendment is consistent with and furthers the intent of the act, and that the Legislature may also clarify procedures and terms of the act by majority vote.

This bill would require the State Department of Health Care Services to establish, by July 1, 2017, a statewide peer, parent, transition-age, and family support specialist certification program, as a part of the state's comprehensive mental health and substance use disorder delivery system and the Medi-Cal program. The bill would include 4 certification categories: adult peer support specialists, transition-age youth peer support specialists, family peer support specialists, and parent peer support specialists. The certification program's components would include, among others, defining responsibilities and practice guidelines, determining curriculum and core competencies, specifying training and continuing education requirements, and establishing a code of ethics and certification revocation processes. The bill would require an applicant for the certification as a peer, parent, transition-age, and family support specialist to meet specified requirements, including successful completion of the curriculum and training requirements.

This bill would require the department to collaborate with OSHPD and interested stakeholders in developing the certification program, and to obtain technical assistance pursuant to a specified joint state-county decisionmaking process. The bill would authorize the department to use funding provided through the MHSA and designated funds administered by OSHPD, to develop and administer the program, and would authorize the use of these MHSA funds to serve as the state's share of funding to develop and administer the program for the purpose of claiming federal financial participation under the Medicaid Program.

This bill would authorize the department to establish a certification fee schedule and require remittance of fees as contained in the schedule, for the purpose of supporting the department's activities associated with the ongoing state administration of the peer, parent, transition-age, and family support specialist certification program. The bill would require the department to utilize the other funding resources made available under the bill before determining the need for the certificatio

fee schedule and requiring the remittance of fees. The bill would declare legislative intent that the certification fees be reasonable and reflect the expenditures directly applicable to the ongoing state administration of the program.

This bill would require the department to amend the Medicaid state plan to include a certified peer, parent, transition-age, and family support specialist as a provider type for purposes of the Medi-Cal program, but would implement this provision only if and to the extent that federal financial participation is available and the department obtains all necessary federal approvals. The bill would authorize the department to enter into exclusive or nonexclusive contracts on a bid or nonbid basis, as specified, on a statewide or more limited geographic basis. This bill also would authorize the department to implement, interpret, or make specific its provisions by various informational documents until regulations are adopted.

This bill would declare that it clarifies terms and procedures under the Mental Health Services Act.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.

The people of the State of California do enact as follows:

1 SECTION 1. Article 1.4 (commencing with Section 14045.10)
2 is added to Chapter 7 of Part 3 of Division 9 of the Welfare and
3 Institutions Code, to read:

4
5 Article 1.4. Peer, Parent, Transition-Age, and Family Support
6 Specialist Certification Progra
7

8 14045.10. This article shall be known, and may be cited, as
9 the Peer, Parent, Transition-Age, and Family Support Specialist
10 Certification Program Act of 2015.

11 14045.11. The Legislature finds and declares all of the
12 following:

13 (a) With the enactment of the Mental Health Services Act in
14 2004, support to include peer providers identified as consumers,
15 parents, and family members for the provision of services has been
16 on the rise.

17 (b) There are over 6,000 peer providers in California who
18 provide individualized support, coaching, facilitation, and

1 education to clients with mental health care needs and substance
2 use disorder, in a variety of settings, yet no statewide scope of
3 practice, standardized curriculum, training standards, supervision
4 standards, or certification protocol is available.

5 (c) The United States Department of Veterans Affairs and over
6 30 states utilize standardized curricula and certification protocols
7 for peer support services.

8 (d) The federal Centers for Medicare and Medicaid Services
9 (CMS) recognizes peer support services as an evidence-based
10 model of care and notes it is an important component in a state's
11 delivery of effective mental health and substance use disorder
12 treatment. The CMS encourages states to offer peer support
13 services as a component of a comprehensive mental health and
14 substance use disorder delivery system and federal financial
15 participation is available for this purpose.

16 (e) A substantial number of research studies demonstrate that
17 peer supports improve client functioning, increase client
18 satisfaction, reduce family burden, alleviate depression and other
19 symptoms, reduce hospitalizations and hospital days, increase
20 client activation, and enhance client self-advocacy.

21 (f) Certification at the state level can incentivize the public
22 mental health system and the Medi-Cal program, including the
23 Drug Medi-Cal program, to increase the number, diversity, and
24 availability of peer providers and peer-driven services.

25 14045.12. It is the intent of the Legislature that the peer, parent,
26 transition-age, and family support specialist certification program,
27 established under this article, achieve all of the following:

28 (a) Establish the ongoing provision of peer support services for
29 beneficiaries experiencing mental health care needs, substance use
30 disorder needs, or both by certified peer support specialists

31 (b) Provide support, coaching, facilitation, and education to
32 beneficiaries with mental health needs, substance use disorder
33 needs, or both, and to families or significant support persons

34 (c) Provide increased family support, building on the strengths
35 of families and helping them achieve desired outcomes.

36 (d) Provide a part of a wraparound continuum of services, in
37 conjunction with other community mental health services and other
38 substance use disorder services.

39 (e) Collaborate with others providing care or support to the
40 beneficiary or family.

1 (f) Assist parents, when applicable, in developing coping
2 mechanisms and problem-solving skills.

3 (g) Provide an individualized focus on the beneficiar , the
4 family, or both, as needed.

5 (h) Encourage employment under the peer, parent, transition-age,
6 and family support specialist certification program to reflect the
7 culture, ethnicity, sexual orientation, gender identity, mental health
8 service experiences, and substance use disorder experiences of the
9 people whom they serve.

10 (i) Promote socialization, recovery, self-sufficiency,
11 self-advocacy, development of natural supports, and maintenance
12 of skills learned in other support services.

13 14045.13. For purposes of this article, the following definition
14 shall apply:

29 includes a sibling or kinship caregiver, and their partners.

30 (i) “Parent” means a person who is parenting or has parented a
31 child or individual experiencing mental illness, substance use

4 identification of strengths, and maintenance of skills learned in
5 other support services. Peer support specialist services shall
6 include, but are not limited to, support, coaching, facilitation, and
7 education to Medi-Cal beneficiaries that is individualized to the
8 beneficiary and is conducted by a certified adult peer support
9 specialist, a certified transition-age youth peer support specialist,
10 a certified family peer support specialist, or a certified parent peer
11 support specialist.

12 (l) “Recovery” means a process of change through which an
13 individual improves his or her health and wellness, lives a
14 self-directed life, and strives to reach his or her full potential. This
15 process of change recognizes cultural diversity and inclusion, and
16 honors the different routes to resilience and recovery based on the
17 individual and his or her cultural community.

18 (m) “Transition-age youth peer support specialist” means a
19 person who is 18 years of age or older and who has self-identified

21 substance use disorder, or both, and the skills learned in formal
22 trainings to deliver peer support services in a behavioral setting to
23 promote mind-body recovery and resiliency for transition-age
24 youth, including adolescents and young adults.

*Examining the Opportunities, Barriers, and Precedents for the Official
Recognition and Certification of Peer Specialists in California.*

¹ “When you talk to people who have been through these programs and ask them what helped them, it is not the drugs, not the diagnosis. It’s the lasting, one-on-one relationships with adults who listen....”

Leading the Way, yet Lagging Behind:

California is accustomed to being at the forefront of progressive, compassionate policy and legislation. Voters passed the Mental Health Services Act because they couldn't stand to see the misery of unaddressed mental illness and the state was an early adopter of parity laws and Medicaid expansion. As a state, we have been proud of our leadership. So, where has California lagged behind? California has yet to follow the example of 31 other states and the Veterans Administration in establishing and utilizing a standardized curriculum and certification protocol for Peer Specialists' services.

Peers are persons with lived experience as consumers and family members or caretakers of individuals living with mental illness. Their experiences make Peer Specialists invaluable members of a service team. Employment and certification simultaneously bridges the gap between those that need it and those that can best provide it while reinforcing the peer provider's own wellness and sense of purpose.

Right now, more than half of the United States has a Peer Certification Program in place – people practicing, producing, and billing. Making a difference in the lives of people they intimately understand because they have already staved off the same potential devastation. Because if you ask somebody struggling with a life-altering, all-consuming episode of any type of mental distress if they have sought help yet, the response - more often than not - would be *“they don't understand”* or *“I just can't deal with the process of getting that help”*. California has not been able to summon up the political will it would take to make the most basic and meaningful connection with somebody who needs it the most.

“A leader is not someone who stands before you, but someone who stands with you”²

What are Peer Specialists?

Peer Specialists are empathetic guides and coaches who understand and model the process of recovery and healing while offering moral support and encouragement to people who need it. Moral support and encouragement have proven to result in greater compliance with treatment/services, better health function, lower usage of emergency departments, fewer medications and prescriptions, and a higher sense of purpose and connectedness on the part of the consumer.

Peer Specialists also model and train on communication between health care provider and consumer in order to educate both on potential barriers or side effects of existing medications or treatment plans. In a world where primary care intersects with mental health care, but

² Native American Proverb

medical records are not necessarily shared, this alone is huge. Bridging that gap becomes one of the single highest predictors of effective treatment plans and positive outcomes. In a population with mortality rates that average 25 years sooner than non-SMI groups - for conditions that could be easily managed or cured - this one benefit alone is worth the investment.

It might be easier to describe Peer specialists by defining what they are NOT. Peer Specialists differ from Case Managers in that they do not identify resources, arrange for social or supportive services, or facilitate job trainings, educational opportunities, or living arrangements. They are not certified to offer medical advice or diagnoses, psychiatric or otherwise, or suggest, prescribe, or manage medications. Their function is not to “do for” but rather to “do with” and ultimately model and train wellness principles and self-sufficiency.

What is Peer Specialist Certification?

Peer Specialist Certification is an official recognition by a certifying body that the practitioner has met qualifications that include lived experience and training from a standardized curriculum on mental health issues. The standardized curriculum has been approved by the certifying body and includes a mandatory number of hours of training in various topics pertaining to mental health care, coaching, and ethics. The “specialist” designation is conferred when additional hours of training specific to special populations or age groups has been completed and the candidate has demonstrated thorough knowledge, skills, and ability within that subgroup.

The standardized curriculum includes topics such as documentation, boundaries and ethics, communication skills, working with specific populations, developing wellness plans, systems of care, principles of practices (i.e., engagement, strength-based planning, WRAP plans, case management); and advocacy, to name a few. At this time, there are several courses available through the community college system, but not on a statewide basis. Working Well Together has compiled an excellent comprehensive report - *Certification of Consumer, Youth, Family, and Parent Providers; A Review of the Research* – which provides detailed information, background, and context.³

Why Certification?

*“Regardless of the means selected to demonstrate competency, it is critical that the core competencies of a peer (knowledge, skills, job tasks, and performance domains of the profession) are identified according to a recognized process, such as a job task analysis or role delineation study. **This is because –all other program requirements, policies, and standards must tie back to the core competencies of the profession being credentialed.**”⁴*

Defining and standardizing the classification of Peer Specialist through certification prevents engagement outside one's expertise. Like any other profession, the certification defines the level of care and services so that the parameters established by the standardized curriculum and certification requirements are respected and understood statewide. Any hiring organization can expect these levels of qualifications, training, and expertise in the person they hire and can plan their organizational functions around the duties encompassed by that expertise. It also provides guidance to the peer practitioner through an established code of ethics. This means that roles and functions of other providers will not be usurped or second-guessed by the Peer Specialists.

