11

12 **V. Discussion and Recommendations for Possible Action Regarding Out-of-State**
13 **Education**

14 Business and Professions Code (BPC) state that in regards to LMFT and LPCC
15 applicants, the Board shall accept education gained while residing outside of California if
16 it is substantially equivalent to the Board's in-state education requirements for licensure.
17 The law also defines what coursework makes the education substantially equivalent, and
18 whether post-degree remediation is acceptable. Therefore, education requirements are
19 triggered based on the residence of the applicant while obtaining his or her degree.

20

21 Problem: In-State Applicants Cannot Remediate Coursework

22 The Board screens all in-state schools to ensure that they meet education requirements
23 because remediation outside the degree program is not permitted for in-state applicants.
24 However, if an applicant who resides in California attends an out-of-state school that has
25 not designed its program to lead to California licensure, he or she is treated as an in-state
26 applicant (and thus is not allowed to remediate missing coursework), because the
27 education was gained while residing in California.

28

29 This distinction can be confusing to applicants, who may not be aware that a degree
30 program taken from an online school while they reside in California can make them
31 ineligible for licensure because they are a California resident. The Board has placed a
32 statement on its website to increase awareness of this issue.

33

34 Problem: It can be Difficult to Determine Where a Student Resided While Obtaining a
35 Degree

36 It can be difficult for the Board to obtain proof of where an applicant resided while he or
37 she completed his or her degree program, especially if the degree program was
38 completed several years prior. The fact that residing in California while completing an
39 out-of-state degree program prohibits remediation of any deficiencies may provide an
40 incentive for the applicant to list an out-of-state address. Further complicating matters,
41 sometimes students move from one state (and school) to another while completing a
42 degree program.

43

44 This issue affects the LMFT and LPCC license types because of the large quantity of
45 California-specific coursework that is required for those license types. There are no
46 California-specific coursework requirements other than California law and ethics, which
47 may be remediated.

1 Dianne Dobbs stated that the current language of the statute, “education gained while
2 residing outside of California”, would have to be changed.

3
4 Rosanne Helms suggested changing the language to require the physical address of the
5 school.

6
7 Kim Higginbotham replied that Ms. Helm’s suggestion would not address the issue. For
8 example, the University of Phoenix is based out-of-state, but it has a California-approved
9 program. She suggested obtaining a program certification from each school to determine
10 that the school is an in-state program.

11
12 The school must complete the program certification form to confirm the applicant’s
13 coursework. Christy Berger suggested adding a question on the form: Which campus
14 was this person’s degree based?

15
16 Ms. Dobbs suggested changing the language to “education gained from an out-of-state-
17 school.”

18
19 Steve Tierney pointed out that Ms. Dobbs suggested language would allow a California
20 resident who took an out-of-state program to remediate, but would not allow a California
21 resident who took an in-state program to remediate. He opined that it would be fair to
22 consider why the Board would allow those who gained out-of-state education to
23 remediate when the Board would not allow those who gained in-state education to
24 remediate.

25
26 Ms. Helms responded that per SB 33, the LPCC degree program was to be integrated
27 and there would not be a need for remediation. Ms. Higginbotham added that the new
28 programs do not need to be remediated.

29
30 Ms. Helms will write a draft and present the draft language in October.

31
32 No action was taken.
33
34

35 **VI. Discussion and Recommendations for Possible Action Regarding Licensed**
36 **Professional Clinical Counselor Degree Content**

37 In order to qualify for an LPCC license, the law requires that the applicant possess a
38 master’s degree or doctoral degree that is counseling or psychotherapy in content and
39 contains the supervised practicum and core content areas required by law.
40

41 Problem: The Board is receiving LPCC applications from applicants who have degrees
42 that may not be intended to lead to licensure as a clinical counselor. Typically, these
43 degrees are from out-of-state. Examples of these degrees are as follows:

- 44 • Behavior Analysis;
- 45 • Art Therapy;
- 46 • Dance Therapy;
- 47 • Human Relations
- 48 • Human Services;
- 49 • Rehabilitation Counseling; and

- Substance Use and Addictions.

The law only requires the degree to be counseling or psychotherapy in content. However, it is possible for a degree to have some counseling or psychotherapy content but not be intended to prepare the student for licensure.

The law does require the degree to contain practicum and certain specified core content areas. Effective January 1, 2016, out-of-state applicants can remediate most degree requirements, including up to 6 out of the 13 core content areas. Practicum may also be remediated if licensed out-of-state, and the practicum requirement is waived if the applicant has been licensed in another state for two or more years.

LPCC Scope of Practice: Although LPCC licensing law does not provide a clear picture of the content of the degree, it does provide a clearly defined scope of practice.

LMFT Licensing Law: LMFT licensing law is more specific about the degree titles required for licensure. It lists specified Master's or Doctoral degrees as acceptable. The law gives the Board authority to make the final decision about whether or not a degree is acceptable. In addition, out-of-state degrees are not required to have one of the specified titles.

Counselor Licensure in Other States: Many other states also contain vague language in their licensing law about the degree title, typically requiring the degree to be in mental health counseling or a related field. However, in some states, the statutes or regulations are more specific about the type of degree allowed.

The Texas Administrative Code requires a Master's or Doctoral degree in counseling or a counseling-related field from an accredited school. The code then specifically defines a "counseling-related field."

CACREP Accreditation: The Council for Accreditation of Counseling & Related Educational Programs (CACREP) accredits counseling programs covering specified topic areas.

Ms. Lonner expressed that she prefers the language provided by Texas.

Dean Porter, California Association for Licensed Professional Clinical Counselors (CALPCC), stated that the intent was to use the content of the degree, not the title of the degree, which would determine a qualifying degree for LPCC licensure.

Ms. Madsen explained that these students obtaining degrees do not have the core curriculum in place, including clinical practicum. However, the law allows them to remediate. This is why staff likes the Texas definition - because it defines the clinical component. Ms. Madsen stated that language needs to be developed to clarify that the practicum must be clinical.

Ms. Madsen offered to direct staff to develop language and bring it back to the Committee in October.

No action taken.

1 **VII. Discussion and Recommendations for Possible Action Regarding Board Policies**

2 **a. Record Retention Schedule for Enforcement Related Files**

3
4 The State Records Management Act, Government Code Sections 14740-14774,
5 requires the Department of General Services (DGS) to establish and administer a
6 record retention program. DGS assigned this task to the DGS Procurement Division's
7 California Records and Information Management (CalRIM) Program.

8
9 CalRIM established the overall record management policy and published a handbook
10 to provide guidance to state agencies in establishing their record retention program.
11 Each agency must manage its own records program and is required to review its
12 retention schedule every five years.

13
14 A review of the May 2000 Consumer Committee meeting minutes revealed that the
15 Board had an existing retention schedule; however, the schedule did not include a
16 retention period for citation and fines. This committee determined that citation and
17 fines would be kept for a period of one year in the office and ten years at the State
18 Records Center (SRC).

19
20 In January 2001, Board Policy #E-00-1 Record Retention Schedule for Enforcement
21 Related Files was adopted. This policy specifies the number of years the Board will
22 retain enforcement-related material in the Board office, at SRC, and provides for
23 confidential destruction of these materials following the retention period. The retention
24 period for citation and fines is a total of 5 years and not the 11 years agreed to by the
25 Committee members.

26
27 However, in January 2007, B&P Section 4990.9 was revised to state in part that the
28 Board may publish on the Internet the final determination of a citation and fine of
29 \$1,500 dollars or less for a period of time in excess of 5 years from the date of the
30 citation.

31
32 Board staff recommended that the Committee members review the current retention
33 period (1.5 years) for complaints and investigations that are closed without merit.
34 Considering the type of cases closed without merit, retaining the information for 6
35 months in the Board office and then destroying the case confidentially may be more
36 appropriate.

37
38 Staff also recommended updating the policy language to update the reference to
39 Government Code Section 14750, which is incorrect.

48
49 **b. Complaint Disclosure Policy**

1 During the May 2006 Board meeting, Board Members were informed that Executive
2 Order #S-03-06 required all state agencies to take a number of actions related to
3 agency compliance with the California Public Records Act (PRA). The action required
4 of each agency was to review and revise as necessary, written guidelines for
5 accessibility of public records. A review of the Board policies noted that Policy #E-06-
6 01 and #E-06-02 required revisions.

7
8 The Board Members voted to amend Policy #E-06-01 and Policy #E-06-02 to disclose
9 settlements and arbitrations upon request and to include revisions to the language for
10 clarity.

11
12 The PRA requires public records be available upon request and provides for specific
13 timelines and general process to respond to a request. Government Code Section
14 6254 specifies which records are not subject to public disclosure. In accordance to
15 Government Code Section 6250, DCA developed guidelines follow upon receipt of a
16 public record request. B&P Code Section 27 specifies what information must be
17 available through the Internet.

18
19 Since 2006, revisions to both of these code sections have been enacted, with the last
20 revisions occurring in 2014. These revisions include the contents of Policy # E-06-01
21 and #E-06-02.

22
23 B&P Code Section 4990.09 specifies how long a citation and fine issued for \$1,500 or
24 more shall be published on the Internet. A citation and fine of less than \$1,500 may
25 not be published on the Internet.

26
27 At the time these policies were adopted, some of the code sections related to PRAs
28 and license disclosure were not specific. So it was prudent for Boards and Bureaus to
29 adopt policy guidelines as to what specific information would be available to the public.
30 Now, the Board's policies for complaint disclosure and public disclosure of license
31 verification are now incorporated into the B&P Code and the Government Code.

32
33 Staff recommended rescinding Policy #E-06-01 and #E-06-02 since both policies are
34 redundant.

35
36 ***Christina Wong moved to recommend that the Board rescind Policy #E-06-01***

42 *Deborah Brown: Yay*

43
44 The Committee took a break at 10:27 a.m. and reconvened at 10:40 a.m.

45
46 **c. Mail Ballots and Confidentiality of Executive Session**

47
48 During the November 2002 Board meeting, Board Members discussed the adoption of
49 the Mail Ballots and Confidentiality of Executive Session Policy #B-02-1. The
50 discussion focused on whether or not it was necessary to have this policy when there

1 are several statutes and regulations that addresses mail ballots and confidentiality.
2 Further, the members added that this issue could be addressed during Board Member
3 training.

4
5 DCA Legal Counsel stated that although DCA provided new board member
6 orientation, new members may not be aware of all the confidentiality issues before
7 they become a functioning board member. At the end of the discussion, the Board
8 decided not to adopt this policy.

9
10 Upon research, Board staff recently discovered that Policy #B-02-1 was not adopted.
11 The policy reflected an adoption date and therefore, it was assumed the policy was
12 adopted. The ability to determine a decision by mail ballot is addressed in
13 Government Code Section 11526. This code does not specify the number of votes
14 needed to hold a case for discussion; nor, do Board records reflect how the current
15 number of “two” was determined.

16
17 The Bagley-Keene Open Meeting Act addresses the confidentiality of a closed session
18 meeting. The mail ballot process is included in the Board Member Procedure Manual.

19
20 Board staff recommended removing the document from the list of Board policies, since
21 it was never adopted by the Board.

22
23 ***Deborah Brown moved to recommend that the Board removed Policy #B-02-1***
24 ***from the Board policies. Christina Wong seconded. The Committee voted***

30
31 **d. Advertising Psychotherapy/Psychotherapist**

32
33 In November 1995, the Board adopted Policy #E-95-2, Advertising
34 Psychotherapy/Psychotherapist. It appears that this policy was adopted because of a
35 concern regarding the use of the words “psychotherapy” and “psychotherapist” by
36 Board licensees in advertisements.

37
38 On August 14, 2012, the Board gave notice of proposed changes to CCR Section
39 1811. This regulation package proposed changes to clarify which abbreviations may
40 be used in an advertisement and whether or not a licensee can use the term
41 “psychotherapy” and “psychotherapist” when advertising. The proposal added a
42 subsection “c” to CCR 1811 regarding the use of “psychotherapy” and
43 “psychotherapist.”

44
45 CCR 1811 (a) specifies the type of abbreviations a licensee or registrant may use in
46 advertisements.

47
48 On January 9, 2013, the Office of Administrative Law (OAL) approved the proposed
49 changes to CCR 1811. This regulation changed went into effect on April 1, 2013.

1 The current language of CCR 1811 appears to incorporate the intent of Board Policy
2 #E-95-02. Therefore, this policy is no longer relevant. Staff recommends that the
3 Committee consider rescinding this policy.

13 **e. Correspondence Degree Programs**

14
15 A review of the May 7, 1998 Licensing Committee meeting minutes reveal that the
16 Licensing Committee discussed the issue of accepting correspondence degree
17 program. Staff contacted other states to determine any other state accepted
18 correspondence degree programs. The results from this survey revealed that most
19 states do not accept this type of degree program. A clear policy decision had never
20 been in place, and staff requested direction on this issue.
21

22 The Licensing Committee subsequently voted to not accept correspondence degrees.
23 This action resulted in Board Policy #L-98-02.
24

25 Various sections of the B&P Code specify the educational qualifications for licensure.
26 Pursuant to these sections, applicants must possess a qualifying degree from an
27 educational institution that is accredited by a specific accrediting agency.
28

29 A correspondence degree program was likely a precursor to the online degree
30 programs that are in place today. Currently, the law specifies the type of degree
31 programs that the Board may accept to satisfy the requirements for licensure.
32 Therefore, Policy #L-98-02 is no longer relevant. Staff recommended that the
33 Committee consider rescinding this policy.

43 **f. License Surrenders**

44
45 During the February 1998 Enforcement Committee meeting, the Board's License
46 Surrender Policy #E-96-1 was discussed. The members noted this policy and the
47 recommended language in the Board's Disciplinary Guidelines for voluntary surrender.
48 Although no changes to the policy were proposed, Richard Leslie, Legal Counsel for
49 CAMFT, stated that in the voluntary surrender decisions, there is mention of the ability
50 for licensees to petition for reinstatement. Mr. Leslie believed that petitioning for

1 reinstatement should not be an option. The current Executive Officer and DCA Legal
2 Counsel agreed to look into this matter.

3
4 Since 1996, the Board's Disciplinary Guidelines have been revised several times,
5 which are incorporated by reference in CCR Section 1888. Accordingly, in order to
6 propose any revision to these guidelines, the Board must initiate a rulemaking
7 package.

8
9 A review of the Board's current Disciplinary Guidelines reveals that nearly all of the
10 language in Policy #E-96-1 is reflected in the Disciplinary Guidelines.

19
20 **g. Third Party Complaints**

21
22 During the February 1998 Enforcement Committee meeting, the Executive Officer and
23 the Enforcement Committee discussed whether or not to adopt a policy regarding third
24 party complaints. At that time, these types of complaints were received regarding
25 child custody cases. For various reasons, investigation of these complaints could not
26 move forward. Following this discussion, the Enforcement Committee agreed to
27 recommend adoption of the proposed policy.

28
29 Board enforcement staff currently follows Policy #E-98-01. In general, third party
30 complaints are challenging to investigate. Frequently, the allegations are such that a
31 release of information is required from the patient in addition to first hand testimony.
32 Board staff may or may not be successful in obtaining this release. Further, the
33 patient may be reluctant to participate in the investigation and/or subsequent
34 prosecution. In these situations where a release of information could not be obtained
35 and/or the patient is not willing to participate, the case is closed.