The role of the certified peer specialist is to encourage partners and lead through example on the best ways to advocate for oneself. Sometimes it is not enough to suggest resources and make recommendations for services – sometimes you have to walk the walk along with the person for the first few steps, or even the first few miles. In this respect, the Peer Specialist is the Sherpa of the mental health care world. As partners, they teach participants how to communicate with care providers, navigate insurance companies and bureaucracies, and lessen the anxieties that arise from these various interactions. As models, they demonstrate that recovery *is* possible.

The Time is Now

First and foremost, the time is now because Affordable Health Care, Mental Health Parity, Coordinated Care Initiative, and potentially even the Public Safety Realignment create workforce shortages, particularly in the area of rehabilitative services. The time is now because recognizing the value of Peer Specialists does not translate into standardized training, skill sets, duties, or pay scales. This will make it difficult to operationalize and maintain utilization on a scale sufficient to meet the workforce needs or government standards and requirements for reimbursement. In other words “failing to plan is planning to fail”.

The Center for Medicaid Services gave California permission to amend its State Plan to include Peer Providers in 2007, stating “*We encourage States to consider comprehensive programs but note that regardless of how a State models its mental health and substance use disorder service delivery system, the State Medicaid agency continues to have the authority to determine the service delivery system, medical necessity criteria, and to define the amount, duration, and scope of the service*”⁵.

The time is now because the state is starting to fully understand the concept and value of peer services as part of both mental health care and the larger arena of primary care. Examples of this are their inclusion in the SB 82 (Steinberg) Investment in Mental Health and Wellness Act

⁵ Center for Medicare and Medicaid Services; SMDL #07-011; August 15, 2007

grant requirements for mobile crisis teams; the intent in the original Prop 63 language to include peers, family members, and parent providers as part of the MHSA workforce; and a one-time dedicated state budget allocation of training funds to the Office of Statewide Health Planning and Development for peers to be trained as mobile crisis team members. All of these components will be working together as part of the larger mental health network of care, but run the risk of operating at disparate training levels, scope of work, code of ethics, and pay levels from county to county.

Finally, the time is now because trying to standardize the classification after a piecemeal acceptance is put into place is inefficient and uninformative to potential employers. Moreover, it is unfair to people who are willing to share their expertise and demonstrate their commitment to this important and effective aspect of care and services.

To draw a timely comparison, the classification of drug and alcohol counselors, which often has a strong peer component as part of the qualifications for employment, received an early welcome into the workforce. However, this acceptance was unaccompanied by any defined training, experience, or education requirements. There has been an attempt to retroactively achieve some standardization across the lines, but proponents are finding that, due to the unstructured engagement of their services, there is no uniform requirement or skill level across treatment sites. Worse, there is a reluctance to champion a certification process, due to potential hardships and setbacks created for current successful peer employees who might not meet certification standards after the fact.

Is it Cost-Effective?

In Alameda County, a Peer Mentoring pilot project provided 40 hours of training to 26 peers called “The Art of Facilitating Self-Determination” and matched them with people recently released from psychiatric hospitals. Those accepting a peer mentor experienced a 72% reduction in readmissions to the hospital. The cost savings for Alameda County was over a million dollars with an initial investment of \$238K- making a 470% return on investment⁶.

The Pew Trusts reported recently “In Georgia, a 2003 study compared patients diagnosed with schizophrenia, bipolar disorder and major depression whose treatment had included peer support, with patients who received traditional day treatment services without peers. The patients who had peer support had better health outcomes—and at a lower cost. The average annual cost of day treatment services is \$6,400 per person, while support services cost about \$1,000.”⁷

Who Employs Peer Specialists?

Between October 2013 and January 2015, the Advocacy Committee of the California Mental Health Planning Council (CMHPC) heard presentations from Peer Specialist Advocates and Peer-run programs throughout the state. The programs represented different models ranging from peer-run respite to peer partners in health care, but all of them reported positive outcomes for the participants, cost savings for their respective counties, and a bolstering of their own wellness commitment. Here is a brief review of a few of the models the Advocacy Committee heard from.

Health Navigators USC

The Peer Health navigator connects consumers to mental health, primary care, substance use, and specialty health care services; teaches them how to advocate for themselves and effectively communicate their needs; create a follow-up plan and other self-management skills through a “modeling, coaching, fading”. They differ from Case Managers or care coordinators in that the health navigator will ultimately step away from the participant once the modeling/coaching/fading process is successful.

Typically a full-time navigator will have 12 – 15 clients at any one time, and averages 30-40 clients annually, depending on how quickly the clients moves into full self-management. Many of the services are Medicaid billable under Targeted Case Management or Rehabilitation providing the documentation reflects justification for the services rendered. Participants are trained on billing codes and documentation. The program has developed its own curriculum and provides its own training and certification.

2nd Story, Santa Cruz

2nd Story is a SAMHSA-funded program that is an entirely Peer-Run Crisis Center in Santa Cruz. All staff are trained in “Intentional Peer Support” and all wellness class topics are determined by the guests. The program provides its own training. The length of stay is no longer than two weeks, and guests are encouraged to maintain their “normal” life (school, work) during their stay. Outreach is conducted by staff posted at County mental health departments telling potential guests about the program. Referrals are also made by psychiatrists, care managers, and Telecare, a county mental health services provider/contractor, sometimes diverts people to 2nd Story rather than enrolling them in a longer term, more structured social rehabilitation facility. The program is proving to be a key preventative service in Santa Cruz that forestalls or reduces the need for crisis residential and sub-acute stabilization programs.

In-Home Outreach Team (IHOT), San Diego

As Assisted Outpatient Treatment steadily gains ground in more California counties, a small program in San Diego is providing an effective and legitimate alternative at promoting and facilitating voluntary access to services. IHOT teams consist of a Peer Specialist, family member, personal service coordinator and team lead. They provide in-home outreach to adults with serious mental illness (SMI) who are reluctant or resistant to receiving mental health services. IHOT also provides support and education to family members and/or caretakers of IHOT participants. They work with individuals living with severe mental illness and who may also be dually diagnosed with a substance use disorder or drug dependency. Teams serve a combined 240-300 consumers per year (80-100 per team).

A 2013 San Diego Health and Human Services report notes that the average cost per IHOT participant amounts to \$8,100, compared to an annual cost per individual in a Full Service Partnership (\$20,000 including housing) and Assisted Outpatient Treatment (\$34,000). Staff ratios are similarly proportionate: IHOT = 1:25 staff to client ratio; FSP and AOT each have a 1:10 staff to client ratio.

What Other States Employ and Certify Peer Specialists?

As of 2013, Certified Peer Specialists were certified and employed in 31 states and the federal Department of Veteran's Affairs. The extent of engagement and responsibility varies from state to state, but all services are Medicaid billable. These 31 states are consistent in their belief and trust in Peer Specialists – when will California join them?

What is Stopping California?

Despite all of the merits, fiscal and clinical, of Certified Peer Specialists, California has not been able to match its actions to its talk in this area. California embraces the concept of recovery, wellness, and resilience – and recognizes the essential components of both employment and inclusion as part of those processes – but it has failed to turn those concepts to tangible actions.

No State Department feels that it is in their purview to establish, implement or oversee a state certification process. Education may approve a curriculum, but it is not empowered to grant certification. Department of Health Care Services may be able to approve billable services, but is not empowered to establish curriculum or gage mastery of the subject matter. The Office of Statewide Health Planning and Development (OSHPD) has a Workforce Development Division, and is specifically charged with mental health workforce development issues, but without specific language or policy permitting OSHPD to include or pursue the specific classification of Peer Specialist, OSHPD does not felt comfortable facilitating it. In short, the single, largest barrier has been the identification of a lead agency or organization that can be charged with facilitation, implementation, and identification of a certification and oversight

body. There may be philosophical or conceptual agreement on the importance of Peer Specialists, but no policy or political direction to move it forward.

How Can California Catch Up?

Peer Specialist Certification is a cross-cutting, inclusive, and cost-saving classification that has applications across all vulnerable and at-risk populations in the state – veterans, homeless, Transition Age Youth, elderly, and criminal justice populations to name a few - and has particular utility in integrated services for the dually diagnosed and co-morbid conditions in health care.

The California Mental Health Planning Council (CMHPC) recommends that the Legislature continue and solidify its mission to create a seamless, comprehensive, continuum of mental health services and care by:

- developing clarifying legislative language that MHSAs and/or other funding may be used to establish an implementation and oversight body for statewide Peer Specialist Certification; and/or
- making Peer Certification a priority of the 2015-16 Legislative Session as a stand-alone issue ; and/or
- requiring the Certification of Peer Specialists in legislation pertaining to workforce expansion or expanded services for vulnerable populations: and/or
- identifying and including funding for the establishment of a Peer Specialist certifying and oversight body through the annual Budget Act.

The CMHPC has been following and supporting the efforts of Inspired at Work, California Association of Mental Health Peer Run Organizations (CAMHPRO), United Advocates for Children and Families (UACF), National Alliance on Mental Illness (NAMI) and the former Working Well Together Group to bring this issue to the forefront of mental health policy. These groups dedicated countless hours to investigating best practices, training models, potential curriculums, and workforce applications for Certified Peer Specialists and have generously shared their time and information to bring the CMHPC and others up to speed. Their work deserves attention and close consideration by anybody that might be in a position to support the implementation process. Executive Summary

Working Well Together is the only statewide organization dedicated to transforming systems to be client and family-driven by supporting the sustained development of client, family member and parent/caregiver employment within every level of the public mental health workforce. As part of this effort Working Well Together has, for the last three years, engaged in researching and evaluating the feasibility of inclusion of Peer Support into a State Plan Amendment for Specialty Mental Health services. This three year effort has included thorough state-wide and national research and extensive stakeholder involvement and has yielded seventeen recommendations for the development of Peer Support as an integral service within the public mental health system.

The statewide survey conducted to evaluate the current practice of hiring consumers and family members into the mental health workforce revealed that most counties have indeed hired people with lived experience of a mental health challenge or parents/family members of individuals with a mental health issue into the mental health workforce. However the survey also revealed that there remain significant workforce issues that must be addressed. Of the thirty responding counties that hire people with lived experience, none required previous training or education beyond a high school diploma as a qualification for hire. This was found to be true even in counties that have developed excellent training programs for Peer Support. Additional findings revealed that a variety of generalist job titles are used to hire Peer Support Specialists, job duties and descriptions vary widely and may or may not include peer support as a job duty.

The stakeholder process exposed a number of workforce issues that must be addressed to further the professional development of Peer Support as a discipline and Peer Support Specialists as practitioners. Perhaps the most pressing issue is the lack of a definition and/or understanding of Peer Support. While most counties have hired individuals with lived experience as well as parents and family members to provide services, many of these practitioners are providing services that are traditionally considered “case management” and include collateral, targeted case management and rehabilitation services. Another identified trend was the use of peer employees as clerical support, transportation providers and social or recreational activities support. Interestingly, while many of these practitioners are providing billable services within the scope of practice of “Other Qualified Provider”, very few

counties (approximately nine) are billing Medi-Cal for these services. Going forward it is vital that Peer Support is identified as a separate and distinct service from other services provided under the current definitions of Specialty Mental Health services. Additional workforce issues identified by stakeholders necessary to advance the development for and respect of Peer Support include the;

1. Creation of welcoming environments that embrace these practitioners.
2. Development of multi-disciplinary teams that respect this new discipline.
3. Education and training of County Directors and Administration as well as the existing workforce on the value, role and legitimacy of peer support.
4. Training and acceptance of Medi-Caid approved use of recovery/resilience/wellness language in documentation.

While stakeholders strongly support the inclusion of peer support into a State Plan Amendment, they also support flexibility in what services individuals with lived experience can provide within the mental health system. Stakeholders strongly support career ladders that include non-certified peer providers as well as people with lived experience continuing their education and advancing into existing positions traditionally used in mental health settings, including supervision and management as well as the development of career ladders that include advancement opportunities within the practice of peer support. In short, stakeholders support maximum flexibility in what people with lived experience can provide and bill for within the existing State Plan as well as the inclusion of peer support as a new service category.

Stakeholders also emphasize the importance of recognizing that there are a number of services that enhance wellness and recovery/resiliency that peers may provide but that may not be reimbursed by Medi-Caid. It will be vital, when considering adding peer support as a new service, that reimbursement for peer support services not become the primary driving focus when offering/providing these services to clients and their families.

Working Well Together has engaged stakeholders in on-going teleconferences, webinars, work-groups, and five regional stakeholder meetings to provide feedback and recommendations that will support the requirements as laid out by the CMS letter regarding inclusion of peer support as a part of services provided under Specialty Mental Health. This resulted in several recommendations in support of the development of a statewide

Certification for Peer Support Specialists. In May of 2013 a final Statewide Stakeholder Summit was convened to provide further vetting with the goal of finalizing recommendations for the inclusion of peer support into the State Plan Amendment as well as the development of a statewide Certification for Peer Support Specialists. By and large the vast majority of stakeholders support the original recommendations, however, where appropriate, adjustments have been made in alignment with stakeholder feedback. Also where appropriate, additional edits to specific recommendations have been made to provide clarity. The seventeen recommendations are listed below.

BILL ANALYSIS

BILL NUMBER: SB 1034 **VERSION:** INTRODUCED FEBRUARY 12, 2016

AUTHOR: MITCHELL **SPONSOR:**

- AUTISM SPEAKS
- CENTER FOR AUTISM AND RELATED DISORDERS
- SPECIAL NEEDS NETWORK

RECOMMENDED POSITION: NONE

SUBJECT: HEALTH CARE COVERAGE: AUTISM

Summary:

This bill would delete the sunset date on the law that requires health care service plans or insurance policies to provide coverage for behavioral health treatment for pervasive developmental disorder or autism. It would also make some relatively minor adjustments to this law in areas that have been identified as needing further clarification.

Existing Law:

- 1) Requires that every health care service plan or insurance policy that provides hospital, medical or surgical coverage must also provide coverage for behavioral health treatment for pervasive developmental disorder or autism (PDD/A). (Health and Safety Code (HSC) §1374.73(a), Insurance Code (IC) §10144.51(a))
- 2) Requires these health care service plans and health insurers subject to this provision to maintain an adequate network of qualified autism service providers. (HSC §1374.73(b), IC §10144.51(b))
- 3) Defines “behavioral health treatment” as professional services and treatment programs, including applied behavior analysis and evidence-based behavior intervention programs, which develop or restore the functioning of an individual with pervasive developmental disorder or autism, and meets the following criteria (HSC §1374.73(c), IC §10144.51(c):
 - a) Is prescribed by a licensed physician and surgeon or is developed by a licensed psychologist;
 - b) Is provided under a treatment plan prescribed by a qualified autism service provider and administered by such a provider or by a qualified autism service professional under supervision and employment of a qualified autism service provider;
 - c) The treatment plan has measurable goals over a specific timeline and the plan is reviewed by the provider at least once every six months; and

- d) Is not used for purposes of providing or for the reimbursement of respite, day care, or educational services.
- 4) Defines a “qualified autism service provider” as either (HSC §1374.73(c), IC §10144.51(c)):
- a) A person, entity, or group that is certified by a national entity, such as the Behavior Analyst Certification Board, that is accredited and which designs, supervises, or provides treatment for pervasive developmental disorder or autism; or
 - b) A person who is licensed as a specified healing arts practitioner, including a psychologist, marriage and family therapist, educational psychologist, clinical social worker, or professional clinical counselor. The licensee must design, supervise, or provide treatment for pervasive developmental disorder or autism and be within his or her experience and competence.
- 5) Defines a “qualified autism service professional” as someone who meets all of the following (HSC §1374.73(c), IC §10144.51(c)):
- a) Provides behavioral health treatment;
 - b) Is employed and supervised by a qualified autism service provider;
 - c) Provides treatment according to a treatment plan developed and approved by the qualified autism service provider.
 - d) Is a behavioral service provider approved by a regional center to provide services as an Associate Behavior Analyst, Behavior Analyst, Behavior Management Assistant, Behavior Management Consultant, or Behavior Management Program as defined in Section 54342 of Title 17 of the California Code of Regulations (CCR); and
 - e) Has training and experience providing services for pervasive developmental disorder or autism pursuant to the Lanterman Developmental Disabilities Services Act.
- 6) Defines a “qualified autism service paraprofessional” as an unlicensed and uncertified person who meets all of the following (HSC §1374.73(c), IC §10144.51(c)):
- a) Is employed and supervised by a qualified autism service provider;
 - b) Provides treatment according to a treatment plan developed and approved by the qualified autism service provider;
 - c) Meets criteria set forth in regulations regarding use of paraprofessionals in group practice providing behavioral intervention services; and

- d) Is certified by a qualified autism service provider as having adequate education, training, and experience.
- 7) Defines vendor service codes and sets requirements for regional centers to classify the following professions (CCR 17 §54342):
 - a) Associate Behavior Analysts;
 - b) Behavior Analysts;
 - c) Behavior Management Assistants;
 - d) Behavior Management Consultants; and
 - e) Behavior Management Programs.
- 8) Sunsets all of these provisions on January 1, 2017 (HSC §1374.73, IC §§10144.51, 10144.52)

This Bill:

- 1) Removes the January 1, 2017 sunset date on all of the above provisions, so that health service plans and insurance policies will be required to provide coverage for behavioral health treatment for PDD/A indefinitely. (HSC §1374.73, IC §§10144.51, 10144.52)
- 2) Makes a change to the definition of “behavioral health treatment” to clarify that it includes not only behavior analysis, but also other evidence-based behavior intervention programs. Also specifies that behavioral health treatment involves maintaining functioning of an individual with PDD/A. (HSC §1374.73(c), IC §10144.51(c))
- 3) Limits unnecessary treatment plan reviews by stating that a review shall take place no more than once every six months, unless a shorter period is recommended by the autism service provider. (HSC §1374.73(c), IC §10144.51(c))
- 4) Requires that medically necessary behavioral health treatment must be covered in all settings regardless of time or location of delivery. (HSC §1374.73(c), IC §10144.51(c))
- 5) Makes minor adjustments to the definitions of “qualified autism service professional” and “qualified autism service paraprofessional.” (HSC §1374.73(c), IC §10144.51(c))
- 6) Removes the requirement currently in law that qualified autism service professionals must be approved as a vendor by a California regional center. However, it still requires them to meet the same education and experience requirements as those that work in regional centers. (HSC §1374.73(c), IC §10144.51(c))

Comments:

- 1) Author's Intent.** The author's office states that originally, when SB 946 was signed in 2011 to require health plans and insurance policies to cover treatment for PDD/A, the bill included a sunset date because there was uncertainty regarding upcoming changes to mandated health benefits, the Affordable Care Act, and the State's fiscal responsibility for benefits. At the time, the Legislature was awaiting federal guidance on how to implement essential health benefits under the Affordable Care Act. This guidance has now been provided, and several uncertainties regarding health care coverage and the state's role have been clarified.

Therefore, the author's office believes that it is now appropriate to remove the sunset date completely, ensuring that children with autism will continue receiving insurance coverage for medically necessary behavioral health treatment.

- 2) Related Legislation.** The California Association for Behavior Analysis is currently sponsoring a bill proposal (AB 1715, Holden), which would create a licensure category for behavior analysts and assistant behavior analysts under the Board of Psychology.

AB 796 (Nazarian) requires that the Board of Psychology form a committee in order to develop a list of behavioral health evidence-based treatment modalities for individuals with pervasive development disorder or autism.

- 3) Previous Legislation.** SB 946 (Chapter 650, Statutes of 2011) requires every health care service plan contract and insurance policy that provides hospital, medical, or surgical coverage shall also provide coverage for behavioral health treatment for PDD/A.

SB 126 (Chapter 680, Statutes of 2013) extended the provisions of SB 946 until January 1, 2017.

An act to amend Section 1374.73 of the Health and Safety Code, and to amend Sections 10144.51 and 10144.52 of the Insurance Code, relating to health care coverage.

LEGISLATIVE COUNSEL'S DIGEST

SB 1034, as introduced, Mitchell. Health care coverage: autism.

Existing law provides for the licensure and regulation of health care service plans by the Department of Managed Health Care. A violation of those provisions is a crime. Existing law provides for the licensure and regulation of health insurers by the Department of Insurance.

Existing law requires every health care service plan contract and health insurance policy to provide coverage for behavioral health treatment for pervasive developmental disorder or autism until January 1, 2017, and defines "behavioral health treatment" to mean specific services provided by, among others, a qualified autism service professional supervised and employed by a qualified autism service provider. Existing law defines a "qualified autism service professional" to mean a person who, among other requirements, is a behavior service provider approved as a vendor by a California regional center to provide services as an associate behavior analyst, behavior analyst, behavior management assistant, behavior management consultant, or behavior management program pursuant to specified regulations adopted under the Lanterman Developmental Disabilities Services Act. Existing law requires a treatment plan to be reviewed no less than once every 6 months.

This bill would, among other things, modify requirements to be a qualified autism service professional to include providing behavioral

health treatment, such as clinical management and case supervision. The bill would require that a treatment plan be reviewed no more than once every 6 months, unless a shorter period is recommended by the qualified autism service provider. The bill would extend the operation of these provisions indefinitely. The bill would make conforming changes.

By extending the operation of these provisions, the violation of which by a health care service plan would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason

Vote: majority. Appropriation: no. Fiscal committee: yes.
 State-mandated local program: yes.

BILL ANALYSIS

BILL NUMBER: SB 1101

VERSION: AMENDED MARCH 28, 2016

AUTHOR: WIECKOWSKI

SPONSOR:

- CA ASSOCIATION OF ALCOHOL & DRUG EDUCATORS
- CA CONSORTIUM OF ADDICTION PROGRAMS AND PROFESSIONALS
- CA ASSOCIATION OF DUI TREATMENT PROGRAMS

RECOMMENDED POSITION: NONE

SUBJECT: ALCOHOL AND DRUG COUNSELORS: REGULATION

Summary:

This bill proposes licensing alcohol and drug counselors under the State Department of Health Care Services.