36
37 There are cases in which the Board is able to investigate a third party complaint. In
38 these cases, frequently the evidence to determine whether or not a violation occurred
39 is available without involving the patient. In these cases, the Board proceeds with the
40 investigation.

41
42 With respect to the concerns expressed in 1998 about child custody cases, through a
43 legislative change, the Board now has access to child custody evaluation reports for
44 investigative purposes.

6 Agenda item VII h regarding Public Disclosure of License Verification was merged with
7 item VII b Complaint Disclosure Policy, and was discussed as item VII b.

8
9 **i. Succession of Officers**

10
11 During the November 2004 Board Meeting, the Board Members requested that a
12 policy be drafted to address situations when the Board Chair is unable to serve for
13 reasons including term expiration and absences. A review of Board Minutes during
14 that time period indicates that the Board experienced delays in Board Member
15 appointments. The current Board Chair was in the final months of service to the
16 Board and was not reappointed. As a result, the Board was left without a Board Chair
17 in the summer of 2004 and did not have a process or policy to address this situation.

18
19 In February 2005, the Board adopted the Succession of Officers Policy #B-05-01.

20
21 In recent years, Board staff has actively contacted the Governor's Appointment Office
22 and DCA to inform them of any upcoming Board Member vacancies. Through these
23 efforts, the Board has not experienced any situation that led to current policy.
24 Additionally, at every May Board Meeting, prior to the election of officers, Board
25 Members are provided with each member's expiration date of his/her term. Board
26 Members are cautioned about potential consequences of electing a member whose
27 term is nearly complete and has not been reappointed to the Board.

28
29 While the Board has not invoked the use of this policy in recent years, it seems
30 reasonable to have a policy addressing the absence of the Board Chair. However, the
31 policy should be updated to reflect minor changes since 2005.

41 **j. Board Member Attendance and Reimbursement Policy**

42
43 During the 1997-1998 Sunset Review, Boards were asked about their Board Member
44 attendance policies. At its January 1998 meeting, the Board was informed of this
45 inquiry and was provided information regarding other boards' attendance policies to
46 review. Following the review of other Board policies, Policy #B-98-1 was drafted and
47 adopted in May 1998.

48
49 This policy addresses the following topics.

- 1 • Expectation that all Board Members should attend all Board and Committee
- 2 meetings;
- 3 • Defines the term “meeting”;
- 4 • Procedure to follow if a Board Member will be absent from a Board Meeting or
- 5 Committee Meeting;
- 6 • Per Diem reimbursement;
- 7 • Expenses related to Board and Committee meetings and other approved Board
- 8 functions;
- 9 • Business expenses such as meals, costs of hotels, rental cars, official telephone
- 10 calls, facsimiles, postage, emergency purchases, transportation;
- 11 • In-state reimbursement rates for mileage, meals, lodging, taxi service, rental cars;
- 12 • Reimbursement requests;
- 13 • Out-of-state travel; and
- 14 • Conference fees

15
16 Many of the topics in Policy #B-98-1 are specified under current law. B&P Code
17 Section 103 sets forth the compensation (per diem) for Board Members. However,
18 this code section does not specify the types of activities that are considered “official
19 duties”. The State Administrative Manual (SAM) specifies travel reimbursement rates
20 that are incorporated into the DCA Travel Guide.

21
22 The topics related to attendance are relevant. Although the expectation is that the
23 Board Member will attend all Board and Committee meetings, Board Member
24 attendance is not specified in law. Further, a summary of Board Member attendance
25 is provided in the each Sunset Review Report.

26
27 Since many of the topics related to travel are already addressed in the SAM and
28 incorporated in the DCA Travel Guide it seems redundant to have a Board policy
29 addressing these topics. The DCA Travel Guide is provided to all Board Members
30 soon after their appointment to the Board. All revisions to travel, such as mileage
31 reimbursement, are provided as the revisions occur.

32
33 Therefore, the Committee may wish to consider revising Policy #B-98-1 to set forth a
34 policy related only to Board Member attendance. Additionally, the committee may
35 wish to consider adopting a new policy clarifying the “official duties” for which per diem
36 may be claimed.

Subject: Discussion of Definition of Out-of-State Education

Background

Current statute permits the Board to accept education gained outside of California toward licensure if it is substantially equivalent to the Board's in-state education requirements for licensure.

For LMFT and LPCC applicants, Business and Professions Code (BPC) Sections 4980.74 and 4999.61, respectively state that the Board shall accept education gained while residing outside of California if it is substantially equivalent. Subsequent sections of the law then define what coursework makes the education substantially equivalent, and whether or not post-degree remediation is acceptable.

This means that out-of-state education requirements are triggered based on the residence of the applicant while obtaining his or her degree.

Summary of the Problem

1. In-State Applicants Cannot Remediate Coursework:

An increasing number of applicants who reside in California are completing online degree programs from schools that are not based in California.

The Board screens all in-state schools to ensure that they meet education requirements, and remediation outside the degree program is not permitted for in-state applicants. However, if an applicant who resides in California attends an out-of-state school which has not designed its program to lead to California licensure, he or she is treated as an in-state applicant (and thus is not allowed to remediate missing coursework), because the education was gained while residing in California.

This distinction can be confusing to applicants, who may not be aware that a degree program taken from an online school while they reside in California can make them ineligible for licensure because they are considered an in-state applicant and can't remediate. To increase awareness of this issue, the Board has placed the following statement on its website:

*If you are enrolled in or considering an online degree program that is based in another state, please be aware that your degree will be evaluated in accordance with California in-state degree requirements. Please contact your school to ensure that the program integrates the California-specific content required of California residents. **This coursework must be integrated into the program and cannot be remediated post-degree.** Therefore, it is imperative that the California-specific requirements are included in the degree program.*

2. It can be Difficult to Determine Where a Student Resided While Obtaining a Degree:

It can be difficult for the Board to obtain proof of where an applicant resided while he or she completed his or her degree program, especially if the degree program was completed several years prior. The fact that residing in California while completing an out-of-state degree program prohibits remediation of any deficiencies may provide an incentive for the applicant to list an out-of-state address.

Further complicating matters, sometimes students move from one state (and school) to another while completing a degree program.

Affected License Types

This issue affects the LMFT and LPCC license types because of the large quantity of California-specific coursework that is required for those license types. It does not affect LCSW applicants because their degree must be accredited by the Commission on Accreditation of the Council on Social Work Education. There are no California-specific coursework requirements other than California law and ethics, which may be remediated.

Previous Committee Discussion

The Committee discussed this issue at its August 7, 2015 meeting. Staff was asked to do the following:

- Amend language in BPC Sections 4980.74 (for LMFT applicants) and 4999.61 (for LPCC applicants) as follows: "*The board shall accept education gained ~~while residing outside of California~~ from an out-of-state school for purposes of satisfying licensure or registration requirements if the education is substantially equivalent...*"

This amendment triggers out-of-state education requirements based on the location of the school, rather than the location of the student while he or she gained the education. It will allow applicants who live in California, but who obtained an online degree from a school located outside of California, to remediate California-specific course content that may have not been in the degree program.

In-State versus Out-of-State Remediation

The Committee also asked staff to provide examples of coursework that may be remediated by an out-of-state student, but not an in-state student.

The Board addressed a similar issue a couple of years ago when it sponsored AB 428 (Chapter 376, Statutes of 2013). At that time, there was a problem with in-state LMFT applicants who began their degree prior to August 1, 2012, being unable to remediate spousal and partner abuse coursework and alcoholism and other chemical substance dependency if it was not contained in their degree program. This led to approximately 10 applicants per year being denied licensure because they could not legally remediate the coursework. AB 428 amended the law to allow this coursework to be remediated.

LMFT and LPCC education requirements have changed for California-based degree programs begun after August 1, 2012. Instead of requiring specific classes, the law now requires specified topic areas to be woven throughout the degree, in what is called an “integrated degree program.”

Under this system, the Board works with each California-based school ahead of time to ensure the degree includes the appropriate content. The school submits a program certification to verify the content. Using this method, the Board knows each graduate from that program meets the education requirements.

Students from degrees begun after August 1, 2012 are just beginning to submit applications for registration. At this time, the Board has not seen any coursework deficiencies from these applicants. Therefore, having the Board work with California schools ahead-of-time appears to be effective. Staff recommends monitoring this system on an ongoing basis, and pursuing a law change in the future if necessary.

Recommendation

Conduct an open discussion about the proposed amendments. Direct staff to make any discussed changes, and any non-substantive changes, and bring to the Board for consideration as a legislative proposal.

The law only requires the degree to be “counseling or psychotherapy in content.” However, it is possible for a degree to have some counseling or psychotherapy content but not be intended to prepare the student for licensure as a professional clinical counselor.

Although the law does require the degree to contain practicum and certain specified core content areas, the new out-of-state licensure requirements, which become effective January 1, 2016, allow remediation of most degree requirements, including up to 6 out of the 13 core content areas. Practicum may also be remediated if licensed out-of-state, and the practicum requirement is waived if the applicant has been licensed in another state for two or more years.

Previous Committee Discussion and Direction

At its August 7, 2015 meeting, Committee discussed the possibility of clarifying which degrees are accepted to practice professional clinical counseling. Requirements from other states were considered (**Attachment C**), and CACREP accreditation categories were discussed (**Attachment D**). The Board directed staff to draft language defining acceptable degrees, using the Texas Administrative Code section as a model. It also directed staff to look into tightening the practicum requirement to ensure it requires clinical experience.

Based on the Committee’s recommendation, this proposal makes the following amendments:

- 1. Specify Acceptable Degrees:** Staff drafted language specifying which degrees are or are not acceptable, for both in-state and out-of-state degrees. The language is modeled after Texas’, but some degree titles were modified based on what the Board’s evaluators commonly see.
- 2. Tighten In-State Practicum Requirements to Ensure Clinical Experience:** The in-state practicum requirement has been amended to specify that direct client contact is required (this is specified in the LMFT practicum requirement). The language has also been amended to no longer allow any equivalencies to in-state supervised practicum/field study experience.
- 3. Amend Practicum Requirements for Out-of-State Applicants:** The out-of-state practicum requirement has been amended to specify that the 280 hours of face-to-face experience must now be “supervised clinical experience counseling individuals, families, or groups” instead of just experience doing “face-to-face counseling”. The amendment mirrors what is already required of in-state applicants.

Recommendation

Conduct an open discussion about the proposed language shown in **Attachment A**. Direct staff to make any discussed changes, as well as any non-substantive changes to the proposed language, and submit to the Board for consideration as a legislative proposal.

Choosing a Graduate Program

There are many factors to consider when choosing a masters-level counseling program to attend. Attending a CACREP accredited program makes your choice a little easier because you can be assured that the program has met the standards of quality established by the profession.

CACREP accredits masters-degree programs in the following areas:

Addiction Counseling – Addiction Counseling programs prepare graduates to work with persons and families affected by alcohol, drugs, gambling, sexual and other addictive disorders (e.g., food-related). These 60-semester hour programs focus on models of treatment, prevention, recovery, and relapse prevention of addiction, along with the appropriate application of appropriate interventions. Graduates of Addiction Counseling programs may choose to work in private practice or may work in a variety of community agencies offering counseling services for substance abuse.

Career Counseling – Career Counseling programs prepare graduates to help persons wanting to make career decisions. Sometimes known as vocational counselors, career counselors help clients explore the intersection of their education, skills, interests, and personality to determine and plan for possible career paths. Career counselors often make use of inventories and other assessment tools to assist persons in making decisions. In addition, career counselors understand and maintain resource information on employment and labor market trends. Career counselors may work in a variety of settings from private practice, to career resource centers or employee assistance programs associated with specific industries or organizations.

Clinical Mental Health Counseling – Clinical Mental Health Counseling programs prepare graduates to work with clients across a spectrum of mental and emotional disorders, as well as to promote mental health and wellness. Clients may be seen individually, in couples, families, or group settings. Clinical Mental Health Counselors are knowledgeable in the principles and practices of diagnosis, treatment, referral and prevention and often work in interdisciplinary teams with other health professionals (e.g., psychiatrists, social workers, MDs). Employment opportunities may include private practice, community-based mental health centers, hospitals and other treatment centers.

(Please note that over the years, the titles used for this program area have been revised and regrouped. Therefore, the CACREP Directory of Accredited Programs may show programs with designations such as Community Counseling (CC) or Mental Health Counseling (MHC) only. These designations indicate that the accredited program was reviewed prior to the implementation of the 2009 CACREP Standards when the CC program standards and the MHC program standards were combined. Programs that have either the CC or MHC designation will be changed upon their next full accreditation review.)

Marriage, Couple and Family Counseling – Graduates of Marriage, Couple and Family Counseling programs have been prepared to work with individuals, couples and families from a family systems perspective. From this perspective, Marriage, Couple and Family Counselors work with clients across of variety of mental and emotional disorders, relationship issues, or communication issues and in a variety of work settings including

inpatient facilities, community mental health centers, private practice offices, and social service agencies.

School Counseling – School Counseling programs prepare graduates to work with students ranging from kindergarten through high school. School counselors are prepared to promote the academic, career, and personal/social development of all K-12 students through understanding how to design and implement comprehensive school guidance and counseling programs that include time for individual counseling, group counseling, classroom guidance, family and teacher consultations within the school setting. School counselors work with in both private and public school systems at the elementary, middle, and high school levels.

Student Affairs and College Counseling – these programs prepare students to assume a variety of positions in higher education and student affairs offices after graduation. Such positions might include working at a college's or university's housing and residential life office, assisting with management activities at a student union, offering student leadership activities and orientation sessions, or providing counseling, career services, and multicultural support services. Students opting to specialize in student affairs and college counseling programs acquire a strong professional counseling knowledge base including: history of the profession, philosophy, ethics, theory and assessment, while simultaneously learning about the culture of higher education, its organizational dynamics, and administrative structure to enable them to provide leadership in student development issues and policy-making in student affairs.

(Please note that over the years, the titles used for this program area have been revised and regrouped. These designations indicate that the accredited program was reviewed under a previous set of CACREP Standards and the program designation will be changed upon its next full accreditation review.

Although with the implementation of the 2009 CACREP Standards, institutions no longer have the option to seek accreditation under the following program areas titles, the CACREP Directory of Accredited Programs still reflects those institutions that have attained accreditation for these programs through the end of their current accreditation cycle. When these programs apply for their next full accreditation review, these programs will be dropped from the CACREP list.

Subject: Possession of a Controlled Substance as a Basis for Discipline

Summary

This bill proposal would make it unprofessional conduct for a Board licensee or registrant to possess an unprescribed controlled substance.

Background

The Board has no statute or regulation stating that it is unprofessional conduct to unlawfully possess a controlled substance. Due to this, the Board's Enforcement Unit has difficulty pursuing disciplinary action when a licensee or registrant is arrested for possession of drugs and/or drug paraphernalia.

For example, the Board sometimes gets cases where a licensee is arrested for drug possession, however there is no conviction, and there is also no evidence that the licensee was actually taking the drugs. In such a case, in order to pursue disciplinary action, the Board would have to argue that the possession is general unprofessional conduct. To do this, a subject matter expert needs to review police reports and sign a declaration stating that, in their expert opinion, unprofessional conduct occurred.