Existing Law:

- 1) Requires the Department of Health Care Services (DHCS) to review and certify alcohol and other drug programs meeting state standards, and to develop standards for ensuring minimal statewide levels of service quality provided by alcohol and other drug programs. (Health and Safety Code (HSC) §11755(k) and (l)).
- 2) Identifies 10 organizations as approved by DHCS to register and certify alcohol and drug counselors. (9 California Code of Regulations (CCR) §13035(a))
- 3) Requires these DHCS-approved certifying organizations to gain and maintain accreditation with the National Commission for Certifying Agencies (NCCA). (9 CCR §13035(c))
- 4) Requires all alcohol and drug (AOD) counselors providing counseling services in an AOD program to register to obtain certification as an AOD counselor with one of the approved certifying organizations within 6 months of their hire date. Certification must be completed within 5 years. (9 CCR §13035(f))
- 5) Sets minimum education and experience requirements that the certifying organizations must require, including the following (9 CCR §13040):

- At least 155 hours formal AOD education, covering specified topics;
 - At least 160 hours supervised AOD training based on specified curriculum;
 - At least 2,080 hours of work experience providing AOD counseling;
 - Passage of a written or oral exam.
- 6) Prior to certifying a registrant as an AOD counselor, the certifying organization must contact all other DHCS-approved certifying organizations to determine if the registrant's certification was ever revoked. If revoked, the certifying organization must document reasons for granting or denying certification. (9 CCR §13045)

This Bill:

- 1) Provides for licensure of alcohol and drug counselors under the State Department of Health Care Services (DHCS). (HSC §1179.80)
- 2) Prohibits a person from using the "licensed alcohol and drug counselor" title unless they have obtained a license issued by DHCS. (HSC §1179.80(b))
- 3) Outlines the minimum qualifications for obtaining an alcohol and drug counselor license, as follows (HSC §1179.80(c)):
 - a. Has a master's or doctoral degree from an accredited or approved school in a specified profession, including addiction counseling, psychology, social work, counseling, marriage and family therapy, or counseling psychology;
 - b. The degree contained at least 21 semester units of addiction specific education approved by a DHCS-recognized certifying organization;
 - c. Has passed an exam deemed acceptably by one of the DHCS's approved certifying organizations;
 - d. Is currently credentialed as an advanced alcohol and drug counselor in good standing with one of the certification organizations recognized by DHCS, with no history of revocation;
 - e. Can document completion of certain specified coursework; and
 - f. Submits to a state and federal criminal background check.
- 4) Allows for a one year grandparenting period. During the one-year period, applicants with 12,000 experience hours are exempted from the degree requirements, the exam requirements, and the specified coursework requirements. However, such applicants must pass the exam within one year of the end of their licenses' first renewal period. (HSC §1179.81)

- 5) Provides that a license for an alcohol and drug counselor is valid for two years, and that 36 hours of continuing education must be completed in order to be eligible for renewal. (HSC §1179.82)
- 6) Allows DHCS to revoke a license if one of the following occur (HSC §1179.82(c)):
 - a. The licensee loses his or her credential from the certifying organization; or
 - b. The licensee is convicted of a felony substantially related to the qualifications, functions or duties of a licensed alcohol and drug counselor.
- 7) Allows DHCS to deny, suspend, or delay a license if it determines the person has a criminal conviction or criminal charge pending, that is substantially related to actions as a licensed alcohol and drug counselor. (HSC §1179.84(b))
- 8) Allows DHCS to waive action to deny, suspend or delay a license under the following circumstances (HSC §1179.84(b)):
 - a. For a felony conviction, more than five years have passed since convicted; or
 - b. For a misdemeanor, the applicant must not be incarcerated, on work release, probation, or parole and must be in substantial compliance with all court orders.

In order to qualify for a waiver, the applicant must not have been convicted of a felony sexual offense and must not present a danger to the public.

Comments:

- 1) **Background.** Although regulations promulgated by the DHCS require AOD counselors working within its licensed or certified facilities to become certified, this requirement does not apply outside its licensed or certified facilities. As a result many practitioners of drug and alcohol treatment are not regulated.

In May 2013, the California Senate Office of Oversight and Outcomes (SOOO) published a report titled, "Suspect Treatment: State's lack of scrutiny allows unscreened sex offenders and unethical counselors to treat addicts." The report presents evidence that California's system for addiction treatment allows registered sex offenders and other serious felons, as well as counselors facing current drug and alcohol charges and those already revoked for misconduct, to provide treatment. The report finds that counselors can easily flout education and training requirements; that the system does not allow for criminal background checks for counselors; and that the system contains gaps that can be exploited by counselors who move between private organizations that register and certify counselors. The SOOO report recommends that drastic changes to California's counselor certification system should be considered. Among a list of many

recommendations, the report recommends a requirement for fingerprint-based criminal background checks for anyone working as a counselor.

- 2) **Intent.** This bill will create a licensing process for alcohol and drug counselors under the Department of Health Care Services. The author notes that most states already have a licensing program for such counselors, but California does not. In addition, the author notes that California does not currently even require a background check for alcohol and drug counselors. This bill will help ensure public protection by specifying minimum education qualifications for a license, requiring passage of an examination, and requiring a criminal background check.
- 3) **Scope of Practice Missing.** This bill does not explicitly define the scope of practice for an alcohol and drug counselor. The bill requires alcohol and drug counselors to receive some training in counseling techniques and approaches and crisis intervention. A defined scope of practice would help clarify that an alcohol and drug counselor is not permitted to practice within the scopes of practice of the Board's licensees.
- 4) **Title Act Versus Practice Act.** This bill is currently written as a title act, meaning that using the title of "licensed alcohol and drug counselor" is prohibited unless such a license is held.

A practice act is a law that prohibits the practice of a profession unless a license is held. At this time, the bill is not a practice act, and the Board's licensees may continue to practice alcohol and drug counseling that is within the scope of their practice, education, and experience, as long as they do not use the title "licensed alcohol and drug counselor."

If at any point this bill became a practice act, the Board would need to request that it be amended to contain language stating the following:

"This bill shall not be construed to constrict, limit, or withdraw the licensing acts to practice marriage and family therapy, educational psychology, clinical social work, or professional clinical counseling."

- 5) **Single Diagnosis Practitioner.** This bill would create a license to treat only one diagnosis. An alcohol and drug counselor would therefore have to be able to differentiate between an issue that is solely attributed to alcohol and drug abuse problems and symptoms and issues that may be attributable to a diagnosis outside his or her scope of practice.

SB 570 (2014), which was a previously proposed bill to license alcohol and drug counselors, contained the following language. It may be helpful in this bill as well:

"Alcohol and drug counseling includes understanding and application of the limits of the counselor's own qualifications and scope of practice, including, but not limited to, screening and, as indicated, referral to or consultation with an

appropriately licensed health practitioner consistent with the client's needs. Every licensee who operates an independent counseling practice shall refer any client assessed as needing the services of another licensed professional to that professional in a timely manner."

6) Past Legislation:

- **SB 570 (De Saulnier) of 2014** This bill would have established the Alcohol and Drug Counselor Licensing Board within the Department of Consumer Affairs for the purposes of licensing and regulating Advanced Alcohol and Drug Counselor Interns (AADCI) and Licensed Advanced Alcohol and Drug Counselors (LAADCs). This bill died in the Assembly.
- **AB 2007 (Williams) of 2012** would have established a licensing and certification system for AADCs to be administered by the Department of Public Health. This bill was held in Assembly Health Committee.
- **SB 1203 (DeSaulnier) of 2010** would have instituted a licensing and certification structure for AOD counselors by DADP. SB 1203 was held in the Assembly Rules Committee.
- **SB 707 (DeSaulnier) of 2009**, which was substantially similar to SB 1203 of 2010, died on the Assembly Appropriations Committee Suspense File.
- **AB 239 (DeSaulnier) of 2008** would have established two categories of licensed alcoholism and drug abuse counselors for persons licensed to practice alcoholism and drug abuse counseling under clinical supervision, and persons licensed to conduct an independent practice of alcoholism and drug abuse counseling, and to provide supervision to other counselors, both to be overseen by BBS. AB 239 was vetoed by Governor Arnold Schwarzenegger who stated, in his veto message, that he was directing DADP to work to craft a uniform standard for all alcohol and drug counselors whether in private practice or in facilities.
- **AB 1367 (DeSaulnier) of 2007** would have provided for the licensing, registration and regulation of Alcoholism and Drug Abuse Counselors, as defined, by BBS. AB 1367 died on Assembly Appropriations Committee Suspense File.
- **AB 2571 (Longville) of 2004** would have created the Board of Alcohol and Other Drugs of Abuse Professionals in DCA and established requirements for licensure of AOD abuse counselors. AB 2571 failed passage in the Assembly Health Committee.
- **AB 1100 (Longville) of 2003** would have enacted the Alcohol and Drug Abuse Counselors Licensing Law, to be administered by BBS. AB 1100 was held in the Assembly Business and Professions Committee.

- **SB 1716 (Vasconcellos) of 2002** would have required BBS to license and regulate alcohol and drug abuse counselors. SB 1716 was held in the Assembly Business and Professions Committee.
- **SB 537 (Vasconcellos) of 2001** would have required DCA to initiate a comprehensive review of the need for licensing substance abuse counselors. SB 537 was vetoed by Governor Gray Davis due to cost concerns. In his veto message, the Governor directed DADP to require counselors in drug and alcohol treatment facilities to be certified for quality assurance purposes.

SENATE BILL

No. 1101

Introduced by Senator Wieckowski

February 17, 2016

An act to add Sections 11751.1 and 131055.3 to, and to add Part 6.5 (commencing with Section 1179.80) to Division 1 of, the Health and Safety Code, relating to alcohol and drug counselors.

LEGISLATIVE COUNSEL'S DIGEST

SB 1101, as amended, Wieckowski. Alcohol and drug counselors: regulation.

Existing law provides for the registration, certification, and licensure of various healing arts professionals. Existing law provides for various programs to eliminate alcohol and drug abuse, and states the finding of the Legislature that state government has an affirmative role in alleviating problems related to the inappropriate use of alcoholic beverages and other drug use.

This bill, among other things, would prohibit any person from using the title licensed alcohol and drug counselor unless the person had applied for and obtained a license from the State Department of ~~Public Health~~, *Health Care Services* and would specify the minimum qualifications for a license, including, but not limited to, educational qualifications, being currently credentialed as an advanced alcohol and drug counselor, and having submitted to a criminal background check. The bill would provide that a license for an alcohol and drug counselor would be valid for 2 years unless at any time during that period it is revoked or suspended, that the license would be authorized to be renewed prior to the expiration of the 2-year period, and that a licensee fulfill continuing education requirements prior to renewal. The bill

would also require that the license fee for an original alcohol and drug counselor license and the license renewal fee be reasonably related to the department’s actual costs in performing its duties under this part, but to not exceed \$200. The

This bill would require the department to ensure that the state and federal level criminal history of the applicant is reviewed before issuing a license, and the department would be required, with exceptions, to deny, suspend, delay, or set aside a person’s license if, at the time of the department’s determination, the person has a criminal conviction or pending criminal charge relating to an offense, the circumstances of which substantially relate to actions as a licensed alcohol and drug counselor. The bill would also require the department to oversee the disciplinary actions of certifying organizations it approves, as provided.

~~This bill, effective July 1, 2017, would transfer the administrative and programmatic functions of the State Department of Health Care Services pertaining to alcohol and drug counselor certification and the approval and regulation of certifying organizations to the department. The bill would also require the State Department of Public Health to oversee the disciplinary actions of certifying organizations it approves, as provided.~~

Vote: majority. Appropriation: no. Fiscal committee: yes.

2 exceed two hundred dollars (\$200).

3 1179.84. (a) Before issuing a license, the ~~State Department of~~
4 ~~Public Health~~ *department* shall ensure that the state and federal
5 level criminal history of the applicant is reviewed.

6 (b) (1) The department shall deny, suspend, delay, or set aside
7 a person’s license if, at the time of the department’s determination,
8 the person has a criminal conviction or criminal charge pending,
9 relating to an offense, the circumstances of which substantially
10 relate to actions as a licensed alcohol and drug counselor.
11 Applicants who have a criminal conviction or pending criminal
12 charge shall request the appropriate authorities to provide
13 information about the conviction or charge directly to the
14 department in sufficient specificity to enable the department to
15 make a determination as to whether the conviction or charge is
16 substantially related to actions as a licensed alcohol and drug
17 counselor.

18 (2) However, after a hearing or review of documentation
19 demonstrating that the applicant meets the specified criteria for a
20 waiver, the department may waive this subdivision if it finds any
21 of the following:

22 (A) For waiver of a felony conviction, more than fi e years
23 have elapsed since the date of the conviction. At the time of the
24 application, the applicant shall not be incarcerated, on work release,
25 on probation, on parole, or serving any part of a suspended sentence
26 and shall be in substantial compliance with all court orders
27 pertaining to fines, restitution, and community service

28 (B) For waiver of a misdemeanor conviction or violation, at the
29 time of the application, the applicant shall not be incarcerated, on
30 work release, on probation, on parole, or serving any part of a
31 suspended sentence and shall be in substantial compliance with
32 all court orders pertaining to fines, restitution, and community
33 service.

34 (C) The applicant is capable of practicing licensed alcohol and
35 drug treatment services in a competent and professional manner.

36 (D) The granting of the waiver will not endanger the public
37 health, safety, or welfare.

38 (E) The applicant has not been convicted of a felony sexual
39 offense.

CALIFORNIA STATE BOARD OF BEHAVIORAL SCIENCES

BILL ANALYSIS

BILL NUMBER: SB 1155 **VERSION:** AMENDED MARCH 28, 2016

AUTHOR: MORRELL **SPONSOR:** AUTHOR

RECOMMENDED POSITION: NONE

SUBJECT: PROFESSIONS AND VOCATIONS: LICENSES: MILITARY SERVICE

Summary

This bill would require licensing boards within the Department of Consumer Affairs (DCA) to grant fee waivers for the application for and issuance of a license to persons who are honorably discharged veterans.

Existing Law:

- 1) Allows a licensee or registrant of any board, commission, or bureau within DCA to reinstate his or her license without examination or penalty if the license expired while he or she was on active duty with the California National Guard or the United States Armed Forces, if certain conditions are met. (Business and Professions Code (BPC) §114):
- 2) Requires boards under DCA to waive continuing education requirements and renewal fees for a licensee or registrant while he or she is called to active duty as a military member if he or she held a valid license or registration upon being called to active duty, and substantiates the active duty service. (Business and Professions Code (BPC) §114.3)
- 3) Requires every board under DCA to ask on all licensure applications if the individual serves, or has previously served, in the military. (BPC §114.5)
- 4) Requires Boards under DCA to expedite the initial licensure process for applicants who are honorably discharged from the military, or who are spouses of active military members who are already licensed in another state. (BPC §§115.4, 115.5)

This Bill:

- 1) Requires licensing boards within DCA to grant fee waivers for the application for and issuance of a license to persons who are honorably discharged military members. (BPC §114.6)
- 2) Prohibits fee waivers for license renewals. (BPC §114.6(c))

3) Only allows one fee waiver per person. (BPC §114.6(a))

Comments:

1) **Author's Intent.** The author seeks to assist honorably discharged military veterans with entrance into the workforce. They note that initial application and occupational license fees can act as barriers into the workforce for veterans.

2) **Fiscal Impact.** The fees that would qualify for a military service waiver under this bill are as follows:

LMFTs: \$130 initial license fee

LEPs: \$80 initial license fee

LCSWs: \$100 initial license fee

LPCCs: \$200 initial license fee

The Board only recently began tracking data about the number of licensees in military service when the Breeze database system came online in late 2014. Therefore, data about applicants and licensees in military service is limited.

Since October 2014, the Board has received applications from 259 individuals who successfully qualified for an expedited license due to being honorably discharged from the military. However, this number represents more than just initial licensees; it also includes registrants and those who are in the exam cycle.

The Board cannot make an accurate estimate at this time about how many individuals per year would qualify for the fee waiver. As hypothetical example, however, we will assume 200 individuals per year qualified for the waiver. The average of the fee waived across license types is \$128. Under this scenario, the fiscal impact to the Board would be as follows:

*200 applicants qualifying for fee waivers x \$128 average waived fee = **\$25,600**
fiscal impact to the Board for the year*

3) **Proration of Initial License Fees.** The Board prorates the initial license fee for all applicants based on their birth month and the month the initial license issuance application is received by the Board. This is done to ensure fairness. Licenses always expire in the licensee's birth month, and if the fee were not prorated, some would pay the full amount but receive less than the full two years of licensure due to their birth date.

As an example, the full initial license fee for LMFT applicants is \$130, but some pay a prorated fee as low as \$70 based on birth date and submission time.

Because the initial license fee is prorated, allowing a fee waiver for it may cause some inequity. Some applicants will get more of a savings from the waived fee than others, depending on their birth date and when they submitted the application.

- 4) Fees Intended for Waiver Unclear.** The amendments in this bill state that boards must grant a fee waiver for “the application for and issuance of a license...”

Boards under DCA collect fees at a variety of times during the licensure process. Some boards only require fees to be paid for the issuance of a license. This Board requires fees to be paid at a variety of times: at registration, at renewal of registration, to apply for exam eligibility, to take licensing exams, and for the issuance of an initial license.

The Board’s initial license fee is the only fee that appears to meet the requirements for waiver under this bill. It is not known if the intent of the bill was for other fees in the process (for example, the Board’s exam eligibility application fees) to qualify for waiver as well.

- 5) Tracking Previous Fee Waivers.** This bill states that applicants can only be granted one fee waiver.

It may be difficult for the Board to ascertain whether an applicant has already been granted a fee waiver, especially if he or she is dually licensed.

- 6) Related Legislation.** SB 1348 (Cannella) would require that if a board’s governing law allows it to accept military experience and training toward licensure, then that board must modify its licensure applications to advise veterans of this allowance.

SENATE BILL

No. 1155

Introduced by Senator Morrell

February 18, 2016

An act to add Section 114.6 to the Business and Professions Code, relating to professions and vocations.

LEGISLATIVE COUNSEL'S DIGEST

SB 1155, as amended, Morrell. Professions and vocations: licenses: military service.

Existing law provides for the licensure and regulation of various professions and vocations by boards within the Department of Consumer Affairs. Existing law authorizes any licensee whose license expired while he or she was on active duty as a member of the California National Guard or the United States Armed Forces to reinstate his or her license without examination or penalty if certain requirements are met. Existing law also requires the boards to waive the renewal fees, continuing education requirements, and other renewal requirements, if applicable, of any licensee or registrant called to active duty as a member of the United States Armed Forces or the California National Guard, if certain requirements are met. Existing law requires each board to inquire in every application if the individual applying for licensure is serving in, or has previously served in, the military. Existing law, on and after July 1, 2016, requires a board within the Department of Consumer Affairs to expedite, and authorizes a board to assist, the initial licensure process for an applicant who has served as an active duty member of the ~~Armed Forces of the United States~~ *Armed Forces* and was honorably discharged.

This bill would require ~~the Department of Consumer Affairs, in consultation with the Department of Veterans Affairs and the Military Department, to establish and maintain a program that grants every board within the Department of Consumer Affairs to grant~~ a fee waiver for the application for and the issuance of an initial license to an individual who is an honorably discharged veteran, as specified

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.

The people of the State of California do enact as follows:

- 1 SECTION 1. Section 114.6 is added to the Business and
- 2 Professions Code, to read:
- 3 114.6. ~~The Department of Consumer Affairs, in consultation~~
- 4 ~~with the Department of Veterans Affairs and the Military~~
- 5 ~~Department, shall establish and maintain a program that grants~~
- 6 *Notwithstanding any other provision of law, every board within*
- 7 *the department shall grant* a fee waiver for the application for and
- 8 issuance of a license to an individual who is an honorably
- 9 discharged veteran who served as an active duty member of the
- 10 California National Guard or the United States Armed Forces.
- 11 Under this program, all of the following apply:
- 12 (a) ~~The Department of Consumer Affairs shall grant only one~~
- 13 ~~fee waiver to a veteran. A veteran shall be granted only one fee~~
- 14 ~~waiver.~~
- 15 (b) The fee waiver shall apply only to an application of and a
- 16 license issued to an individual veteran and not to an application
- 17 of or a license issued to a business or other entity.
- 18 (c) A waiver shall not be issued for a renewal of a license or for
- 19 the application for and issuance of a license other than one initial
- 20 license.

BILL ANALYSIS

BILL NUMBER: SB 1204 **VERSION:** INTRODUCED FEBRUARY 18, 2016

AUTHOR: HERNANDEZ **SPONSOR:** AUTHOR

RECOMMENDED POSITION: NONE

SUBJECT: HEALTH PROFESSIONS DEVELOPMENT: LOAN REPAYMENT

Summary: This bill would increase the Mental Health Practitioner Education Fund fee that licensed marriage and family therapists and licensed clinical social workers pay upon license renewal from \$10 to \$20. It would also require LPCCs to pay a \$20 fee into the fund upon renewal, and would allow LPCCs to apply for a loan repayment grant if they work in a mental health professional shortage area.

Existing Law:

- 1) Establishes a maximum biennial renewal fee that LMFT, LCSW, and LPCC licensees must pay in order to renew a license. (Business and Professions Code (BPC) §§4984, 4984.7, 4996.6, 4996.3, 4999.102, 4999.120)
- 2) Sets the amount for the LMFT renewal fee at \$130 (California Code of Regulations (CCR) Title 16, Section 1816(d)).
- 3) Sets the amount for the LCSW renewal fee at \$100 (16 CCR §1816(f)).
- 4) Sets the amount for the LPCC renewal fee at \$175 (16 CCR §1816(g))
- 5) Requires that in addition to the regular license renewal fee, LMFTs and LCSWs must pay an additional \$10 renewal fee, which shall be deposited in the Mental Health Practitioner Education Fund. (BPC §§4984.75, 4996.65)
- 6) Creates the Licensed Mental Health Service Provider Education Program within the Health Professions Education Foundation. Funds from this program are administered by the Office of Statewide Health Planning and Development (OSHPD). (Health and Safety Code (HSC) §§128454(a), 128458)
- 7) Allows any licensed mental health service provider who provides direct patient care in a publicly funded facility or a mental health professional shortage area to apply for grants under this program to reimburse educational loans related to a career as a licensed mental health service provider. (HSC §128454(c))
- 8) Defines a “licensed mental health service provider” to include several types of licensed mental health professionals, including marriage and family therapists, MFT interns, licensed clinical social workers, and associate clinical social workers. (HSC §128454(b))

- 9) Defines a “mental health professional shortage area” as an area given this designation by the Health Resources and Services Administration of the U.S. Department of Health and Human Services. (HSC §128454(b))
- 10) Requires the Health Professions Education Foundation to develop the grant program, and allows it to make recommendations to the director of OSHPD regarding the following (HSC §128454(d) and (e)):
 - The length of the contract that a grant recipient must sign obligating him or her to work in a mental health professional shortage area (the law requires it to be at least one year);
 - The maximum allowable total grant per person and the maximum annual grant per person;
- 11) Requires a recipient of a loan repayment grant to provide service for 24 months for no less than 32 hours per week. (22 CCR §97930.8(a))

This Bill:

- 1) Increases the Mental Health Practitioner Education Fund Fee charged to LMFTs and LCSWs at license renewal from \$10 to \$20. (BPC §§4984.75, 4996.65)
- 2) Requires LPCCs to pay a Mental Health Practitioner Education Fund Fee of \$20 upon license renewal. (BPC §4999.121)
- 3) Allows LPCCs to be eligible to apply for grants to reimburse educational loans under the Licensed Mental Health Service Provider Education Program if they are providing direct patient care in a publicly funded facility or a mental health professional shortage area. (HSC §128454)

Comment:

- 1) **Author’s Intent.** The purpose of this bill is to increase the amount of funds available for loan repayment grant programs for mental health professionals who commit to working in medically underserved areas.