Staff at the Attorney General's Office notes that many healing arts boards have a provision in law that include possession of a controlled substance as a basis for disciplinary action, and suggests the Board consider similar language.

Examples of boards under DCA with language in statute making possession a specific basis for discipline include the Board of Registered Nursing (Business and Professions Code (BPC) §2762), the Board of Occupational Therapy (BPC §2570.29), and the Dental Hygiene Committee (BPC §1952). These statutes are provided in **Attachment C**.

Proposed Language

Staff recommends placing the following language in the unprofessional conduct statute for each license type (**Attachment A**):

Unprofessional conduct includes, but is not limited to...

(xx) Obtaining or possessing in violation of law, or except as directed by a licensed physician and surgeon, dentist, optometrist, or podiatrist, any controlled substance, as defined in Division 10 (commencing with Section 11000) of the Health and Safety Code, or any dangerous drug or dangerous device as defined in Section 4022.

Attachment B contains BPC §4022 and relevant sections of Health and Safety Code Division 10, which are referenced in the proposed language.

Recommendation

Conduct an open discussion about the proposed language. Direct staff to make any discussed changes and any non-substantive changes, and bring to the Board for consideration as Board-sponsored legislation.

(o) Paying, accepting, or soliciting any consideration, compensation, or remuneration, whether monetary or otherwise, for the referral of professional clients. All consideration, compensation, or remuneration shall be in relation to professional counseling services actually provided by the licensee. Nothing in this subdivision shall prevent collaboration among two or more licensees in a case or cases. An act described in this subdivision occurring prior to the effective date of this subdivision shall constitute unprofessional conduct and shall subject the licensee to refusal, suspension, or revocation of a license under this section.

(2) The Legislature hereby finds and declares that protection of the public, and in particular minors, from sexual misconduct by a licensee is a compelling governmental interest, and that the ability to suspend or revoke a license for sexual conduct with a minor occurring prior to the effective date of this section is equally important to protecting the public as is the ability to refuse a license for sexual conduct with a minor occurring prior to the effective date of this section.

The record of conviction shall be conclusive evidence only of the fact that the conviction occurred. The board may inquire into the circumstances surrounding the commission of the crime in order to fix the degree of discipline or to determine if the conviction is substantially related to the qualifications, functions, or duties of a licensee or registrant under this chapter. A plea or verdict of guilty or a conviction following a plea of nolo contendere made to a charge

The board shall deny an application for a registration or license or revoke the license or registration of any person who uses or offers to use drugs in the course of performing clinical social work. This provision does not apply to any person also licensed as a physician and surgeon under Chapter 5 (commencing with Section 2000) or the Osteopathic Act who lawfully prescribes drugs to a patient under his or her care.

This subdivision shall not be construed to expand the scope of the license authorized by this chapter.

(n) Failure to maintain confidentiality, except as otherwise required or permitted by law, of all information that has been received from a client in confidence during the course of treatment and all information about the client that is obtained from tests or other means.

Subject: MFT Registrants: Discussion of Use of the Title “Intern” versus “Associate”

Summary

This memo discusses whether MFT interns should be re-named associate MFTs.

Background

At the August 28, 2015 Board meeting, Dr. Ben Caldwell of the American Association for Marriage and Family Therapy – California Division (AAMFT-CA) presented a proposal to change the “Marriage and Family Therapist Intern” title to “Associate Marriage and Family Therapist.”

Dr. Caldwell presented the following arguments as reasons the title “associate” may be more appropriate than “intern” for registrants:

- The intern title is more socially understood as referring to someone who is still in school.
- Because of the socially accepted connotations, some employers are more likely to exploit MFT interns by offering them little or no pay for their work.
- Consumers often discount the credibility of MFT interns based on their title.
- Some other states and professions are moving away from the use of the intern title for post-graduates.

The Board directed staff to bring this issue to the Policy and Advocacy Committee for further discussion.

Definition

The Merriam-Webster Dictionary defines the word “associate” as follows:

Associate: 2. having a rank or position that is below the highest level in a group, organization, etc.

(Source: merriam-webster.com, Merriam-Webster, Incorporated, 2015)

Titles in Other States - LMFT Applicants

Attachment B contains a state licensure comparison chart compiled by the Association of Marital and Family Therapy Regulatory Boards (AMFTRB). The chart provides the titles used by each state for marriage and family therapist licensees and pre-licensees.

Findings from the chart include the following:

- Although a few states still use the “intern” title, many more use the “associate” title.
- Some states do not register post-degree graduates who are gaining experience hours toward licensure, making direct comparison with these states difficult.
- Other titles utilized for post-degree applicants include
 - Certified Marriage and Family Therapist (Tennessee)
 - Resident in Marriage and Family Therapy (Virginia)
 - Unlicensed Marriage and Family Therapist (Washington DC)
 - Provisionally Licensed Marriage and Family Therapist (West Virginia)
 - Training Licensed Marriage and Family Therapist (Wisconsin)
 - Provisional Marriage and Family Therapist (Wyoming)

Staff also looked at the statutes for a sample of high-population states to determine the title given to those gaining experience hours (if any):

Texas: Uses the term “Licensed Marriage and Family Therapist Associate” to refer to someone who performs services for compensation under board- approved supervision. (Texas Administrative Code Title 22, §801.2)

Colorado: Registers “Marriage and Family Therapist Candidates”, which are individuals who have completed their degree but who still need to gain supervised experience and pass an exam. (Colorado Revised Statutes §12-43-504)

Massachusetts: Does not register those still gaining experience. According to the law, private practice settings are not considered acceptable settings for post-masters supervised clinical experience. (Code of Massachusetts Regulations (CMR); 262 CMR 3.03)

New York: New York issues a limited permit for applicants who meet all qualifications for licensure except the examination and/or experience requirements. (New York State Education Law, Title 8, Article 163, §8409)

Titles in Other States - LPCC Applicants

Attachment C contains a partial state licensure comparison chart completed by the American Counseling Association (ACA) in 2014. The chart includes titles used in other states for professional clinical counselors and pre-licensure registrants. (The chart contains extensive licensure information for each state; therefore, it is quite lengthy and staff has chosen a sampling of states only.)

Here are some key findings from the ACA chart:

- States use a wider variety of terms for pre-licensed LPCCs than they do for pre-licensed LMFTs. They include the following:
 - Licensed Professional Clinical Counselor Candidate (Colorado)
 - Provisional Mental Health Counselor (Florida)
 - Conditional Licensed Clinical Professional Counselor (Maine)
 - Professional Counselor/Clinical Resident (Ohio)
 - Limited Licensed Professional Counselor (Michigan)
 - Counselor-in-Training (Missouri)
 - Licensed Graduate Professional Counselor (Maryland)

- According to the chart, 12 states use “Associate” in their pre-licensed title, while 7 states use “Intern.”

Staff also looked at the statute of the same sample of larger states to determine the title given to those gaining experience hours (if any):

Texas: Uses the term “LPC Intern” to refer to someone who may practice only under the supervision of a Licensed Professional Counselor Supervisor (Texas Administrative Code Title 22, §681.52)

Colorado: Uses the title “Licensed Professional Counselor Candidate” for individuals who have completed their degree but who still need to gain supervised experience and pass an exam. (Colorado Revised Statutes §12-43-603)

Massachusetts: Supervised experience must be gained at a clinical field experience site. A clinical field experience site does not include private practice. (Code of Massachusetts Regulations (CMR); 262 CMR 2.02)

New York: New York issues a limited permit for applicants who meet all qualifications for licensure, except the examination and/or experience requirements. (New York State Education Law, Title 8, Article 163, §8409)

BBS Title History

In the early 1970’s, the Board’s LMFT licensing law made no apparent references to any pre-licensed status. In November 1978, a regulation section was added identifying marriage, family, and child counselor interns and discussed the education required to register as an intern.