The author’s office notes that California suffers from shortages of mental health providers. They cite a 2013 Substance Abuse and Mental Health Services Administration report that states that recruitment and retention efforts are hampered by inadequate compensation, and calls for an increased effort on providing incentives such as loan repayments and forgiveness programs.

- 2) **Inclusion of LPCC Interns.** This proposal includes LPCCs in the list of mental health professionals who pay into the program, and who are eligible for grants from the program. They are being added because when the program was originally established, LPCC licensure did not exist.

As written, the law includes MFT interns and clinical social work associates as being eligible for the grants, but overlooks PCC interns. In a conversation with the author’s

office, staff learned that this was an oversight, and that they are willing to include them.

- 3) Fee Comparison.** Below is a chart comparing the current biennial renewal fee for each license type, with what the biennial renewal fee would be if this bill became law.

License Type	Current Renewal Fee			Proposed Renewal Fee		
	Renewal Fee	MHP Edu. Fund Fee	Total Fee	Renewal Fee	MHP Edu. Fund Fee	Total Fee
LMFT	\$130	\$10	\$140	\$130	\$20	\$150
LCSW	\$100	\$10	\$110	\$100	\$20	\$120
LPCC	\$175	\$0	\$175	\$175	\$20	\$195

- 4) Fiscal Impact and Revenue Generated.** If this bill became law, each LMFT and LCSW would pay an extra \$10 every other year. LPCC licensees would pay an extra \$20 every other year.

Currently, the Board’s total population of LMFTs, LCSWs, and LPCCs is approximately 65,000. Board staff estimates that the proposed increase in the Mental Health Practitioner Education Fund Fee would generate approximately an extra \$331,000 per year.

On its website, OSHPD states that the grant award amount per recipient ranges from a low of \$5,000 to a high of \$15,000. Therefore, it is likely that the extra revenue generated could fund several new awards.

- 5) Delayed Implementation Needed.** This bill is an urgency measure, meaning it becomes effective immediately upon signing by the Governor. However, implementation of this bill will require new fee codes to be established in the Breeze database system. In addition, staff will need to update renewal forms for each license type to reflect the new fee amount. For these reasons, staff recommends the Board consider asking for a delayed implementation date of January 1, 2018.

6) Support and Opposition.

An act to amend Sections 2436.5, 2455.1, 2987.2, 4984.75, and 4996.65 of, and to add Section 4999.121 to, the Business and Professions Code, and to amend Sections 128454, 128551, 128552, 128555, and 128556 of the Health and Safety Code, relating to health professions development, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

LEGISLATIVE COUNSEL'S DIGEST

SB 1204, as introduced, Hernandez. Health professions development: loan repayment.

(1) Under existing law, the Medical Board of California licenses and regulates physicians and imposes various fees on those licensees. The Osteopathic Medical Board of California licenses and regulates osteopathic physicians and imposes various fees on those licensees. Existing law establishes the Medically Underserved Account for Physicians within the Health Professions Education Fund that is managed by the Health Professions Education Foundation and the Office of Statewide Health Planning and Development. The primary purpose of the account is to fund the Steven M. Thompson Physician Corps Loan Repayment Program, which provides for the repayment of educational loans, as specified, obtained by a physician who practices in a medically underserved area of the state, as defined. Funds placed in the account for those purposes are continuously appropriated for the repayment of loans. Physicians and osteopathic physicians are eligible for the loan repayment program, and the board assesses an additional \$25 license charge at the time of the initial application for licensure and license renewal for purposes of funding the loan repayment program.

This bill would increase the license application and renewal charge to \$50. The bill would increase the monetary limits for loan repayment, as specified, and would expand the eligibility for loan repayment funds to include those physicians providing psychiatric services. Because this bill would provide for the deposit of additional moneys in a continuously appropriated fund and would expand the purposes for which moneys in a continuously appropriated fund may be used, it would make an appropriation.

(2) The Psychology Licensing Law establishes the Board of Psychology to license and regulate the practice of psychology. That law establishes a biennial license renewal fee, and, in addition, a \$10 fee at the time of renewal of a license for deposit in the Mental Health Practitioner Education Fund. Moneys in that fund are available, upon appropriation, for purposes of the Licensed Mental Health Service Provider Education Program.

This bill would increase that additional fee to \$20.

(3) The Licensed Marriage and Family Therapist Act, the Clinical Social Worker Practice Act, and the Licensed Professional Clinical Counselor Act make the Board of Behavioral Sciences responsible for the licensure and regulation of marriage and family therapists, clinical social workers, and professional clinical counselors, respectively. Those acts require the board to establish and assess biennial license renewal fees, as specified. The Licensed Marriage and Family Therapist Act and the Clinical Social Worker Practice Act also require the board to collect an additional fee of \$10 at the time of license renewal and directs the deposit of these additional fees in the Mental Health Practitioner Education Fund.

This bill would increase those existing additional fees under the Licensed Marriage and Family Therapist Act and the Clinical Social Worker Practice Act from \$10 to \$20, and would amend the Licensed Professional Clinical Counselor Act to require the Board of Behavioral Sciences to collect an additional \$20 fee at the time of renewal of a license for a professional clinical counselor for deposit in the fund.

(4) Existing law authorizes any licensed mental health service provider, as defined, including a mental health service provider who is employed at a publicly funded mental health facility or a public or nonprofit private mental health facility that contracts with a county mental health entity or facility to provide mental health services, who provides direct patient care in a publicly funded facility or a mental health professional shortage area to apply for grants under the Licensed

Mental Health Service Provider Education Program to reimburse his or her educational loans related to a career as a licensed mental health service provider, as provided.

This bill would add licensed professional clinical counselors to those licensed mental health service providers eligible for grants to reimburse educational loans.

This bill would also delete obsolete provisions.

(5) This bill would declare that it is to take effect immediately as an urgency statute.

Vote: $\frac{2}{3}$. Appropriation: yes. Fiscal committee: yes.

State-mandated local program: no.

The people of the State of California do enact as follows:

1 SECTION 1. Section 2436.5 of the Business and Professions
2 Code is amended to read:

3 2436.5. (a) (1) In addition to the fees charged for the initial
4 issuance or biennial renewal of a physician and surgeon’s certificat
5 pursuant to Section 2435, and at the time those fees are charged,
6 the board shall charge each applicant or renewing licensee an
7 additional ~~twenty-five-dollar (\$25)~~ *fift -dollar (\$50)* fee for the
8 purposes of this section.

9 (2) The ~~twenty-five-dollar (\$25)~~ *fift -dollar (\$50)* fee shall be
10 paid at the time of application for initial licensure or biennial
11 renewal and shall be due and payable along with the fee for the
12 initial certificate or biennial ren wal.

13 (3) On or before July 1, 2015, the board shall develop a
14 mechanism for a physician and surgeon to pay a voluntary
15 contribution, at the time of application for initial licensure or
16 biennial renewal, for the purposes of this section.

17 (b) The board shall transfer all funds collected pursuant to this
18 section, on a monthly basis, to the Medically Underserved Account
19 for Physicians created by Section 128555 of the Health and Safety

CALIFORNIA STATE BOARD OF BEHAVIORAL SCIENCES

BILL ANALYSIS

BILL NUMBER: SB 1217 **VERSION: INTRODUCED FEBRUARY 18, 2016**

AUTHOR: STONE **SPONSOR: AUTHOR**

RECOMMENDED POSITION: NONE

**SUBJECT: HEALING ARTS: REPORTING REQUIREMENTS: PROFESSIONAL LIABILITY
RESULTING IN DEATH OR PERSONAL INJURY**

Summary:

Currently, a healing art licensee must report all judgments or settlements for negligence claims in excess of a certain dollar amount to his or her licensing board. This bill would make the claim reporting threshold \$10,000 for all healing arts licensees.

Existing Law:

- 1) Requires healing arts boards under the Department of Consumer Affairs (DCA) to have a central file for each licensee containing the following information (Business and Professions Code (BPC) §800(a)):
 - a) Any criminal conviction that constitutes unprofessional conduct;
 - b) Any public complaints;
 - c) Any judgment or settlement that required the licensee or his or her insurer to pay damages in excess of \$3,000 due to a claim that the licensee's negligence, error or omission in practice resulted in injury or death.
- 2) Requires every insurer providing professional liability insurance to one of the Board's licensees to report to the Board any settlement award over \$10,000 for a claim for damages caused by the licensee's negligence, error, or omission in practice. (BPC §801(b))
- 3) Requires every state or local government agency that self-insures a Board licensee to report to the Board any settlement award over \$10,000 for a claim for damages caused by the licensee's negligence, error, or omission in practice. (BPC §801.1(b))
- 4) Requires a Board licensee who does not have professional liability insurance to report to the Board any settlement award over \$10,000 for a claim for damages caused by the licensee's negligence, error, or omission in practice. (BPC §802(b))

This Bill:

- 1) Raises the reporting requirement of any judgment or settlement against a licensee from \$3,000 to \$10,000 for all healing arts boards. (BPC §§800 – 802)

Comment:

- 1) Author's Intent.** The author notes that all healing arts licensing boards under DCA are required to maintain a central file containing certain information on each licensee, including any reported judgments or settlements on the licensee. For some boards, judgments in excess of \$10,000 must be reported, while for others, judgments in excess of \$3,000 must be reported.

The author believes the difference in the reporting amounts among boards is arbitrary, and seeks to make the judgment reporting threshold \$10,000 for all healing arts license types.

- 2) Error in Current Law.** The Board's reporting threshold is \$10,000. However, there is an error in the law referencing which of the Board's licensees are subject to the reporting requirement. BPC Sections 801(b), 801.1(b), and 802(b) state that the \$10,000 reporting requirement applies to licensees subject to Chapter 13 (commencing with Section 4980) (this references LMFTs), Chapter 14 (commencing with Section 4990), and Chapter 16 (commencing with Section 4999.10) (this references LPCCs).

The reference to "Chapter 14 (commencing with Section 4990)" is incorrect. While Chapter 14 references LCSW statute, Section 4990 is a reference to the beginning of the Board's general provisions. Therefore, it is unclear whether this portion of the law intends to reference LCSW statute, or general provisions that apply to all of the Board's license types. It is likely attempting to reference the general provisions, which would mean that both LCSWs and LEPs are included in the \$10,000 reporting requirement.

This bill would correct this error, as it deletes the subsections specifically referencing this Board's license types. Under the new amendments, the \$10,000 reporting requirements would apply to all healing arts licensees, and our Board's licensing statute would no longer be specifically referenced.

An act to amend Sections 800, 801, 801.1, and 802 of the Business and Professions Code, relating to healing arts.

LEGISLATIVE COUNSEL'S DIGEST

SB 1217, as introduced, Stone. Healing arts: reporting requirements: professional liability resulting in death or personal injury.

Existing law establishes within the Department of Consumer Affairs various boards that license and regulate the practice of various professions and vocations, including those relating to the healing arts. Existing law requires each healing arts licensing board to create and maintain a central file containing an individual historical record on each person who holds a license from that board. Existing law requires that the individual historical record contain any reported judgment or settlement requiring the licensee or the licensee's insurer to pay over \$3,000 in damages for any claim that injury or death was proximately caused by the licensee's negligence, error or omission in practice, or rendering unauthorized professional service.

This bill would instead require the record to contain reported judgments or settlements with damages over \$10,000.