Around this same time, social workers had a reference to an “apprentice clinical social worker” in statute, which was defined as a person with a master’s degree working under supervision. This title was deleted in 1976. Social workers also had a “registered social worker” status.

Previous BBS Title Change Legislation

Legislative and regulatory changes will be needed if the Board decides to change LMFT and LPCC registrant titles from “Intern” to “Associate.”

The Board’s last title change was in 1999, when the title “marriage, family and child counselor” was changed to “marriage and family therapist.” AB 1449 (Chapter 108, Statutes of 1998) added §4980.08 to the Business and Professions Code, and stated that any reference in any statute or regulation to a “marriage, family and child counselor” shall be deemed a reference to a “marriage and family therapist.”

AB 1449 had a six-month delayed implementation. The Board then gradually changed the references in statute and regulation, with many (but not all) references being changed in 2003.

Proposed Language

Attachment A shows the suggested language if the Board was to decide to move forward with the title change for LMFT and LPCC registrants.

To start, the language simply states that in any statute or regulation, the “intern” and “associate” titles are equivalent. In subsequent years, the Board would need to change references to “interns” in the law when it runs other bills or regulatory proposals.

The language proposed in **Attachment A** also contains a one-year delayed implementation, to January 1, 2018. This would allow the Board time to update Section 1811 of the regulations, which lists specific titles that registrants may use in advertisements.

Recommendation

Conduct an open discussion about the pros and cons of changing the LMFT and LPCC registrant titles from “Intern” to “Associate.”

If the Committee believes the change is appropriate, direct staff to make any discussed changes, as well as any non-substantive changes, to the proposed language, and bring to the Board for consideration as a legislative proposal.

Subject: Proposed 2016 Omnibus Legislation

Upon review, staff has determined that several sections of the Business and Professions Code (BPC) pertaining to the Board of Behavioral Sciences require amendments. These amendments are as follows:

- 1. Delete BPC Sections 4980.40, 4980.50, 4980.80, 4980.90, 4984.01, 4984.7, 4984.72, 4992.1, 4996.1, 4996.3, 4996.4, 4999.45, 4999.46, 4999.50, 4999.52, 4999.57, 4999.58, 4999.59, 4999.100 - Expired Examination Restructure Provisions and Out-of-State Applicant Provisions**

Background: The Board's examination restructure, affecting the exam process for LMFT, LCSW, and LPCC applicants, takes effect on January 1, 2016. The Board's new out-of-state application requirements for LMFT and LPCC applicants also take effect on January 1, 2016. At this time, several Business and Professions Code sections defining the old processes and requirements become inoperative.

Recommendation: Delete the above-referenced BPC sections, as they are no longer operative.

- 2. Amend BPC Sections 4980.43(b), 4996.23, and 4999.47(a) – Experience Gained as an Independent Contractor**

Background: The law allows LMFT, LCSW, and LPCC applicants to gain experience hours as a W-2 employee or a volunteer, but not as an independent contractor. However, the Board gets a significant number of applications for exam eligibility from individuals who are contracting and receiving a 1099 tax form. Some applicants think that because the statute says "employed", they can be 1099 employees, which is incorrect.

Recommendation: Amend the law to clarify that interns, trainees, and associates may not be employed as independent contractors, and that they may not gain any experience hours for work performed as an independent contractor and/or reported on an IRS Form 1099.

3. Amend BPC Sections 4980.43 and 4999.46 – Amount of Supervised Experience Required for Applicants in the Exam Cycle

Background: LMFT and LPCC licensing law requires all applicants to be under supervision at all times. It sets specific requirements for how much supervision and intern and trainee must have. However, the law is unclear about how much supervision an LMFT and LPCC applicant in the exam cycle must obtain. Unlike interns, such an applicant is no longer gaining experience hours to count toward licensure and is waiting to take/pass the examinations.

LCSW licensing law has a provision that specifies that associates and applicants for examination must receive at least one hour of supervision per week for each setting he or she is working in (BPC §4996.23(n)). This does not mean more hours may not be required, for example, if an associate worked over 10 hours in a setting, he or she would still be required to obtain an additional hour of supervision (BPC §4996.23(c)(3)).

Recommendation: Amend BPC Sections 4980.43 (LMFT law) and 4999.46 (LPCC law) to state that interns and applicants for examination must receive at least one hour of direct supervisor contact per week for each setting he or she is working in. This would clear up confusion about how much supervision an applicant who is finished gaining his or her hours, but who has not yet passed the examination, must obtain.

As part of this change, BPC Sections 4980.43(c)(2) (LMFT law) and 4999.46(g)(2) have also been amended to clarify that these subsections only apply to interns and intern applicants (those following the 90 day rule which allows gaining hours in an exempt setting while waiting for the intern number to be issued).

4. Amend BPC Section 4992.05 – Associate Clinical Social Worker Reference

Background: The statute refers to registrants gaining hours to be an LCSW as “associate clinical social workers.” Subsection 4992.05(b) references “associate social workers.”

Recommendation: Replace the term “associate social worker” in Section 4992.05(b) with the term “associate clinical social worker.”

5. Amend BPC Section 4996.18 – LCSW Applicants: School Accreditation and Exam Eligibility

Background: This statute states that an LCSW applicant is not eligible for examination until his or her school or department of social work has received accreditation by the Commission on Accreditation of the Council on Social Work Education.

The purpose of this statute is to keep an LCSW applicant from becoming licensed until it is confirmed that his or her school obtains the accreditation required for licensure. However,

the wording of this requirement could be problematic when the timing of the exams changes with the exam restructure.

Under the exam restructure, associates must take a law and ethics exam within the first year of registration in order to renew that registration. This new requirement results in the first examination being taken much sooner after graduation than the previous requirement did (previously, both required exams were taken at the end of gaining hours). Since accrediting a school sometimes takes several years, the language could cause a first year associate to be unable to take the law and ethics exam, and consequently, be unable to renew his or her associate registration.

To remedy this situation, staff proposes allowing registrants to take the law and ethics exam so that they may continue renewing their registrations. Instead, they would be prohibited from taking the clinical exam (which is taken later, at the end of gaining hours) until the school has achieved accreditation.

Recommendation: Amend BPC §4996.18(c) as follows:

“...The applicant shall not, however, be eligible ~~to~~ take the clinical examination until the school or department of social work has received accreditation by the Commission on Accreditation of the Council on Social Work Education.”

6. Amend BPC Sections 4999.40, 4999.60, 4999.61 – Program Certification Requirement for LPCC Applicants

Background: LMFT law (BPC §4980.38) requires that an applicant for registration or licensure must submit a certification from his or her educational institution that the institution's required curriculum for graduation meets either the education requirements specified in BPC §4980.36 (for graduate degrees begun after August 1, 2012) or BPC §§ 4980.37 and 4980.41 (for graduate degrees begun before August 1, 2012).

There is no requirement in law that LPCC applicants submit this type of certification, although it is required in the application. Such a certification is a crucial piece of information as it assists the Board's evaluators in determining whether an individual's degree meets all education requirements. Even though the information is currently being obtained through the application, staff believes it important to have such a requirement in LPCC law in case provision of the information is ever challenged.

Recommendation: Add a subsection in BPC §4999.40 requiring LPCC applicants to provide a program certification to the Board, just as LMFT applicants are required to do. Change references to section 4999.40 in sections 4999.60 and 4999.61.

7. Delete BPC Section 4999.54, Amend BPC Sections 4999.52, 4999.120 – Expired LPCC Grandparenting Provision

Background: This section established a grandparenting period at the beginning of the LPCC licensing program. The Board accepted applications for licensure via grandparenting between January 1, 2011 and December 31, 2011.