Existing law requires an insurer providing professional liability insurance to a physician and surgeon, a governmental agency that self-insures a physician and surgeon or, if uninsured, a physician and surgeon himself or herself, to report to the respective licensing board information concerning settlements over \$30,000, arbitration awards in any amount, and judgments in any amount in malpractice actions to the practitioner's licensing board. Existing law provides that information concerning professional liability settlements, judgments, and arbitration

awards of over \$10,000 in damages arising from death or personal injury must be reported to the respective licensing boards of specified healing arts practitioners including, among others, licensed professional clinical counselors, licensed dentists, and licensed veterinarians. Existing law provides that, for other specified healing arts practitioners including, among others, licensed educational psychologists, licensed nurses, and licensed pharmacists, information concerning professional liability settlements, judgments, and arbitration awards of over \$3,000 in damages arising from death or personal injury shall be reported to their respective licensing boards.

This bill would raise the minimum dollar amount triggering those reporting requirements from \$3,000 to \$10,000.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.

The people of the State of California do enact as follows:

1 SECTION 1. Section 800 of the Business and Professions Code

14 and the Physician Assistant Board shall each separately create and
15 maintain a central file of the names of all persons who hold a
16 license, certificate, or similar authority from that board. Each
17 central file shall be created and maintained to provide an individual
18 historical record for each licensee with respect to the following

21 constitutes unprofessional conduct pursuant to the reporting
22 requirements of Section 803.

1 (2) Any judgment or settlement requiring the licensee or his or
2 her insurer to pay any amount of damages in excess of ~~three~~
3 ~~thousand dollars (\$3,000)~~ *ten thousand dollars (\$10,000)* for any

6 unauthorized professional services, pursuant to the reporting
7 requirements of Section 801 or 802.

8 (3) Any public complaints for which provision is made pursuant

10 (4) Disciplinary information reported pursuant to Section 805,
11 including any additional exculpatory or explanatory statements

14 resulting in the 805 report was conducted in bad faith and the
15 licensee who is the subject of the report notifies the board of that
16 finding, the board shall include that finding in the central file. For
17 purposes of this paragraph, "peer review" has the same meaning
18 as defined in Section 805

31 (3) Notwithstanding this subdivision, the Board of Psychology,
32 the Board of Behavioral Sciences, and the Respiratory Care Board
33 of California shall maintain complaints or reports as long as each
34 board deems necessary.

35 (c) (1) The contents of any central file that are not public

37 except that the licensee involved, or his or her counsel or
38 representative, shall have the right to inspect and have copies made
39 of his or her complete file except for the provision that may
40 disclose the identity of an information source. For the purposes of

1 this section, a board may protect an information source by
2 providing a copy of the material with only those deletions necessary
3 to protect the identity of the source or by providing a
4 comprehensive summary of the substance of the material.
5 Whichever method is used, the board shall ensure that full
6 disclosure is made to the subject of any personal information that
7 could reasonably in any way reflect or convey anything detrimental,
8 disparaging, or threatening to a licensee's reputation, rights,
9 benefits, privileges, or qualifications, or be used by a board to
10 make a determination that would affect a licensee's rights, benefits
11 privileges, or qualifications. The information required to be
12 disclosed pursuant to Section 803.1 shall not be considered among
13 the contents of a central file for the purposes of this subdivision.

14 (2) The licensee may, but is not required to, submit any
15 additional exculpatory or explanatory statement or other
16 information that the board shall include in the central file

17 (3) Each board may permit any law enforcement or regulatory
18 agency when required for an investigation of unlawful activity or
19 for licensing, certification, or regulatory purposes to inspect and
20 have copies made of that licensee's file, unless the disclosure is
21 otherwise prohibited by law.

22 (4) These disclosures shall effect no change in the confidentialia
23 status of these records.

CALIFORNIA STATE BOARD OF BEHAVIORAL SCIENCES

BILL ANALYSIS

BILL NUMBER: SB 1334

VERSION: AMENDED MARCH 28, 2016

AUTHOR: STONE

**SPONSOR: CALIFORNIA CLINICAL FORENSIC
MEDICAL TRAINING CENTER**

RECOMMENDED POSITION: NONE

SUBJECT: HEALTH PRACTITIONERS: HUMAN TRAFFICKING

Summary: This bill would require a health care practitioner providing medical services to a patient to make a mandated report if the patient informs him or her that they are seeking treatment due to being the victim of assaultive or abusive conduct. It would also add human trafficking to the list of offenses that are considered reportable assaultive and abusive conduct.

Existing Law:

- 1) Requires any health practitioner who is employed in a health facility, clinic, physician's office, or local or state public health department to make a report when he or she provides medical services for a physical condition to a patient as follows (Penal Code (PC) §11160(a)):
 - a) The patient is suffering from a wound or physical injury inflicted by his or her own act or inflicted by another, by means of a firearm; or
 - b) The patient is suffering from a wound or physical injury inflicted as a result of assaultive or abusive conduct.
- 2) Defines "assaultive or abusive conduct" as including battery, sexual battery, assault with a deadly weapon, rape, incest, child abuse, spousal abuse, and elder abuse, among others. (PC §11160(d))
- 3) Defines a "health practitioner" to include the Board's license types. (PC §§11162.5(a), 11165.7(a))

This Bill:

- 1) Requires a health practitioner employed in a health facility, clinic, physician's office, or local or state public health department to make a report when he or she provides medical services to a patient who discloses that he or she is seeking treatment due to being the victim of assaultive or abusive conduct. (PC §11160(a)(2))
- 2) Adds human trafficking to the list of offenses that are considered assaultive or abusive conduct. (PC §11160(d)(8))

Comment:

- 1) **Author's Intent.** The author states that there is a gap in the mandated reporting law that impacts reporting of sexual assault by health care providers. Currently such a mandated report is only triggered if there is a wound or injury. However, the author notes that there is not always a wound or physical injury resulting from a sexual assault.
- 2) **Definition of "Medical Services."** This bill requires a health care practitioner (which by definition includes Board licensees) to make specified mandated report based on observations made while providing medical services to the patient. It is unclear if medical services include mental health services, as no definition is provided.
- 3) **Effect on Psychotherapist-Patient Privilege.** The Committee may want to discuss effects on the psychotherapist-patient privilege if a Board licensee is required to make a mandated report upon learning that a patient is seeking treatment due to being a victim of assaultive or abusive conduct.

An act to amend Section 11160 of the Penal Code, relating to crime reporting.

LEGISLATIVE COUNSEL'S DIGEST

SB 1334, as amended, Stone. Crime reporting: health practitioners: human trafficking

Existing law requires a health practitioner, as specified, who, in his or her professional capacity or within the scope of his or her employment, provides medical services to a patient who he or she knows, or reasonably suspects, has suffered from a wound or other physical injury where the injury is by means of a firearm or is the result of assaultive or abusive conduct, to make a report to a law enforcement agency, as specified. Existing law defines "assaultive or abusive conduct" for these purposes as a violation of specified crimes. Under existing law, a violation of this provision is a crime.

This bill would *require a health care practitioner who provides medical services to a patient who discloses that he or she is seeking treatment due to being the victim of assaultive or abusive conduct, to additionally make a report to a law enforcement agency. The bill would also add the crime of human trafficking to the list of crimes that constitute assaultive or abusive conduct for purposes of the above reporting requirements.* ~~requirements and the reporting requirements added by this bill.~~ By increasing the scope of an existing crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.

The Board is currently sponsoring the following legislative proposals:

1. **AB 1917 (Obernolte): Educational Requirements for Marriage and Family Therapists and Professional Clinical Counselor Applicants**

This bill proposes modifications to the education required to become an LPCC or an LMFT as follows:

1. It amends the coursework and practicum required of LPCC applicants in order to ensure that the degree was designed to qualify the applicant to practice professional clinical counseling.
2. It amends the law to define education gained out-of-state based on the location of the school, instead of based on the residence of the applicant.

Status: This bill has passed the Assembly Business and Professions Committee, and has been referred to the Assembly Appropriations Committee.

2. **SB 1478 (Senate Business, Professions, and Economic Development Committee): Healing Arts (Omnibus Bill)**

This bill proposal, approved by the Board at its November 20, 2015 meeting, makes minor, technical, and non-substantive amendments to add clarity and consistency to current licensing law.

The proposal to change the marriage and family therapist and professional clinical counselor "intern" title to "associate," also approved by the Board at its November 20, 2015 meeting, is also included in this bill.

Status: This bill is scheduled for hearing with the Senate Business, Professions and Economic Development Committee on April 18, 2016.

CURRENT REGULATORY PROPOSALS

Standards of Practice for Telehealth: Add Title 16, CCR Section 1815.5

This proposal addresses the use of telehealth in the provision of psychotherapy, and clarifies questions, such as when a California license is needed, actions a licensee must take in order to protect the client in a telehealth setting, and that failure to follow telehealth requirements is considered unprofessional conduct.

The final proposal was approved by the Board at its meeting in May 2015. It was published in the California Regulatory Notice Register on July 10, 2015. The 45-day public comment period has ended, and the public hearing was held on August 25, 2015. In response to comments received, modifications were made to the proposal and the 15-day public comment period ended on September 24, 2015. This proposal is currently under review by the State Business, Consumer Services and Housing Agency.

English as a Second Language: Additional Examination Time: Add Title 16, CCR Section 1805.2

This proposal would allow the Board to grant time-and-a-half (1.5x) on a Board-administered examination to an English as a second language (ESL) applicant, if the applicant meets specific criteria demonstrating limited English proficiency.

The final proposal was approved by the Board at its meeting in November 2015. It was published in the California Regulatory Notice Register on January 1, 2016. The 45-day public comment period has ended, and the public hearing was held on February 15, 2016. This proposal is currently under review by the Department of Consumer Affairs.

However, Business and Professions Code section 4990.16 states that protection of the public shall be the highest priority for the Board. If the Board were to determine that some citations and fines would be published and others were not, the Board may appear non-compliant with its consumer protection mandate.

A citation and fine that is issued to a licensee is attached to the licensee's record. A public search of a licensee's record through the BreZE system will reveal if a citation and fine has been issued. The public then has the opportunity to view the citation and fine document, which specifies the cause for the citation, fine assessed (if any), and Order of Abatement.

Citation and fines are listed in the Board's newsletter under "Enforcement Citations" and provide the name of the licensee, overall category of the violation (e.g. unprofessional conduct, unlicensed activity) and the fine amount (if any). A member of the public must conduct a license search through BreZE to view details of the citation and fine. In the Board's newsletter a citation and fine is defined as *"an administrative action used for minor violations. Citations and fines are public information but are not considered to be disciplinary actions."*

Formal disciplinary actions appearing in the Board newsletter are listed under the heading "Administrative Actions". A summary of the formal disciplinary action taken is provided along with the name of the licensee or registrant, their location, and license/registration number. Further, a list of terms and their definition related to the discipline process is provided in every newsletter. Both the citations and fines and formal disciplinary actions appear next to each other in the Board's newsletter.

Another concern expressed is related to the five year time period in which a citation and fine is available on the Board's website. Specifically, if the Board is removing the citation and fine information after five years, are other related publications that include this information, such as the Board's newsletter, also removed? A review of the Board's website reveals that Board newsletters dating back to 1999 remain on the website. Citations and Fines were first published in the Fall 2005 newsletter.

Possible Options to Consider

Board staff is able to modify the titles in its newsletter. "Enforcement Citations" could be revised to "Administrative Actions", which would be consistent with the definition for a citation and fine provided in the newsletter. "Administrative Actions" could be revised to "Formal Disciplinary Actions" with a definition that indicates a higher level of discipline. Revising the titles may provide clarification to the public and affected licensees/registrants.