Until this time, it was necessary to keep the grandparenting provision in law because there were applicants who were still in the one-year remediation period if they had deficiencies in

their education and experience, and there were still applicants in the exam cycle attempting to pass the grandparenting-required exams.

As of summer 2015, all remediation periods have expired and the final grandparenting exam has been administered. Therefore, this section is no longer necessary.

Recommendation: Delete BPC §4999.54, as it is no longer necessary. Amend BPC §§4999.52 and 4999.120 to remove references to BPC §4999.54.

Recommendation

Conduct an open discussion about the proposed amendments. Direct staff to make any discussed changes, and any non-substantive changes, and bring to the Board for consideration as a legislative proposal.

Subject: Acceptance of Accreditation Agencies

Background

Current LMFT licensing law (Business and Professions Code (BPC) §§ 4980.36 and 4980.37) require the qualifying degree be obtained from a school, college or university that is approved by the state Bureau for Private Postsecondary Education, or accredited by either the Commission on Accreditation for Marriage and Family Therapy Education (COAMFTE) or by a regional accrediting agency that is recognized by the United States Department of Education (USDE).

LPCC licensing law also requires the qualifying degree be obtained from an accredited or approved school. It defines “accredited” as a school, college, or university that is accredited by the Western Association of Schools and Colleges, or its equivalent regional accrediting association. (BPC §4999.12(b))

Both LMFT and LPCC law gives the Board the discretion to make the final determination as to whether a degree meets all requirements, regardless of accreditation or approval. (BPC §§4980.36(b), 4980.37(b), 4999.32(d), 4999.33(f))

Summary of the Problem

Board staff believes that it may be helpful to revise the definition of an “accredited” school in statute.

Currently, the statute references a regional accrediting agency recognized by the USDE as acceptable. However, the USDE does not recognize a specific category of regional-only accrediting agencies. Instead, the USDE recognizes two basic categories of accreditation, as follows:

1. Regional and National Institutional Accrediting Agencies; and
2. Specialized Accrediting Agencies.

Recently, the Board received an application from The Seattle School of Theology and Psychology (The Seattle School), which offers a Masters of Arts in Counseling Psychology. The degree program meets the Board's educational requirements. However, the school is accredited by the Commission on Accrediting of the Association of Theological Schools (ATS) and the Transnational Association of Christian Colleges and Schools (TRACS).

Historically, the Board would have rejected the application, due to the fact that BPC §§4980.36 and 4980.37 state that the degree program must be accredited by a regional accrediting agency that is recognized by the USDE. The Board has interpreted this phrase to mean that the school must be accredited by a regional accrediting agency such as the Western Association of Schools and Colleges (WASC) or a similar regional entity.

Upon further research, staff learned that TRACS is recognized by USDE as a "regional and national institutional accrediting agency," and ATS is recognized by USDE as a "specialized accrediting agency." Due to that and the fact that the degree met all educational requirements, the application was ultimately accepted using the Board's "discretion to make the final determination" clause in law.

However, this case demonstrates that the law could be clarified by better aligning the definition of an "accredited" school with USDE's definition.

USDE Accreditation

Attachment B contains the USDE's FAQs about accreditation. It explains that there are two types of accreditation, "institutional" accreditation (categorized by USDE as "regional and national institutional accrediting agencies") and "specialized" or "programmatic" accreditation (categorized by USDE as "specialized accrediting agencies").

"Institutional" accreditation usually applies to the entire educational institution, while "specialized" accreditation usually applies to specific programs within an institution.

Attachment C contains the USDE's listing of its recognized regional and national institutional accrediting agencies. This list includes the regional accrediting agencies, such as WASC, but also includes agencies that do not fit the definition of "regional" entities, such as TRACS.

Attachment D contains the USDE's listing of its recognized specialized accrediting agencies. This list is much more extensive, and contains agencies that accredit programs for various specialized professions.

Proposed Amendments

Staff recommends that the Board consider accepting a degree from a program accredited by a "regional or national institutional accrediting agency" that is recognized by the USDE, rather than simply referring to a USDE-recognized regional accrediting entity. This amendment would make Board's statute consistent with the categories that USDE recognizes.

The amendment would need to be made in BPC sections 4980.36 and 4980.37 (LMFT degree program requirements), BPC sections 4980.78 and 4980.79 (LMFT education requirements for out-of state applicants) and BPC section 4999.12 (LPCC definition of an accredited school).

In addition, staff recommends deleting BPC section 4980.40.5. This section was put in place in 2009 when the State of California's Bureau for Private Postsecondary Education (BPPE) had been sunset. The BPPE is no longer sunsetted, and therefore this section is no longer used.

The proposed amendments are shown in **Attachment A**.

Recommendation

Conduct an open discussion about the proposed language shown in **Attachment A**. Direct staff to make any discussed changes, as well as any non-substantive changes to the proposed language, and submit to the Board for consideration as a legislative proposal.

FAQs about Accreditation

[Back to Home](#)**What is accreditation?**

Accreditation is the recognition that an institution maintains standards requisite for its graduates to gain admission to other reputable institutions of higher learning or to achieve credentials for professional practice. The goal of accreditation is to ensure that education provided by institutions of higher education meets acceptable levels of quality.

What are accrediting agencies?

Accrediting agencies are organizations (or bodies) that establish operating standards for educational or professional institutions and programs, determine the extent to which the standards are met, and publicly announce their findings.

Are there different types of accreditation?

There are two basic types of educational accreditation, one identified as "institutional" and one referred to as "specialized" or "programmatic." Institutional accreditation normally applies to an entire institution, indicating that each of an institution's parts is contributing to the achievement of the institution's objectives, although not necessarily all at the same level of quality. Specialized accreditation normally applies to the evaluation of programs, departments, or schools which usually are parts of a total collegiate or other postsecondary institution. The unit accredited may be as large as a college or school within a university or as small as a curriculum within a discipline. Most of the specialized accrediting agencies review units within a postsecondary institution which is accredited by one of the regional accrediting commissions. However, certain of the specialized accrediting agencies accredit professional schools and other specialized or vocational or other postsecondary institutions which are free-standing in their operations. Thus, a "specialized" or "programmatic" accrediting agency may also function in the capacity of an "institutional" accrediting agency. In addition, a number of specialized accrediting agencies accredit educational programs within non-educational settings, such as hospitals.

Can the institutional accreditation system be used to determine whether my credit hours will transfer or what courses will satisfy my professional license renewal?

Accreditation does not provide automatic acceptance by an institution of credit earned at another institution, nor does it give assurance of acceptance of graduates by employers. Acceptance of students or graduates is always the prerogative of the receiving institution or employer. For these reasons, besides ascertaining the accredited status of a school or program, students should take additional measures to determine, prior to enrollment, whether or not their educational goals will be met through attendance at a particular institution. These measures should include inquiries to institutions to which transfer might be desired or to prospective employers and, if possible, personal inspection of the institution at which enrollment is contemplated.

Is every accrediting agency included in the database?

Only agencies that are recognized by the U.S. Department of Education are included in this database.

Accreditation in the United States

Regional and National Institutional Accrediting Agencies

The following regional and national accrediting agencies are recognized by the Secretary as reliable authorities concerning the quality of education or training offered by the institutions of higher education or higher education programs they accredit.