The committee may also wish to consider recommending that the Board establish a policy to specify the removal of newsletters from the Board's website that complies with five year requirement specified in Business and Professions Code section 4990.09. Adoption of a policy would formally establish a process to remove Board newsletters from its website. Currently, a policy does not exist. Alternatively, the committee may wish to consider a less formal option for removing Board newsletters from its website. Such as directing Board staff to immediately

remove all newsletters older than five years from the Board's website; and ongoing, maintain an archive of newsletters on the website that does not exceed five years.

Recommendation

Conduct an open discussion regarding the best alternative to address the concerns related to the publication of citations and fines in the Board's newsletters and bring the recommended alternatives to the Board for consideration.

BOARD OF
BEHAVIORAL
SCIENCES****WINTER 2016
NEWSLETTER****EXAMINATION NEWS****EXAMINATION RESTRUCTURE**

It's nearly here—the change to the Board's examination process. After January 1, 2016, all registrants will be required to take and pass the California Law and Ethics Examination. Once this examination is passed, you have completed the first of two examinations required for licensure.

The second exam is a Clinical Examination and may be taken after the required number of supervised hours have been obtained and submitted to the Board for approval. Once your supervised experience hours are approved, you may take the Clinical Examination.

So what does the change mean? For those who do not pass an examination, a reduced waiting period between exams. Further, some individuals will be taking a national examination for licensure.

The Board recognizes the change to the examination process is significant and impacts everyone seeking licensure. But how does the change impact YOU?

The Board created a series of video tutorials and FAQs (Frequently Asked Questions) to provide you with information about the process specific to your situation. This information is currently available on the Board's website. Please take a moment to view the tutorial that applies to your situation and the relevant FAQs.

This information will help guide you through the new examination process. It is important you become familiar with the new process to avoid delays in your registration renewal or in the licensure process.

Additionally, the Board created examination flow charts to provide you with quick overview of the process. The examination flow charts, which are included in this newsletter on pages 7 and 9, provide you with basic information about the new examination process. However, we strongly encourage watching the video tutorial and reviewing the FAQs specific to your situation so that you are aware of all the examination requirements.

For individuals who will be taking a national examination for licensure, information regarding the national exam, exam content, and study guides are available on the respective websites. For LPCC candidates, please visit **NBCC.org**. LCSW candidates may access the information at **ASWB.org**.

Information related to the California Law and Ethics Examination and the LMFT Clinical Examination is available on the Board's website at **www.bbs.ca.gov**.

CHAIR'S MESSAGE

Christina Wong, LCSW, Chair

Welcome to 2016!

When I look back at 2015, the Board of Behavioral Sciences (Board) enjoyed an auspicious and fruitful year with many successes. Online renewal through the BreEZe program was implemented, and the utilization is steadily increasing. Legislative changes to streamline the supervised work experience requirement and to improve efficiency of the enforcement

process were approved and signed by the Governor. The Uniform Standards for Substance Abusing Licensees regulations were adopted and have been in effect since October. Finally, the Board's Sunset Review Report was completed and submitted for review in December. These accomplishments are the direct result of the diligent efforts and dedication of the Board staff and Board members.

The long awaited examination restructuring for LCSWs, LMFTs, and LPCCs will be in effect on January 1, 2016. Applicants are required to take a Law and Ethics

Examination and a Clinical Examination. Board staff developed various instructional video tutorials and other materials to help registrants navigate the changes. You are strongly encouraged to visit the Board's website for details.

Another notable change in 2016 is the streamlining of the supervised work experience requirements for LMFT and LPCC applicants. This change allows applicants to gain hours in two categories instead of several categories. Additionally, LCSW applicants will also be allowed to count some direct supervisor contact hours. The Board believes this change will improve the application process for both applicants and Board staff.

The Board will continue to focus on its outreach efforts in 2016. BBS is now on Twitter (@CalifBBS), and we also have an official Facebook page. Please "follow" or "like" us to receive the latest news updates.

My sincere hope is that we will continue our collaborative work with our stakeholders to ensure Californians receive the highest quality of mental health. Together, we will create a world with peace.

Christina Wong, LCSW Member
Chair

ONLINE SERVICES

NEW SERVICES NOW AVAILABLE

Licensees and registrants are now able to change their address of record and request a duplicate or replacement certificate through BreEZe. You must be registered on BreEZe to use these new services. If you have not registered on BreEZe, select the BreEZe icon on the Board's website and follow the steps for a new registration. Candidates experiencing difficulty registering should contact the Board for assistance.

ONLINE RENEWAL

Since November 2014, 13 percent of licensees and registrants have renewed online. There are several benefits to online renewal.

- Your license or registration is immediately updated with a new expiration date.
- Incomplete renewal applications are avoided. Online renewals will not process unless the renewal application is complete.
- Lost mail and postal delivery delays are avoided.

If you are unable to register on BreEZe, it's likely due to some missing information. Please contact BBS to determine the best method to provide the missing information to register your BreEZe account.

NEW LAWS EFFECTIVE

JANUARY 1, 2016

The following bills were signed by the Governor and are effective January 1, 2016. Take a moment to familiarize yourself with these new changes.

1. **SB 531: Board of Behavioral Sciences (Enforcement Bill)**

Code Sections Added: Business and Professions Code (BPC) §§4990.31 and 4990.33

This bill makes two separate amendments to the law governing the enforcement process:

- a. It modifies the Board's requirements for an individual to petition for a termination of probation or modification of penalty. Under the proposal, the Board may deny a petition without hearing if the petitioner is not in compliance with the terms of his or her probation.
- b. It clarifies that the Board has jurisdiction to investigate and take disciplinary action even if the status of a license or registration changes, or if the license or registration expires.

2. **SB 620: Board of Behavioral Sciences: Licensure Requirements**

Code Sections Amended: BPC §§4980.03, 4980.42, 4980.43, 4980.44, 4996.23, and 4999.46

This bill streamlines the experience requirements for LMFT and LPCC applicants. It eliminates the complex assortment of minimum and maximum hours of differing types of experience required for licensure (also known as the "buckets" of experience) and instead requires 1,750 hours of the experience to be direct clinical counseling hours. The remaining required 1,250 hours may be nonclinical experience.

This bill also makes amendments to LCSW law to allow LCSW applicants to count some direct supervisor contact hours, as well as some hours spent attending workshops, trainings, conferences, and seminars, toward their required experience.

3. **AB 250: Telehealth: Marriage and Family Therapist Interns and Trainees**

Code Sections Affected: BPC §§2290.5, 4980.43

This bill clarifies that MFT interns and trainees may practice via telehealth.

4. **AB 1140: Crime Victims (Violence Peer Counselors)** **Code Section Affected: Government Code (GC) §13957.9**

This bill contains language that clarifies that a violence peer counselor may not perform services that fall under the scope of practice of any of the professions which the Board regulates, unless those services take place in an exempt setting.

5. **SB 560: Licensing Boards**

Code Section Affected: BPC §30

This bill does two things:

1. Prohibits a licensing board from processing an application for an initial license if the applicant does not provide a Social Security number, a federal employer identification number, or an individual taxpayer identification number on the application.
2. Requires licensing boards to share identification and license information of licensees with the Employment Development Department upon request.

6. **AB 2213: LMFT and LPCC Out-of-State Applicant Requirements (Chaptered in 2014, effective 1/1/16)**

Code Sections Affected: BPC § 4980.72, 4980.78, 4980.80, 4980.90, 4999.57, 4999.58, 4999.59, 4999.60, and 4999.62, and Code Sections Added: BPC § 4980.79, 4980.81, and 4999.63

This bill makes several significant changes to the out-of-state licensing requirements for LMFT and LPCC applicants:

- Varies the number of units the degree must contain, based on when the degree was begun.
- Allows remediation or waiving of practicum depending on certain circumstances.
- Allows certain coursework to be remediated while a registrant.
- Allows certain coursework to be remediated using continuing education courses.

BBS CELEBRATES 70TH ANNIVERSARY

During the August Board meeting, Board members reflected on the 70-year history of the BBS. The history of the Board's work is very similar to the work of the Board today: ensuring consumers safely receive mental health services from qualified practitioners. Some interesting facts about the Board's history are noted below.

- On December 13, 1945, Anita Bullis took the Oath of Office and served as the first Executive Secretary for the Board of Social Work Examiners.
- The first Board members included Gardner Bullis, Mrs. Benjamin F. Warmer, Reverend Monsignor Raymond J. O'Flaherty, Miss Zdenka Buben, Mrs. M.D. Boucher, Miss Maurine McKeany, and Hyman Kaplan.
- Initially, the Board office was on Polk Street in San Francisco and was staffed with one Intermediate Stenographer clerk and the Executive Secretary. Temporary help was utilized to assist with the examination.
- Examination dates and registration dates were published in the newspaper.

- Registration as a Social Worker in California included a "Grandparent Clause." Qualified individuals could register using this method through January 1, 1947.
- The registration fee was \$7 and renewals were \$5 annually.
- The first registrations were revoked in 1953.

The Board acknowledges its early beginnings and looks forward many more years of consumer protection.

REGISTRANTS AND SUPERVISION NEWS

NEW OPTIONS TO GAIN SUPERVISED WORK EXPERIENCE

Effective January 1, 2016, obtaining and tracking supervised work experience hours will become less complicated. Senate Bill 620, Chapter 262, Statutes of 2015 provides individuals a streamlined option to gain supervised work experience hours. After January 1, 2016, individuals may gain hours in two categories—clinical and nonclinical experience (Option 1).

The existing option of multiple categories (Option 2) will remain available, but individuals are required to submit an Application for Licensure and Examination postmarked no later than December 31, 2020. Otherwise, the individual must qualify under Option 1.

After January 1, 2016, hours gained after January 1, 2010, can now qualify under either Option 1 (new streamlined categories) or Option 2 (pre-existing multiple categories) as described below. Applicants must fully qualify under Option 1 OR Option 2. There is no “mixing and matching” between the two categories.

Additionally, LCSW applicants may now count some direct supervisor contact hours, as well as some hours spent attending workshops, trainings, conferences, and seminars towards their required experience. The details, by license type, are noted below.

LMFT OPTION 1 (new streamlined categories) NEED 3,000 HOURS

Under the new option, the supervised work experience categories break down into just two overall types:

- **Direct counseling experience (minimum 1,750 hours)**—A minimum of 500 of these hours must be gained diagnosing and treating couples, families and children.

- **Nonclinical experience (maximum 1,250 hours)**—May consist of direct supervisor contact, administering and evaluating psychological tests, writing clinical reports, writing progress or process notes, client-centered advocacy, and workshops, seminars, training sessions, or conferences.

LMFT OPTION 2 (pre-existing multiple categories) NEED 3,000 HOURS

- Individual Psychotherapy (no minimum or maximum hours required)
- Couples, Families, and Children (minimum 500 hours—to 150 hours may be double-counted)
- Group Therapy or Counseling (maximum 500 hours)
- Telehealth Counseling (maximum 375 hours)
- Workshops, seminars, training sessions, or conferences directly related to marriage, family, and child counseling (maximum 250 hours)
- Personal Psychotherapy Received (maximum 100 hours, triple counted)

	2010 & 2011	2012 & Later

b. Client-centered advocacy	Combined max 1,250 hours	
c. Direct supervisor contact	Combined max 1,250 hours	Combined max 1,000 hours

LPCC OPTION 1 (new streamlined categories) NEED 3,000 HOURS