The dates specified for each entry are (1) the date of initial listing as a nationally recognized accrediting agency, (2) the date of the most recent review for renewed recognition of the agency by Department staff and by the NACIQI, and (3) the date of the next scheduled review of the agency's compliance report or full petition for renewal of recognition. (Note: S=Spring NACIQI meeting; F=Fall NACIQI meeting; C= Compliance Report)

Unless otherwise noted in a Title IV note after the agency's name, accreditation by an agency listed below may be used by an institution accredited by the agency to establish eligibility to participate in Title IV programs. Since December 1999, the Department has been routinely including distance education (defined at the time to include correspondence education) in its in-depth review of all agencies seeking initial or continued recognition. Consequently, all recognition decisions made after December 1, 1999 and prior to July 2010 include a determination as to whether an agency's scope of recognition includes the accreditation of distance education. Beginning in July 2010, at each review for renewal of recognition, an agency will be expected to demonstrate its evaluation of distance education and/or correspondence education in order to retain distance education and/or correspondence education in its scope of recognition.

Subject: Review of Board Sponsored and Monitored Legislation

BOARD-SPONSORED LEGISLATION

The Board sponsored the following legislative proposals:

1. **SB 531 (Bates) Board of Behavioral Sciences Enforcement Process**

This bill makes two separate amendments to the law governing the enforcement process:

- a) It modifies the Board's requirements for an individual to petition for a termination of probation or modification of penalty. Under the proposal, the Board may deny a petition without hearing if the petitioner is not in compliance with the terms of his or her probation.
- b) It clarifies that the Board has jurisdiction to investigate and take disciplinary action even if the status of a license or registration changes or if the license or registration expires.

The goal of these changes is to increase the efficiency of the enforcement process.

This bill proposal was approved by the Board at its November 20, 2014 meeting.

Signed by the Governor (Chapter 261, Statutes of 2015).

2. **SB 620 (Block) Board of Behavioral Sciences: Licensure Requirements**

This bill streamlines the experience requirements for LMFT and LPCC applicants. It eliminates the complex assortment of minimum and maximum hours of differing types of experience required for licensure (also known as the "buckets" of experience) and instead requires 1,750 hours of the experience to be direct clinical counseling hours. The remaining required 1,250 hours may be non-clinical experience.

The bill also makes amendments to LCSW law to allow LCSW applicants to count some direct supervisor contact hours, as well as some hours spent attending workshops, trainings, conferences, and seminars, toward their required experience.

This bill proposal was approved by the Board at its November 20, 2014 meeting.

Signed by the Governor (Chapter 262, Statutes of 2015).

3. **SB 800 (Senate Business, Professions, and Economic Development Committee) Healing Arts (Omnibus Bill)**

This bill proposal, approved by the Board at its November 20, 2014 meeting, makes minor, technical, and non-substantive amendments to add clarity and consistency to current licensing law.

Signed by the Governor (Chapter 426, Statutes of 2015).

BOARD-SUPPORTED LEGISLATION

AB 250 (Olberholte): Telehealth: Marriage and Family Therapist Interns and Trainees

This bill would clarify that MFT interns and trainees may practice via telehealth.

At its May 21, 2015 meeting, the Board took a “support” position on this bill.

Signed by the Governor; Chapter 50, Statutes of 2015.

AB 858/690 (Wood): Medi-Cal: Federally Qualified Health Centers: Rural Health Clinics

AB 690 bill would allow Medi-Cal reimbursement for covered mental health services provided by a marriage and family therapist employed by a federally qualified health center or a rural health clinic.

At its May 21, 2015 meeting, the Board took a “support” position on AB 690.

Status: The provisions of AB 690 were amended into another bill, AB 858, on May 28, 2015. However, the Governor vetoed AB 858. AB 690 is a two-year bill, and therefore may still reappear next legislative session.

AB 832 (Garcia): Child Abuse: Reportable Conduct

This bill would specify that voluntary acts of sodomy, oral copulation, and sexual penetration are not considered acts of sexual assault that must be reported by a mandated reporter, unless it is between a person age 21 or older and a minor under age 16.

At its May 21, 2015 meeting, the Board took a “support if amended” position on this bill, and asked for an amendment to clarify that only non-abusive sexual conduct would not be reportable.

Status: The Board’s requested amendment was made, however this is a two-year bill.

AB 1001 (Maienschein): Child Abuse: Reporting

This bill clarifies that it is illegal for anyone, including a supervisor, to impede or interfere with the making of a mandated report of suspected child abuse or neglect.

At its May 21, 2015 meeting, the Board took a “support” position on this bill.

Status: This is a two-year bill.

AB 1140 (Bonta): California Victim Compensation and Government Claims Board

This bill contains language that clarifies that a violence peer counselor may not perform services that fall under the scope of practice of any of the professions which the Board regulates, unless those services take place in an exempt setting.

At its June 12, 2015 meeting, the Board reviewed and took a “support if amended” position on this language, asking for one minor clarifying amendment.

Signed by the Governor (Chapter 569, Statutes of 2015).

THE BOARD MONITORED THE FOLLOWING LEGISLATION:

AB 85 (Wilk): Open Meetings

This bill would make an advisory body consisting of less than three members subject to the Bagley-Keene Open Meeting Act if a member of the state body is serving on it in his or her official capacity, and if the advisory body is supported, wholly or partially, by funds from the state body.

At its May 21, 2015 meeting, the Board took an “oppose” position on this bill.

The Governor vetoed this bill.

AB 333 (Melendez): Healing Arts: Continuing Education

This bill would allow a healing arts licensee who takes coursework toward, and becomes a certified instructor of, CPR or AED use, to count one unit of credit toward his or her continuing education requirement. The CE credit would only count if the licensee’s licensing board laws or regulations do not exclude counting such courses or activities.

At its May 21, 2015 meeting, the Board took an “oppose unless amended” position on this bill, and asked that the Board be removed from the provisions of the bill.

This bill was amended on June 24, 2015 to require a licensing board’s laws or regulations to allow CPR or AED continuing education courses in order for the provisions of this bill to apply. Therefore, this bill no longer affects Board licensees, as the Board’s statutes and regulations do not permit this type of CE coursework. The Board’s position is now “neutral.”

Signed by the Governor (Chapter 360, Statutes of 2015).

AB 796 (Nazarian): Health Care Coverage: Autism and Pervasive Developmental Disorders

This bill modifies the definition of “qualified autism service professional” and “qualified autism service paraprofessional” to allow insurance coverage for types of behavioral health treatment other than applied behavior analysis.

At its May 21, 2015 meeting, the Board opted to remain neutral on this bill.

Status: This is a two-year bill.

AB 1279 (Holden): Music Therapy

This bill seeks to define music therapy in statute and to provide guidance to consumers and agencies regarding the education and training requirements of a qualified music therapist.

At its May 21, 2015 meeting, the Board opted to remain neutral on this bill.

The Governor vetoed this bill.

SB 479 (Bates): Healing Arts: Behavior Analysis: Licensing

This bill establishes licensure for behavior analysts and assistant behavior analysts under the Board of Psychology.

At its June 12, 2015 meeting, the Board opted to remain neutral on this bill.

Status: This is a two-year bill.

SB 614 (Leno): Medi-Cal: Mental Health Services: Peer and Family Support Specialist Certification

This bill would require the State Department of Health Care Services to develop a peer and family support specialist certification program.

At its May 21, 2015 meeting, the Board took an "Oppose unless Amended" position on this bill, requesting amendments that specified certain information in statute, rather than designating that information to be defined in regulations. The amendments the Board requested in statute are as follows:

- Inclusion of a clear definition of a peer and family support specialist;
- Inclusion of a defined scope of practice for a peer and family support specialist;
- Specification of the required hours of supervision for a peer and family support specialist, and identification of who may provide this supervision;
- Specification of the training requirements for a peer and family support specialist; and
- Addition of a fingerprinting requirement for peer and family support specialists.

This bill was amended on July 6, 2015. The amended version provides a definition of a peer and family support specialist, as the Board requested. However, the Board's remaining requested amendments are either not addressed or are only partially addressed.

Status: This is a two-year bill.
